Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

The Office of the Procurement Ombudsman (OPO) was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at boa.opo@boa.opo.gc.ca. You can also obtain more information on the OPO services available to you at their website at www.opo-boa.gc.ca.

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the <u>Standard Acquisition Clauses and Conditions Manual</u>(https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2013-06-01) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.2 of Standard Instructions - Goods or Services - Competitive Requirements 2003 is amended as follows:

- (i) Delete: (d) send its bid only to Public Works and Government services Canada (PWGSC) Bid Receiving Unit specified on page 1 of the bid solicitation or to the address specified in the bid solicitation
- (ii) Insert: (d) send its bid only to Statistics Canada Bid Receiving Unit specified on page 1 of the bid solicitation or to the address specified in the bid solicitation

Subsection 5.4 of 2003, Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) days

Insert: one hundred twenty (120) days

In Section 4 of Standard Instructions - Goods or Services - Competitive Requirements 2003, add Subsection 8 as follows:

8. A bid cannot be assigned or transferred in whole or in part.

The paragraph 8 of 2003, Standard Instructions – Goods or Services – Competitive Requirements, is amended as follows:

Delete: in its entirety

Insert: submission cannot be faxed

2. Submission of Bids

Bids must be submitted only to Statistics Canada (StatCan) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile to Statistics Canada will not be accepted.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Request for proposal #1920-0000895

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (4) hard copies and (1) electronic copy in a PDF format on a CD or DVD

Section II: Financial Bid (1) hard copy

Section III: Certifications (1) hard copy

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green
Procurement (http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html). To assist Canada in reaching its objectives, bidders should:

- use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability in a thorough, concise and clear manner for carrying out the work.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

Note: In the case where a bidder wishes to submit a proposal for more than one region, a technical bid must be submitted for each region.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Pricing Schedule detailed in **Attachment 1 to Part 3**. The total amount of Applicable Taxes must be shown separately.

Note: In the case where a bidder wishes to submit a proposal for more than one region, a financial proposal must be submitted for each region.

Section III: Certifications

Bidders must submit the certifications required under Part 5. Refer to Attachment 1 to PART 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.
- (c) The evaluation team will determine first if there are three (3) or more bids with a valid Canadian Content certification. In that event, the evaluation process will be limited to the bids with the certification; otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than three responsive bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

Proposals will be evaluated first on the basis of the mandatory requirements. Bidders must meet **ALL** of the mandatory requirements in order to be considered further. Failure on the part of the bidder to meet one (1) or more of the mandatory requirements will result in the proposal being deemed non-compliant and ineligible for any further consideration or evaluation. Compliant proposals (i.e., those that satisfy all these criteria) will be evaluated in accordance with point-rated requirements.

Refer to Attachment 1 to Part 4.

1.1.2 Point Rated Technical Criteria

Compliant proposals (i.e. those that meet **ALL** mandatory requirements) will be evaluated in accordance with the point-rated criteria in this RFP.

Refer to Attachment 1 to Part 4.

2. Basis of Selection – Lowest Price Per Point

- 1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the bid solicitation;
 - b. meet all mandatory technical evaluation criteria; and
 - c. obtain the required minimum of **70 points** overall for the technical evaluation criteria which are subject to point rating. The rating is performed on a scale of **100 points**.
- 2. Bids not meeting (a) or (b) or (c) will be declared non-responsive. Neither the responsive bid that receives the highest number of points nor the one that proposed the lowest price will necessarily be accepted. The responsive bid with the lowest evaluated price per point will be recommended for award of a contract.

Financial Evaluation

The calculation to evaluate the **total cost per participant** by sample will be done as demonstrated in Table 1.

Example - Table 1

Description	Cost per participant who attends	# of Participants who attend (B)	Total cost for participants who attend (C)=(A)*(B)	Fixed Costs (D)	Total cost by sample (E)=(C)+(D)	# of Participants who attend (F)	Total cost per participant who attend by sample (G)=(E)÷(F)
Sample A Cost Estimate	\$ 100	28	\$2,800	\$200	\$3,000	28	\$107.14
Sample B Cost Estimate	\$80	10	\$800	\$150	\$950	10	\$ 95.00
Sample C Cost Estimate	\$200	6	\$1,200	\$100	\$1,300	6	\$ 216.67

Once the **Total Cost Per participant by sample** is established for the three (3) samples, they will be weighted as follows:

- 1. Sample A: 45% (cost per participant for sample A)
- 2. **Sample B:** 45% (cost per participant for sample B)
- 3. Sample C: 10% (cost per participant for sample C).

The total overall financial score will then be established (See Example at Table 2) and will be used to calculate the rank of the bidder (See Example at Table 3).

Example: Table 2 – Overall Financial Score (per bid submitted)

Sample	Cost per participant (A)	Weight on a Total of 100% (B)	Overall Financial Score (C) = (A) * (B)	
Sample A	\$107.14	45%	\$48.21	
Sample B	\$95	45%	\$42.75	
Sample C	\$216.67	10%	\$21.67	
	Total		\$111.50	

Example: Table 3 - Bidder Rank Determination

Bidder Company Name	Financial Evaluation Score	Technical Evaluation Score based on point-rated requirements	tion Score sed on nt-rated	
	(A)	(B)	(C)	(D)
ABC Inc.	\$98.53	90	1.10	1
DEF Ltd.	\$111.50	85	1.31	2
GHI Corp.	\$110.28	80	1.38	3

Within each region, the top five (5) ranked bidders with a responsive bid shall be recommended for contract award. In the case of a tie, the bidder who obtained the higher technical evaluation score shall be ranked by this score.

Example: Table 4 – Estimated value of each contract awarded per responsive bidder per region for the first period of the contract (April 1st, 2014 to March 31st, 2016).

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and documentation to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default, if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply with this request will also render the bid non-responsive or will constitute a default under the Contract.

1. Mandatory Certifications Required Precedent to Contract Award

By submitting a bid, the Bidder certifies that the Bidder and its affiliates are in compliance with the provisions as stated in Section 01 Code of Conduct and Certifications - Bid of Standard Instructions 2003. Venture, the Bidder must provide the Contracting Authority with a completed annex Federal

Contractors Program for Employment Equity - Certification, for each member of the Joint Venture.

2. Additional Certifications Required with the Bid

The certifications listed below should be completed and submitted with the bid but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

2.1 Canadian Content Certification

2.1.1. SACC Manual clause A3050T (2010-01-11) Canadian Content Definition

ANNEX A STATEMENT OF WORK

SW.1.0 TITLE

RECRUITMENT OF PARTICIPANTS FOR QUALITATIVE RESEARCH

SW.2.0 BACKGROUND

The Questionnaire Design Resource Centre (QDRC) of Statistics Canada is responsible for the development and testing of questionnaires on behalf of many different program area divisions of Statistics Canada. As part of its mandate, the QDRC tests household, business, institutional and agricultural survey questionnaires using methods such as focus groups and cognitive techniques. In connection with this work, the QDRC must often contract out the recruitment of participants for focus groups and one-on-one, in-depth interviews.

SW.3.0 OBJECTIVES

The objective of this Statistics Canada initiative is to develop a list of qualified contractors to undertake recruitment activities on behalf of the QDRC.

In order to simplify the contracting out and bidding process, the QDRC is requesting that companies interested in doing recruiting jobs prepare a proposal which includes cost estimates for three (3) typical Statistics Canada recruitment projects (Sample A, Sample B or Sample C, see SW.6.1 Applicable Documents). Statistics Canada will form a qualifying list of up to thirty companies by choosing a maximum of five of the best proposals for each of six regions across Canada:

- The Atlantic Provinces (Newfoundland and Labrador, Prince Edward Island, Nova Scotia, and New Brunswick)
- Québec (except for the NCR)
- The National Capital Region (NCR)
- Ontario (except for the NCR)
- Manitoba, Saskatchewan and Alberta
- British Columbia.

SW.4.0 PROJECT REQUIREMENTS

SW.4.1 Deliverables, Tasks, Milestones and Schedule

Deliverables:

The QDRC is looking for contractors to perform the following tasks in the following Regions:

Tasks:

- Discuss work plans, schedules and recruiting specifications with the QDRC.
- Prepare screening questionnaires.
- Recruit participants for focus groups and/or one-on-one, in-depth interviews according to the recruiting specifications of each project.

- Provide names and profiles of all participants to the QDRC.
- Make follow-up telephone calls to ensure that participants attend focus groups and interviews.

Regions:

- The Atlantic Provinces (Newfoundland and Labrador, Prince Edward Island, Nova Scotia, and New Brunswick)
- Québec (except for the National Capital Region (NCR))
- The National Capital Region (NCR)
- Ontario (except for the NCR)
- Manitoba, Saskatchewan and Alberta
- British Columbia

Milestones and Schedules

As per Task Authorization issued. For examples of potential projects, see SW.6.1, Applicable Documents (Sample A, Sample B or Sample C).

SW.4.2 Reporting Requirements

Operational Requirements (Procedures):

Each qualifying company will follow the terms of the contract for each project they undertake throughout the year.

a) Work Plan:

For each project, the following work plan will be followed:

- The QDRC chooses the first qualified Contractor in line from the list of qualified companies to do recruiting for a given region and project. A rotation will be exercised for subsequent projects.
- The QDRC calls the Contractor and informs them that they will be receiving a Statement of Work for the project by e-mail. The contractor will have forty eight (48) hours to reply to the QDRC. If the contractor expresses disinterest in the project in writing, the QDRC will send a Statement of Work to the next contractor on the list of qualified contractors.
- The Contractor must reply within forty eight (48) hours to the QDRC, by e-mail, with a proposal and cost estimate for the project.
- The QDRC accepts or rejects the proposal and cost estimate, and informs the Contractor of their decision within twenty four hours.
- The Contractor discusses the work plan, schedule and recruiting specifications (from the Statement of Work) with the QDRC.
- The Contractor prepares a screening questionnaire for the recruitment of focus group and/or indepth interview participants. This screening questionnaire takes into account factors outlined on the recruiting specifications such as sex, age, language spoken, occupation and other recruitment characteristics.
- The QDRC approves the screening questionnaire before any recruiting takes place.

- Using the screening questionnaire, the Contractor recruits participants. In almost all cases, the list
 of participant names must be generated by the company and is not provided by Statistics Canada.
- Approximately 24 hours before the scheduled focus group or interview time, the Contractor telephones each participant to confirm the date, time and location.
- If there are cancellations, the Contractor makes every reasonable effort to find replacements.
- The Contractor provides the names and profiles of all focus group/interview participants to the QDRC as described under "Deliverables" on the Statement of Work. The Statement of Work specifies the date when this information is required.

b) Administration:

The following administrative requirements will be in place for each project:

- The Contractor is monitored on performance throughout each project, according to federal government contract regulations, policies and guidelines, on aspects of the recruiting service such as timeliness of deliverables, attendance and quality of participants recruited.
- The Contractor's final payment shall be based on the number of participants who attend each group and/or the number of completed in-depth interviews. The Contractor shall not be paid for any cancellations or "no shows."
- Payment for work performed is made at the completion of significant phases or tasks of each project. At these stages, invoices are to be submitted to Statistics Canada for approval and payment.
- The work for each project is carried out according to the Treasury Board policy for federal government information collection and public opinion research (http://www.tbs-sct.gc.ca/pol/doceng.aspx?id=16491§ion=text).

c) Recruiting Specifications:

There are several recruiting specifications that will apply to every QDRC recruiting project:

- The Contractor must not recruit persons or members of the immediate family of people who work for the federal government, including Statistics Canada (unless specifically asked to).
- The Contractor must not recruit persons who work in market research, marketing, advertising or the media (i.e., radio, television, newspapers, etc.) unless specifically asked to.
- The Contractor must not recruit persons who have taken part in a focus group or in-depth interview in the previous 12 to 24 months (exact time frame to vary by project).
- The Contractor must make every reasonable attempt to avoid recruiting persons who personally know any person who is doing the recruiting.
- The Contractor must not recruit persons who personally know each other.

The Contractor must be aware that a project will often have additional recruiting specifications, not mentioned above, that are more specific to that project.

d) Information Provided to Participants:

During the recruitment of participants for a focus group/in-depth interview, the Contractor must provide the following information to each participant:

- the Contractor is recruiting on behalf of Statistics Canada
- the purpose of the focus group/in-depth interview
- the expected length of the focus group/in-depth interview

- the requirement to bring eyeglasses (if reading is required)
- the requirement that participants arrive 10 minutes early at the scheduled focus group/interview location
- the requirement that participants are comfortable speaking and reading the language of the focus group/interview

Additional information that is more project-specific must be conveyed to the participants, if requested by the QDRC.

Replacement of personnel:

Should the Bidder's resource identified in M4 of the Mandatory Requirements at any time be unable to provide services, the Contractor shall be responsible for providing replacement resources at the same cost who shall be equal (minimum two (2) years experience) or greater ability and attainment, and whom shall be acceptable to the Project Authority.

SW.4.3 Method and Source of Acceptance

All deliverables and services rendered under any contract are subject to inspection by the Project Authority. The Project Authority shall have the right to reject any deliverables that are not considered satisfactory, or require their correction before payment will be authorized.

Samples of Statement of Work

In SW.6.1 Applicable Documents of this Request for Proposals, Statistics Canada provides three sample Statements of Work, Samples A, B or C. These are fictitious, yet typical examples of the type of project for which a Contractor would have to submit a proposal before approval to start a project.

For evaluative purposes (see details on the evaluation), please provide the following:

- a cost estimate, per participant, for each of the three Samples A, B and C include all costs associated with recruiting (Such as: developing the screening questionnaire, project management cost), but do not include the cost of renting a focus group facility. Please note that the Goods and Services Tax (GST) is not to be included in the estimated cost for the three sample projects.

The amount of work available will be based on operational requirements. In all cases, Statistics Canada is only obligated to pay for services rendered.

SW.5.3 Estimated Period of the Contract

The expected starting date for the first period of the contract will be April 1st, 2014 and the completion date will be March 31st, 2016. Statistics Canada reserves the right to exercise the option of two (2) additional two (2) year periods under the same terms and conditions.
