AMENDMENT 012
REQUEST FOR PROPOSAL FOR REAL PROPERTY - 1
PROPERTY MANAGEMENT AND PROJECT DELIVERY SERVICES
(RP-1)
FOR PUBLIC WORKS AND GOVERNMENT SERVICES CANADA

THIS AMENDMENT HAS BEEN RAISED TO EFFECT THE FOLLOWING CHANGE:

SECTION A: QUESTIONS AND ANSWERS

Pursuant to Canada's response to Q35, which was published in Amendment #008, an updated report on the total number of maintenance activities carried out in fiscal year 2012/13 is attached to this amendment. The original report included assets that are being removed from the Alternative Forms of Delivery (AFD) contracts. Changes in the report are indicated as follows: deleted assets are in red strikethrough and revised totals in yellow highlights.

Q59:

The RFP states "...the Contractor agrees to offer the impacted employee(s) a Reasonable Job Offer, which must meet all of the following criteria:... in cases where the test of reasonableness set out in that Statement is not met, payment of a lump sum to employees pursuant to subsection 7.7.3 of the Directive;"

Our interpretation of this contract condition is that the Successful Bidder/Contractor will be required to make a lump sum payment to impacted employee(s), in effect offsetting the loss of their PWGSC pension benefit. PWGSC is requested to confirm that in the event that such a requirement is identified, PWGSC would typically determine the need for such a payment on the basis of an actuarial analysis, and that any subsequent lump sum payments issued by the Contractor, and associated financial service costs, would in turn be deemed Allowable Costs.

R59:

Please see number 29 under Section B: Changes to the Request for Proposal of this amendment 012.

Q60:

Paragraph 4.5.8.5 of the RP1 Statement of Work requires updating previous energy audits on a five year cycle and, during the first year of the contract, auditing facilities that have never been audited if funding is provided.

A) Are both the Year 1 and five year cycle energy audits part of the base scope of work or will they be separately funded per the supplier's recommendation and associated business cases?

B) Do the Year 1 and five year cycle energy audit requirements apply only to the buildings listed in RP1 Technical Information at 13E – Energy Audit Status or to the entire portfolio regardless of the ownership status, size, type and use of the facility?

A60:

A) The level of energy audit work for a given year is determined by each Custodian through the Building Management Plan (BMP) planning process and may vary depending on a number of factors, including Custodian plans and priorities and the funding available. Any energy audit work included in approved

BMPs may be incorporated in whole or in part in specific Work Authorizations with associated funding.

B) Energy audit requirements apply to all Crown Owned Assets in the Contract Inventory.

Q61:

We noticed some changes in the zip file information on the buyandsell.gc.ca website. How will we know when the information is updated?

A61:

All updates to the information contained in the zip file on buyandsell are identified in the text of the amendments to the Request for Proposal.

Q62:

Please confirm that the cost of annual certifications (e.g. WHMIS, fall arrest, lock out tag out etc.) and training that is required to deliver the statement of work in a compliant manner are an Allowable Cost or should these costs be carried in the Direct Labour Overhead Fee.

A62:

Certifications and training costs are to be included in the Direct Labour Overhead Fee. This is in accordance with paragraphs 2.4.7 and 2.4.10 under article TP3, Fees.

Further to Canada's response to Q62, see number 32 under Section B: Changes to the Request for Proposal of this amendment 012.

Q63:

Will Canada consider including the following change of law provision as a new section GC 10.5: *Should any applicable laws or regulations be revised, amended or repealed or new applicable laws or regulations be adopted during the period of the Contract, which result in either increases or decreases in the scope of Work, the service levels or the Contractor's costs to perform the Work, the Contract Price shall be adjusted accordingly.*

A63:

Canada will not include the wording proposed by the Bidder at GC10, Compliance with Applicable Laws. In accordance with 3.2.6 of TP2, Costs, the costs of building licenses, building certificates and building permits are considered allowable costs. Also, as stated at 3.3 of TP2, Costs,:

“3.3 The Allowable Costs of any changes to the Contractor's IM/IT systems and/or to the Contractor's Service Delivery Regime, resulting from changes to the Statement of Work, are payable to the Contractor.”

Further to Canada's response to Q63, see numbers 31 and 32 under Section B: Changes to the Request for Proposal of this amendment 012.

Q64:

SRE 5 Rated Technical Evaluation Criteria, No R-2, 5th paragraph, 1st bullet states: “the integration of management system and program processes and control points with other bidder's management and organizational activities”. Please clarify this bid submission requirement, for example, does it refer to:

- 1) the Bidder's other management and organizational activities, or
- 2) the management and organizational activities of other bidders, or
- 3) the management and organizational activities of other Contractors.

A64:

See number 28 at Section B, Changes to the Request for Proposal of this amendment 012.

SECTION B: CHANGES TO THE REQUEST FOR PROPOSAL

28. The following updates the English version of the RP-1 RFP only: the French version remains unchanged. Under Column D Bid Submission Requirements, at R-2 Bidder's Existing Service Delivery Regime Capabilities, under SRE5 Rated Technical Evaluation Criteria:

Delete:

The Bidder should describe the management framework that governs its management systems and programs, addressing areas such as:

- The integration of management system and program processes and control points with other bidder's management and organizational activities,

And insert:

The Bidder should describe the management framework that governs its management systems and programs, addressing areas such as:
