

**QUESTION & ANSWER #2**

**SOLICITATION K2AA0-13-0025**

**Question 1:**

We noticed an oversight with respect to the evaluation matrix. On pages 20/21, for R5 and R6, you specify that "less than 3" and "less than 5" projects would result in only 5 points, whereas the next higher bracket is either 4-5 or 6-7. Our question is, how many points would a team get that has exactly three or exactly five relevant projects - would that be part of the higher or the lower bracket?

**Answer to Question 1:**

Please see Amendment #1 for the revised scoring scheme for R5 and R6.
