

Amendment 2 to Request for Proposal (RFP) 1000148022

Amendment 2 is raised to answer the following:

Q1 Could you please provide clarification on Mandatory Requirement 1 (M1) regarding one of the criteria for “Senior Researcher” as listed on page 2 of Section I. The text indicates “Graduation with a doctorate degree from a recognized university with an acceptable specialization in health.”

Does “doctorate degree” include an MD (Doctor of Medicine) degree? Sometimes the use of doctorate degree is restricted to doctoral degrees (e.g. PhD, EdD, ScD etc.) but it can also be used generally to refer to the highest level of an academic or professional degree. Please indicate whether an MD meets the criterion of “doctorate degree” as referred to in this RFP.

A1 Yes a Medical Doctor (Doctor of Medicine) would meet this criteria.
