This amendment is raised to answer the following:

Q1: Requesting a copy of the MSDS for the "Snail Lubricant" from Savage Range Systems for the 25B range Snail Trap/Water Trap system.

A1: MSDS attached.

Q2: What is the ratio the Snail Lubricant for the 25B range for the Snail Trap / Water Trap system?

A2: The snail oil is mixed at 3 percent so there would be 3 total pails used per change out as each pail is 20 liters.

Q3: Estimated or actual weight of the 30 gal drums of lead shot used on the 25B range.

A3: Barrels weight could range from 500 to 800 pounds.

Q4: Under Annex A - Statement of Work 1. Scope of Work (2) - it states a disposal certificate and/or completed manifest must accompany all invoices. A copy of the Haz Waste Manifest (when used) will be provided, or a copy of the Dangerous Goods Bill of Lading (when used) will be provided. This will show where the material is being routed. Will this be sufficient documentation? If a Certificate is required, can you clarify if this is required from the contractor or from the end disposal/recycling facility?

A4: A bill of lading and/or completed manifest will be sufficient. No other certificate is required.

Annex A, Statement of Work 1.2:

Delete:

2. A disposal certificate and/or completed manifest must accompany all invoices. The certificate and/or manifest must show that the disposition of materials has been in accordance with current Federal, Provincial and Municipal Regulations and Legislation. Payment will not be made until the disposal certificate and/or manifest has been provided.

Insert:

2. A bill of lading and/or completed manifest must accompany all invoices. The bill of lading and/or manifest must be in accordance with current Federal, Provincial and Municipal Regulations and Legislation. Payment will not be made until the bill of lading and/or manifest has been provided.
