Amendment 004

This amendment is raised to provide a question with answer to suppliers.

Question 1:

In the past National Defence units/bases would initiate these requests which is why they came from many locations with mobile service repairs done on-site. The requirement has now changed to have better control and visibility by the LCMM/TA?

Answer:

This R&O contract is to be handled by only one facility location (there will not be multiple) and it is the LCMMs/TAs responsibility and subsequent risk on what will or will not be sent in to repair. If there are requirements to repair on-site at a base/unit, then a Task Authorization for an FSR will be raised to identify the location and timeframe. There is no requirement to identify all the locations.

All other terms and conditions remain unchanged.
