RCMP VIEWING SAMPLE/ ÉCHANTILLON VISUEL DE LA GRC

A viewing sample, when available, will be supplied to the successful tenderer.

This will be used for the guidance of the manufacturer in all factors not covered by this specification or referred to therein. Variation from the specification may appear in the sample in which case the specification shall govern.

It may be obtained from:

Royal Canadian Mounted Police
ATTN: Uniform and Equipment Program
(440 Coventry Road, Warehouse Building)
1200 Vanier Parkway
Ottawa, Ontario
K1A 0R2

It will be sent “prepaid” and is to be returned “prepaid”.

The viewing sample shall be returned to the RCMP in the same condition as received by the manufacturer. Lost or damaged viewing samples shall be replaced by an identical item or the RCMP shall be reimbursed for the cost of an acceptable replacement.

PURCHASE DESCRIPTION

TAMPERPROOF EVIDENCE BAG, TYPE #2 (Non-Fire Debris)

1. SCOPE

This purchase description describes the requirements for "Tamper Proof Evidence Bag, Type #2 (Non-Fire Debris)" with a barrier design for use by Royal Canadian Mounted Police personnel for various types of samples including drugs and potentially hazardous materials, but excluding fire debris.

2. DETAILED DESCRIPTION

2.1 **General** - Tamperproof Evidence Bag, Type #2 (Non-Fire Debris) shall be constructed of a clear nylon/polyethylene film with an adhesive-backed tamper-proof tape for closure. The nylon layer serves as a barrier to the transfer of volatile material. The polyethylene layer allows the bag to be heat sealed in addition to being sealed with the tamper-proof tape.

2.2 **Material**

2.2.1 The film shall be a two layer laminate using transparent nylon 6-6 film (19 micrometers thickness minimum) on the exterior with a low density polyethylene (76 micrometers thickness minimum) on the interior.

Certificate of compliance must be provided.

2.2.2 **Tape** - The tape shall be an adhesive-backed tamper-proof tape 95mm in width, +/- 3mm. The adhesive shall perform in the temperature range of -30°C to +40°C.

Note: The adhesive-backed tape must be such that once the bag is sealed it cannot be opened, entered or have evidence removed from the bag without damage to either the plastic film of the bag or the tape.

Certificate of compliance must be provided.

2.3 **Construction** - The bag or the material specified in Para. 2.2.1 shall be securely heat sealed, 10 to 13mm in width, across the bottom and both sides. The top shall be equipped with the tape specified in Para. 2.2.2, for closure. The tape shall be attached to one outer surface of the bag to a depth of 20 mm with the remaining 75mm having a removable strip to protect the adhesive. Care shall be taken to ensure proper placement of the tape to ensure no appreciable gap forms between the adhesive backed label and the opening of the bag. Quality of workmanship shall be equal to the viewing sample.

- 2.4 **Tape Marking** - Each bag shall have the following wording legibly and indelibly printed on the tamper proof tape, font Times New Roman, all capitals, letters 3 to 3.5mm high:

TYPE #2 TAMPERPROOF EVIDENCE BAG/ SAC DE SÉCURITÉ DE PIÈCE À CONVICTION, CATÉGORIE 2

*****NOT SUITABLE FOR FIRE-DEBRIS EVIDENCE/ NE PAS UTILISER POUR LES PIÈCES À CONVICTION DE DÉBRIS D'INCENDIE*****

*****EXHIBITS MUST BE PROPERLY DRIED PRIOR TO SEALING/ LES PIÈCES À CONVICTION DOIVENT ÊTRE COMPLÈTEMENT SÈCHES AVANT DE SCELLER LE SAC*****

CAPTION/ TITRE: _____

FILE #/ N° DU DOSSIER: _____

ITEM #/ N° DE L'ARTICLE: _____

INVESTIGATOR/ ENQUÊTEUR: _____

DATE & TIME/ DATE ET HEURE: _____

**SAMPLE DESCRIPTION/
DESCRIPTION D'ÉCHANTILLON:** _____

Each bag shall have the manufacture date of the bag indicated on the tape label.

- 2.5 **Bag Marking** - Printed across the bottom seal of the bag shall be the word "EVIDENCE" repeated across the entire width of the bag, readable from the same side of the bag as the label. The lettering shall be plain gothic type, dark blue in colour not less than 3mm high. The printing shall be embedded between 2 layers of film and shall be readable from the same side of the bag as the label when sealed.

- 2.6 **Size** - The bags shall be supplied in the following sizes:

Size A – 127 mm x 229 mm

Size B – 254 mm x 406 mm

Size C – 356 mm x 406 mm

Size D – 406 mm x 762 mm

Size E – 635 mm x 1140 mm

Size F – 155 mm x 170 mm

- 2.7 Tolerance: +/- 5mm on all dimensions in Para. 2.6 measurements are from edge to edge including the heat-sealing.

Appendix A

Tamperproof Evidence Bag - PD-IE-02 Pre-Contract Award Sample Evaluation Criteria

Paragraph / Subject	Requirement
2.2.1 / Material	Failure to meet this requirement will be cause for rejection. Certification of compliance document required with the pre-contract award sample.
2.2.2 / Tape / Performance	Failure to meet this requirement will be cause for rejection. The performance of the tape must be compliant. The dimensions of the tape are not critical but pre-production and production samples must be compliant.
2.3 / Bag Construction	Failure to meet this requirement will cause for rejection. The pre-contract award sample must be compliant.
2.4 / Tape Marking	Supplier must demonstrate their capability of the marking request however, this is not critical at the pre-contract award stage. It will be mandatory at the pre-production sample and production stage.
2.5 / Bag Marking	This is not critical at the pre-contract award sample stage. It will be mandatory at the pre-production sample and production stage.
2.6 / Size	This is not critical at the pre-contract award sample stage. It will be mandatory at the pre-production sample and production stage.
