**This Amendment 001 is raised to answer the following bidder question:**

**Question 1:**

We would like to acknowledge that the products requested within the RFP are very specific to certain manufacturer product types. In fact, there are proprietary manufacture model names written directly into the hardware requirements. It is well understood that these products are desired however not all respondents have access to the single products that will meet the criteria within the tender. We request that with proper justification, technically equivalent products be considered providing all operational and desired characteristics are met. The RFP currently states that if an improvement on the spec is deemed advisable to offer it as an alternative but it does not mention products of like or equivalent specification.

**Answer 1:**

Equivalent products and part numbers may be submitted, but bidder must clearly identify what equivalencies are being offered and submit specifications to clearly demonstrate the technical equivalency. Any equivalency not meeting the mandatory technical requirements will be considered as non-compliant.

**INSERT:**

**B3000T (2006-06-16) Equivalent Products**

1. Products that are equivalent in form, fit, function and quality to the item(s) specified in the bid solicitation will be considered where the Bidder:
  - a. designates the brand name, model and/or part number of the substitute product;
  - b. states that the substitute product is fully interchangeable with the item specified;
  - c. provides complete specifications and descriptive literature for each substitute product;
  - d. provides compliance statements that include technical specifics showing the substitute product meets all mandatory performance criteria that are specified in the bid solicitation; and
  - e. clearly identifies those areas in the specifications and descriptive literature that support the substitute product's compliance with any mandatory performance criteria.
2. Products offered as equivalent in form, fit, function and quality will not be considered if:
  - a. the bid fails to provide all the information requested to allow the Contracting Authority to fully evaluate the equivalency of each substitute product; or
  - b. the substitute product fails to meet or exceed the mandatory performance criteria specified in the bid solicitation for that item.
3. In conducting its evaluation of the bids, Canada may, but will have no obligation to, request bidders offering a substitute product to demonstrate, at the sole cost of bidders, that the substitute product is equivalent to the item specified in the bid solicitation.

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED**
