Amendment #002 is raised to answer the following questions:

Q What type of trade certification you are looking for.

A. No licence required to do inspections on cranes or vehicle lifts. The contractor's inspectors must be competent persons as required by law with at least 1 year experience in inspections of cranes/hoists/vehicle lifts.

A The weld inspections listed on the inspection sheets, are you looking for just visual inspections or more in-depth?

Q Visuals inspections. Technical Authority may request more in-depth inspections. This would be decided before the work commenced and would be determined by the type of equipment being welded.

Q. What are we liable for if failures occur between inspections?

A. The contractor is responsible to comply with the Statement of Work as it relates to the performance of the work. Also see, Annex C, Commercial and General Liability Insurance.
