Annex "H" - THS Form-Request for Availability of THS Resources for a resulting Call-up

PART 1 - GENERAL INFORMATION

1. Introduction

The Request for Standing Offers (RFSO) is divided into seven parts plus attachments and annexes, as follows:

Part 1: General Information: provides a general description of the requirement;

Part 2: Offeror Instructions: provides the instruction clauses and conditions applicable to the RFSO;

Part 3: Offeror Preparation Instructions: provides Offerors with instructions on how to prepare their Offer to address the evaluation criteria specified;

Part 4: Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria which must be addressed in the Offer and the basis of selection;

Part 5: Certifications: includes the certifications to be provided;

Part 6: Security, Financial and Insurance Requirements: includes specific requirements that must be addressed by Offerors; and

Part 7: 7A, Standing Offer, and 7B, Resulting Contract Clauses:

7A, includes the Standing Offer containing the offer from the Offeror and the applicable clauses and conditions;

7B, includes the clauses and conditions which will apply to any contract resulting from a call-up made pursuant to the Standing Offer.

The attachments include:

Attachment 1 to Part 3 - RFSO Technical Response Template

Attachment 1 to Part 4 - Mandatory Evaluation Criteria

The annexes include:

Annex "A" - Requirement

Annex "B" - Basis of Payment

Annex "C" - Generic Security Requirements Check Lists (SRCLs)

Annex "D" - Protocol and Standards for THS Applicable to Identified Users and Suppliers

Annex "E" - Basic Standards for Testing the Office Support Classifications (Stream 1)

Annex "F" - Insurance Requirements

Annex "G" - THS Quarterly Usage Report Template

Annex "H" - THS Form-Request for Availability of THS Resources for a resulting Call-up

2. Summary

- (i) Public Works and Government Services Canada (PWGSC) invites interested Offerors to respond to the Request for Standing Offers (RFSO) for the provision of Temporary Help Services (THS) to be provided for the National Capital Area (NCA).

This solicitation is an opportunity for:

- Offerors who have a Standing Offer issued under RFSO no. E60ZN-110002/C, E60ZN-110002/D, but did not bid under E60ZN-110002/E to submit a new offer to qualify to provide services described in the Standing Offer.
- Offerors who have a Standing Offer issued under RFSO no. E60ZN-110002/E to submit a new offer to qualify for additional classifications, streams and/or sub-streams to be added to its Standing Offer; and
- New Offerors for THS in the NCA to submit an offer to qualify to provide the services described in the Standing Offer.

This solicitation will also provide an opportunity for Offerors who are issued a SO under this solicitation (RFSO no. E60ZN-110002/F) to qualify for additional classifications, streams and/or sub-streams to be added to its Standing Offer.

THS includes five (5) streams of services;

Stream 1	Office Support
Stream 2	Administrative Services
Stream 3	Operational Services
Stream 4	Technical Services
Stream 5	Professional Services

- (ii) The RFSO is for the provision of THS to any Canadian Government Department, Departmental Corporation or Agency in the National Capital Area, as identified in Schedules I, I.1, II, III, IV or V of the Financial Administration Act (FAA).
- (iii) The requirement is subject to the provisions of the Agreement on Internal Trade (AIT) only; it is excluded from the North American Free Trade Agreement (NAFTA) and is not covered under the World Trade Agreement on Government Procurement (WTO-AGP).
- (iv) There is a security requirement associated with this requirement. For additional information, consult Part 6 - Security, Financial and Insurance Requirements, and Part 7A, Standing Offer.
- (v) The requirement is limited to Canadian goods and/or services.
- (vi) The resulting SOs are not to be used for deliveries within a Comprehensive Land Claims Settlement Area (CLCSA). All requirements for delivery within a CLCSA are to be submitted to the Department of Public Works and Government Services for individual processing.
- (vii) This procurement, in whole or in part, may be designated by one or more Identified Users as set-aside for aboriginal business under the federal government's Set-aside Program for Aboriginal Business (SPAB).

Pursuant to the Agreement on Internal Trade (AIT) Article 1802: Aboriginal Peoples, the AIT does not apply to any measure adopted or maintained with respect to Aboriginal peoples. AIT does not apply to a procurement that is restricted to Aboriginal businesses under PSAB.

- (viii) Any resulting call-up may require that the services be performed in one or the other of Canada's Official Languages.
- (ix) A permanent notice will be posted on the Government Electronic Tendering Service (GETS) for the duration of the Period of the Standing Offer to allow new offerors to become qualified. Existing

qualified offerors who have been issued a standing offer as a result of this RFSO no. E60ZN-110002/F, will not be required to submit a new offer but may qualify for classifications, streams and/or sub-streams for which they are not already qualified.

- (x) Pursuant to section 01 of Standard Instructions 2006 and 2007, Offerors must submit a complete list of names of all individuals who are currently directors of the Offeror. Furthermore, as determined by the Special Investigations Directorate, Departmental Oversight Branch, each individual named on the list may be requested to complete a Consent to a Criminal Record Verification form and related documentation.

3. Security Requirement

There is a security requirement associated with the requirement of the Standing Offer. For additional information, see Part 6, Security, Financial and Insurance Requirements, and Part 7, Standing Offer and Resulting Contract Clauses.

4. Canadian Content

The services covered by the Standing Offer may be limited to Canadian services as defined in clause A3050T.

SACC Manual clause A3050T (2010-01-11) Canadian Content Definition

5. Debriefings

After issuance of a standing offer, offerors may request a debriefing on the results of the request for standing offers process. Offerors should make the request to the Standing Offer Authority within 15 working days of receipt of the results of the request for standing offers process. The debriefing may be in writing, by telephone or in person.

6. Key Terms

National Capital Area (NCA): means the Regional municipality of Ottawa-Carleton boundary in the Province of Ontario and the Outaouais Regional Community in the Province of Quebec.

Qualified Offerors: means an Offeror is a Offeror who meets a requirement specific criteria for a call-up under this SO (i.e. the classification, level of expertise, security, language).

Request for Availability (RFA) - Recommended template that Canada can use to request the availability of THS resources from Offerors for a specific requirement.

PART 2 - OFFEROR INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Standing Offers (RFSO) by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Offerors who submit an offer agree to be bound by the instructions, clauses and conditions of the RFSO and accept the clauses and conditions of the Standing Offer and resulting contract(s).

The 2006 (2013-06-01) Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the RFSO.

Subsection 5.4 of 2006, Standard Instructions - Request for Standing Offers - Goods or Services, is amended as follows:

Delete: sixty (60) days

Insert: two hundred and twenty (220) days

1.1 SACC Manual Clauses

M9033T (2011-05-16) Financial Capability

1.2 Set-aside for Aboriginal Business

- a) This procurement in whole or in part, may be set aside for Aboriginal business under the federal government's Set-aside Program for Aboriginal Business. In order to be considered as an Aboriginal Business, Offerors must complete and sign the Aboriginal Business Certification in Part 5 - Certifications.
- b) By executing the certification, the Offeror warrants that it is an Aboriginal business as defined in the Set-aside Program for Aboriginal Business.

2. Submission of Offers

Offers must be submitted only to Public Works and Government Services (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the Request for Standing Offers.

Due to the nature of the Request for Standing Offers, transmission of offers by facsimile to PWGSC will not be accepted.

3. Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the Standing Offer Authority no later than fifteen (15) calendar days before the Request for Standing Offer (RFSO) closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that offerors do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all offerors. Enquiries not submitted in a form that can be distributed to all offerors may not be answered by Canada.

4. Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the offerors.

5. On-Going Opportunity for Qualification

A notice will be posted on the GETS for the duration of the Standing Offer Period to allow new offerors to become qualified and to allow existing offerors, who have been issued a standing offer to qualify for classifications, streams and/or sub-streams for which they are not already pre-qualified. No existing Offeror will be removed from the qualified offeror list because of the addition of new Offerors. Canada reserves the right to issue standing offers to offers who qualify throughout the entire period of the Standing Offer.

5.1 Cycles for Qualification

Canada reserves the right to conduct the evaluation of offers in cycles, not less than quarterly. That is, Canada may collect offers received over a calendar year quarter, in order to conduct the evaluation of all those offers concurrently as part of a single cycle of qualification.

5.2 RFSO Schedule of Cycles for Qualification

Canada will endeavor to evaluate in each quarterly evaluation period those submissions received by the quarterly closing date in accordance with the schedule below. The schedule may require a revision due to operational requirements, in which case offerors will be advised.

Quarterly Evaluation Periods:

Fiscal Quarter	Closing Date:	Time of Closing	Evaluation Period
Q1	June 30	02:00 PM Eastern Daylight Time (EDT)	July 1 to September 30
Q2	September 30	02:00 PM Eastern Daylight Time (EDT)	October 1 to December 31
Q3	December 31	02:00 PM Eastern Standard Time (EST)	January 1 to March 31
Q4	March 31	02:00 PM Eastern Daylight Time (EDT)	April 1 to June 30

5.3 Failure to Qualify

Canada will notify all offerors that fail to qualify and identify the reason their proposal has been declared non-responsive. From the time a notice is sent to an offeror, the offeror will have up to the 6 months provided that their original bid expiry has not lapsed to modify and re-submit for re-evaluation the elements required for the classifications, streams and/or sub-streams for which the offeror wishes to qualify. Provided the offeror, advises PWGSC, within such period, that it now considers its proposal complete, PWGSC will conduct the re-evaluation in accordance with the RFSO Schedule of Cycles for Qualification subject to all provisions of the RFSO.

5.4 Certification Component:

The RFSO On-going Opportunity for Qualification will require both new and existing Offerors to submit new certifications.

PART 3 - OFFER PREPARATION INSTRUCTIONS

1. Offer Preparation Instructions

1.1 Canada requests that offerors provide their offer in separately bound sections as follows:

Section I: Technical Offer - two (2) hard copies and two (2) soft copies on one USB

Section II: Financial Offer - to be entered in the THS Online System once Standing Offers are issued

Section III: Certifications - (2 hard copies)

If there is a discrepancy between the wording/data of the soft copy and the hard copy, the wording/data of the hard copy will have priority over the wording/data of the soft copy.

Canada requests that offerors follow the format instructions described below in the preparation of their offer.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the Request for Standing Offers.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process, the Policy on Green Procurement (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>).

To assist Canada in reaching its objectives, offerors are encouraged to:

- 1) use paper containing fibre certified as originating from a sustainably-managed forest and/or containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Offer

In their technical offer, offerors should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Offer

Offerors must submit their financial offer in accordance with Annex "B" - Basis of Payment. The total amount of Goods and Services Tax or Harmonized Sales Tax must be shown separately, if applicable.

Offerors must submit their financial offer when they input their first weekly price revision into the THS Online System once the Standing Offers (SO's) are issued.

Offerors must submit into the THS Online System, new firm hourly rates for the classification of personnel and level of expertise for which they were technically compliant in. Offerors submission of new firm hourly rates must be completed by 5 business days after being notified in writing by PWGSC to do so.

Section III: Certifications

Offerors must submit the certifications required under Part 5 - Certifications.

2. Technical Response Template

Offerors must provide the information specified in Attachment 1 to Part 4 - Mandatory Evaluation Criteria. Offerors should complete Attachment 1 to Part 3 - RFSO Technical Response Template listed below in the preparation of their offer for both the hard copy and the soft copy.

Electronic File Name: RFSO Technical Response Template.xls

The RFSO Technical Response Template has been posted on the GETS and is available for download.

Offerors must use caution when inputting data into the RFSO Technical Response Template. Offerors should not modify the templates but simply input their data into the required fields in the format that is specified.

3. Multiple Offers

A legal entity can only submit: (i) one offer from the legal entity alone, or (ii) one offer from the legal entity and one offer from the legal entity in a joint venture with another legal entity where one of the joint venture member is a legal entity that complies with the Aboriginal Business Certification in Part 5- Certifications. Each offer must be a physically separate document. Each offer will be evaluated independently without regard to other offers submitted and, therefore, every offer must be complete. If a legal entity participates in more offers than permitted under (i) or (ii), Canada may require the legal entity to inform Canada as to which of its offers it wishes to withdraw.

Attachment 1 to Part 3
RFSO Technical Response Template

See attached document.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Offers will be assessed in accordance with the entire requirement of the Request for Standing Offers including the technical evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the offers.

1.1 Technical Evaluation

Each offer will be reviewed for compliance with the mandatory requirements set out in Attachment 1 to Part 4, *Mandatory Evaluation Criteria*.

2. Basis of Selection

An offer must comply with the requirements of the Request for Standing Offers and meet all mandatory technical evaluation criteria to be declared responsive.

Attachment 1 to Part 4

Mandatory Evaluation Criteria

1. The offeror must provide the information specified below in this Attachment. Offerors should complete Attachment 1 to Part 3 -RFSO Technical Response Template.

2. For M1, M2A, M2B, M2C and M3, if the offeror submits an arrangement in response to Request for Supply Arrangement no. EN578-060502/I, the offeror may include the same information in its offer by incorporating this information by reference. In order for Canada to consider the referenced information, the offeror must clearly identify the information and provide the page number(s) where the information is included in the arrangement.

3. The offeror must identify in its offer the classifications, streams or sub-streams it wishes to offer.

By submitting an offer, the offeror is indicating that it considers itself to be fully compliant with every mandatory requirement of this Attachment 1 to Part 4 and will agree to the Standing Offer terms and conditions identified in this solicitation if a standing offer is issued to it.

4. For M2A, M2B and M2C, the following information must, as a minimum, be provided for each of the temporary help resources named:

- 1) THS Classification and level as defined in Annex "A" - "Requirement" that closely match the duties the resource provided;
- 2) Name of the Joint Venture member that supplied the resource if it is applicable;
- 3) Start and End Dates of the temporary help placement; and
- 4) Client Contact

5. For the purposes of the mandatory evaluation criteria:

Client Contact

"Client" means a legal entity that is not an affiliate of the offeror, a member of a joint venture with the offeror or any other entity that does not deal at arm's length with the offeror.

Canada may, at its discretion, contact a client to confirm the start and end dates of the temporary help placement and to confirm that the offeror has previously provided and has been paid for the services for the applicable classification. The same contact may be used more than once for the 20 temporary help resource names in a stream, however, a minimum of 3 different clients must be demonstrated for each stream.

The following information should, as a minimum, be provided for each Client Contact:

- Name
- Address
- E-mail (if applicable)
- Telephone Number

Joint Venture

Where an offeror is a Joint Venture, temporary help resources provided by any joint venture member will be considered and each joint venture member must have previously provided at least one (1) of the classifications demonstrated in the offer for a stream.

Temporary Help Resource Placements

- Permanent placements are acceptable as resource placements;
- Copies of resumés or accreditation with offer submission are not required, but Canada reserves the right to request information;
- Named temporary help resource can still be on assignment.

Qualification for Streams/Classifications (Streams 1, 2, 3, 4)

If the 20 compliant temporary help resource names demonstrate only one or two different classifications within a stream, the offeror is considered compliant for the one (1) or two (2) classifications demonstrated. If the offeror demonstrates three (3) or more different classifications within a stream, the offeror is considered compliant for all the classifications within that stream.

Offerors who have a SO under RFSO no. E60ZN-110002/D and/or E60ZN-110002/E for one (1) classification within a stream and wish to offer for all classifications within that stream for this solicitation (RFSO no. E60ZN-110002/F) must demonstrate two (2) more classifications within that stream and must comply with M1, M2A or M2B, M3 and any other requirements of the solicitation no. E60ZN-110002/F.

Offerors who have a SO under RFSO no. E60ZN-110002/D and/or E60ZN-110002/E for two (2) classifications within a stream and wish to offer for all classifications within that stream for this solicitation (RFSO no. E60ZN-110002/F) must demonstrate one (1) more classification within that stream and must comply with M1, M2A or M2B, M3 and any other requirements of the solicitation no. E60ZN-110002/F.

Example 1. Offeror A is a Offeror that has a SO for the following two (2) classifications in Stream 3 under Solicitation no. E60ZN-110002/D :

- Building Technician
- Building Superintendents

For this solicitation, Offeror A has demonstrated one more classification in Stream 3 under M2A:

- General Labourer

Offeror A is considered compliant for all classifications in Stream 3 if it has demonstrated compliance with M1, M2A, M3 and other requirements of this solicitation.

Demonstrating different classifications does not include sub-classifications.

Example 2: Offeror B provides the following:

- Paul Murphy - Classification: Clerk, Sub-classification: Data Entry
- Mark Smith - Classification: Clerk, Sub-classification: Accounting

The above scenario is considered to be 2 different named temporary help resources; however, only the "Clerk" classification is being demonstrated.

Mandatory Evaluation Criteria

Number	Mandatory Criterion	Stream(s)	Reference to Attachment 1 to Part 3 -RFSO Technical Response Template
M1	<p><u>Minimum years in business</u></p> <p>The offeror must have been in business for a minimum of one (1) year prior to the closing date of the solicitation.</p> <p>In case of a joint venture, each member of the joint venture must be in business for a minimum one (1) year prior to the closing date of the solicitation.</p> <p>In case of the recent amalgamation of two (2) or more legal entities, each legal entity must meet the minimum one-year requirement.</p>	Streams 1, 2, 3, 4, 5	1.1
M2A	<p><u>Experience of the Offeror</u></p> <p>The offeror may provide up to a maximum of 40 temporary help resource names but must provide a minimum of 20 different temporary help resource names that are compliant.</p> <p><u>In order for a resource to be compliant:</u></p> <ul style="list-style-type: none"> Each resource must have worked a minimum of 37.5 hours between May 20, 2006 and solicitation closing date inclusively rendering services for which the Offeror received payment. Services of the above 20 compliant temporary help resource names must have been billed to a minimum of 3 different clients located in the National Capital Area. 	Streams 1, 2, 3	1.5 (a), (b), (c)
M2B	<p><u>Experience of the Offeror</u></p> <p>The offeror may provide up to a maximum of 40 temporary help resource names but must provide a minimum of 20 different temporary help resource names that are compliant.</p> <p><u>In order for a resource to be compliant:</u></p> <ul style="list-style-type: none"> Each resource must have worked a minimum of 37.5 hours between May 20, 2005 and solicitation closing date 	Stream 4	1.5 (d)

	<p>inclusively rendering services for which the offeror received payment.</p> <ul style="list-style-type: none"> Services of the above 20 compliant temporary help resource names must have been billed to a minimum of 3 different clients located in the National Capital Area. The above 20 compliant temporary help resource names can be the same names as provided for M2A or M2C or both criteria. 		
M2C	<p><u>Experience of the Offeror</u></p> <p>The offeror may provide up to a maximum of 40 temporary help resource names and may provide up to a maximum of 4 temporary help resource names in each sub-stream. The offeror must provide a minimum of 20 different temporary help resource names and a minimum of 2 different temporary help resource names in the sub-stream that are compliant.</p> <p>The offeror may repeat any of the 20 compliant temporary help resource names in any of the sub-streams to demonstrate the 2 temporary help resource names in each sub-stream.</p> <p><u>In order for a resource to be compliant:</u></p> <ul style="list-style-type: none"> Each resource must have worked a minimum of 37.5 hours between May 20, 2005 and solicitation closing date inclusively rendering services for which the offeror received payment. Services of the above 20 compliant temporary help resource names and the 2 compliant temporary help resource names for each sub-stream must have been billed to a minimum of 3 different clients located in the National Capital Area. The above 20 compliant temporary help resource names and the 2 compliant temporary help resource names for each sub-stream can be the same names as provided for M2A or M2B or both criteria. 	Stream 5	1.5 (e)

M3	<p>Testing</p> <p>It is mandatory for the offeror to test their temporary help resources according to:</p> <p>a) the requirements of the classification in which they are being proposed, and</p> <p>b) the specific requirements of the Identified User.</p> <p>The offeror must provide a narrative (no more than 5 pages in total, 8 1/2" x 11" paper). The narrative must provide a description of:</p> <p>(1) its testing protocol;</p> <p>(2) the various tests it uses to comply with the four types of examinations described in Annex "E"- Basic Standards for Testing the Office Support Classifications (Stream 1); and</p> <p>(3) the test(s) it uses to test official languages (oral, written communication and comprehension).</p> <p>The narrative must include a description of the tests indicated in 1), 2) and 3) above but samples of tests are not to be provided.</p> <p>Note: With the exception of the minimum four types of examinations (keyboarding, etc.) listed in Annex "E" - Basic Standards for Testing the Office Support Classifications (Stream 1) in the RFSO, the 5 page narrative will not be evaluated but will be used as part of the Assessment Framework for managing the method of supply; an offeror's testing will be compared against the information provided in the offeror's offer in the 5 page narrative. Offerors must be able to demonstrate to the satisfaction of PWGSC that they have appropriately conducted the testing of their THS resources.</p>	Stream 1	
----	--	----------	--

PART 5 - CERTIFICATIONS

Offerors must provide the required certifications and documentation to be issued a standing offer.

The certifications provided by offerors to Canada are subject to verification by Canada at all times. Canada will declare an offer non-responsive, will have the right to set-aside a standing offer, or will declare a contractor in default, if any certification is found to be untrue whether during the offer evaluation period, during the Standing Offer period, or during the contract period.

The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. Failure to comply with this request will also render the offer non-responsive or may result in the setting aside of the Standing Offer or will constitute a default under the Contract.

1. Mandatory Certifications Required Precedent to Issuance of a Standing Offer

1.1 Code of Conduct and Certifications - Related documentation

- 1.1.1** By submitting an offer, the Offeror certifies that the Offeror and its affiliates are in compliance with the provisions as stated in Section 01 Code of Conduct and Certifications - Offer of Standard Instructions 2006 (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual/1/2006/15>). The related documentation therein required will assist Canada in confirming that the certifications are true.

Offerors must submit a list of names, or other related information as needed, pursuant to section 01 of Standard Instructions 2006 and 2007.

2. Additional Certifications Precedent to Issuance of a Standing Offer

The certifications listed below should be completed and submitted with the offer, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Standing Offer Authority will so inform the Offeror and provide the Offeror with a time frame within which to meet the requirement. Failure to comply with the request of the Standing Offer Authority and meet the requirement within that time period will render the offer non-responsive.

2.1 Federal Contractors Program for Employment Equity - Standing Offer Certification

By submitting an offer, the Offeror certifies that the Offeror, and any of the Offeror's members if the Offeror is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list (http://www.labour.gc.ca/eng/standards_equity/eq/emp/fcp/list/inelig.shtml) available from HRSDC-Labour's website.

Canada will have the right to declare an offer non-responsive, or to set-aside a Standing Offer, if the Offeror, or any member of the Offeror if the Offeror is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of issuing of a Standing Offer or during the period of the Standing Offer.

2.2 Former Public Servant Certification

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPS, Offerors must provide the information required below before contract award.

If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Offeror of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the offer non-responsive.

Definitions

For the purposes of this clause,

"former public servant" is any former member of a department as defined in the *Financial Administration Act*, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- (a) an individual;
- (b) an individual who has incorporated;
- (c) a partnership made of former public servants; or
- (d) a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means, in the context of the fee abatement formula, a pension or annual allowance paid under the *Public Service Superannuation Act* (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the *Supplementary Retirement Benefits Act*, R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the *Canadian Forces Superannuation Act*, R.S., 1985, c. C-17, the *Defence Services Pension Continuation Act*, 1970, c. D-3, the *Royal Canadian Mounted Police Pension Continuation Act*, 1970, c. R-10, and the *Royal Canadian Mounted Police Superannuation Act*, R.S., 1985, c. R-11, the *Members of Parliament Retiring Allowances Act*, R.S. 1985, c. M-5, and that portion of pension payable to the *Canada Pension Plan Act*, R.S., 1985, c. C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Offeror a FPS in receipt of a pension?
YES () NO ()

If so, the Offeror must provide the following information, for all FPS in receipt of a pension, as applicable:

- (a) name of former public servant;
- (b) date of termination of employment or retirement from the Public Service.

By providing this information, Offerors agree that the successful Offeror's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with Contracting Policy Notice: 2012-2 and the Guidelines on the Proactive Disclosure of Contracts.

Work Force Reduction Program

Is the Offeror a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? YES () NO ()

If so, the Offeror must provide the following information:

- (a) name of former public servant;
- (b) conditions of the lump sum payment incentive;
- (c) date of termination of employment;
- (d) amount of lump sum payment;
- (e) rate of pay on which lump sum payment is based;
- (f) period of lump sum payment including start date, end date and number of weeks;
- (g) number and amount (professional fees) of other contracts subject to the restrictions of a work force reduction program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including applicable taxes.

Certification

By submitting an offer, the Offeror certifies that the information submitted by the Offeror in response to the above requirements is accurate and complete.

2.3 Canadian Content Certification

SACC Manual Clause A3050T (2010-01-11) Canadian Content Definition

This procurement is limited to Canadian services.

The Offeror certifies that:

- () the service offered is a Canadian service as defined in paragraph 2 of clause A3050T.

2.4 Set-aside for Aboriginal Business

1. This procurement is set aside under the federal government's Procurement Strategy for Aboriginal Business, as detailed in Annex 9.4 Requirements for the Set-aside Program for Aboriginal Business, of the *Supply Manual*.
2. The Offeror:
 - (i) certifies that it meets, and will continue to meet throughout the duration of the Offer, the requirements described in the above-mentioned annex.
 - (ii) agrees that any subcontractor it engages under the Offer must satisfy the requirements described in the above-mentioned annex.

- (iii) agrees to provide to Canada, immediately upon request, evidence supporting any subcontractor's compliance with the requirements described in the above-mentioned annex.
3. The Offeror must check the applicable box below:
- (i) () The Offeror is an Aboriginal business that is a sole proprietorship, band, limited company, co-operative, partnership or not-for-profit organization.
- OR**
- (ii) () The Offeror is either a joint venture consisting of two or more Aboriginal Businesses or a joint venture between an Aboriginal business and a non-Aboriginal business.
4. The Offeror must check the applicable box below:
- (i) () The Aboriginal business has fewer than six full-time employees.
- OR**
- (ii) () The Aboriginal business has six or more full-time employees.
5. The Offeror must, upon request by Canada, provide all information and evidence supporting this certification. The Offeror must ensure that this evidence will be available for audit during normal business hours by a representative of Canada, who may make copies and take extracts from the evidence. The Offeror must provide all reasonably required facilities for any audits.
6. By submitting an offer, the Offeror certifies that the information submitted by the Offeror in response to the above requirements is accurate and complete.

Owner/Employee Certification - Set-aside for Aboriginal Business

If requested by the Standing Offer Authority, the Offeror must provide the following certification for each owner and employee who is Aboriginal:

- "1. I am _____ (insert "an owner" **and/or** "a full-time employee") of _____ (insert name of business), and an Aboriginal person, as defined in **Annex 9.4** of the Supply Manual, entitled "Requirements for the Set-aside Program for Aboriginal Business" .
2. I certify that the above statement is true and consent to its verification upon request by Canada.

Printed name of owner and/or employee

Signature of owner and/or employee

Date"

2.5 Testing

The Offeror certifies that:

() the testing the Offeror provides to their THS resources for classifications in Stream 1 complies with the four types of examinations described in Annex "E" - Basic Standards for Testing the Office Support Classifications (Stream 1) and the Offeror also provide language testing (oral, written communication and comprehension).

() Not applicable for classifications the Offeror is bidding on.

PART 6 - SECURITY, FINANCIAL AND INSURANCE REQUIREMENTS

1. Security Requirement

1. Before issuance of a standing offer, the following conditions must be met:
 - (a) the Offeror must hold a valid organization security clearance as indicated in Part 7A - Standing Offer;
 - (b) the Offeror's proposed individuals requiring access to classified or protected information, assets or sensitive work site(s) must meet the security requirement as indicated in Part 7A - Standing Offer;
 - (c) the Offeror must provide the name of all individuals who will require access to classified or protected information, assets or sensitive work sites.
2. Offerors are reminded to obtain the required security clearance promptly. Any delay in the issuance of a standing offer to allow the successful offeror to obtain the required clearance will be at the entire discretion of the Standing Offer Authority.
3. For additional information on security requirements, bidders should consult the "Security Requirements for PWGSC Bid Solicitations - Instructions for Bidders" (<http://www.tpsgc-pwgsc.gc.ca/app-acq/lc-pl/lc-pl-eng.html#a31>) document on the Departmental Standard Procurement Documents Web site.

Joint Venture (JV):

Each member of a JV Offeror must satisfy the requirements described in the resulting SO Article entitled "Security Requirement". For any given call-up, the highest level of corporate security attainable by such a JV Offeror through Canadian Industrial Security Directorate (CISD) of PWGSC is the lowest level held by any single member of the JV at the time of issuance of an RFA relating to that particular call-up. For example, a JV with five members is comprised of four members holding a valid Facility Security Clearance (FSC) at the Secret level and one member holding a valid Designated Organizational Screening (DOS) level. The highest corporate security level for which the JV would be considered under this SO framework would be DOS until such time as the member holding a valid DOS clearance has requested sponsorship via the SO Authority and obtained a valid FSC at the Secret level, as issued by CISD.

2. Financial Capability

SACC Manual clause M9033T (2011-05-16) Financial Capability

3. Insurance Requirements

The Offeror must provide a letter from an insurance broker or an insurance company licensed to operate in Canada stating that the Offeror, if issued a Standing Offer as a result of the Request For Standing Offer, can be insured in accordance with the Insurance Requirements specified in Annex "F" - Insurance Requirements.

If the information is not provided in the offer, the Standing Offer Authority will so inform the Offeror and provide the Offeror with a time frame within which to meet the requirement. Failure to comply with the request of the Standing Offer Authority and meet the requirement within that time period will render the offer non-responsive.

7 - STANDING OFFER AND RESULTING CONTRACT CLAUSES

A. STANDING OFFER

1 Offer

The Offeror offers to fulfill the requirement in accordance with the Requirement at Annex "A" - Requirement.

2 a) Security Requirement

There is a security requirement associated with the requirement.

The Offeror **must** hold as a minimum, a valid Designated Organization Screening (DOS) issued by the Canadian Industrial Security Directorate (CISD), at the time of Standing Offer issuance.

Security requirement for Designated Organization Screening (DOS) Level: PWGSC file # E60ZN-110002/SO1

1. The Offeror must, at all times during the performance of the Standing Offer, hold a valid Designated Organization Screening (DOS), issued by the Canadian Industrial Security Directorate (CISD), Public Works and Government Services Canada (PWGSC).
2. The Offeror personnel requiring access to PROTECTED information, assets or sensitive work site(s) must EACH hold a valid RELIABILITY STATUS, granted or approved by CISD/PWGSC.
3. The Offeror MUST NOT remove any PROTECTED information or assets from the identified work site(s), and the Offeror must ensure that its personnel are made aware of and comply with this restriction.
4. Subcontracts which contain security requirements are NOT to be awarded without the prior written permission of CISD/PWGSC.
5. The Offeror/ must comply with the provisions of the:
 - (a) Security Requirements Check List and security guide (if applicable), attached at Annex "C";
 - (b) Industrial Security Manual (Latest Edition).

The requirements to be procured under this Standing Offer may be subject to security requirements. Several generic Security Requirement Check Lists (SRCLs), which PWGSC anticipates will satisfy most security requirements associated with individual requirements, are attached at Annex "C" to this SO. Each call-up will identify which SRCL in Annex "C" to Part A will apply to that call-up.

These generic SRCLs may not meet the needs of some Identified Users for some requirements; in such cases, a unique SRCL fully describing the security requirements will be included in the documentation associated with that individual call-up. For example, if the Royal Canadian Mounted Police (RCMP) is the Identified User, additional checks may be conducted by the RCMP.

3. Standard Clauses and Conditions

All clauses and conditions identified in the Standing Offer and resulting contract(s) by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

3.1 General Conditions

2005 (2012-11-19) General Conditions - Standing Offers - Goods or Services, apply to and form part of the Standing Offer.

3.2 Standing Offers Reporting

The Offeror must compile and maintain records on its provision of goods, services or both to the federal government under call-ups resulting from the Standing Offer. This data must include all purchases paid for by a Government of Canada Acquisition Card.

The Offeror must provide this data in accordance with the reporting requirements detailed below. If some data is not available, the reason must be indicated. If no goods or services are provided during a given period, the Offeror must still provide a NIL report.

The Offeror must provide a Quarterly Usage Report (QUR) to PWGSC on a quarterly basis. These submissions must be made by completing and forwarding an electronic copy of the QUR in Excel format (which will be provided by PWGSC) to the following email address:

Rapportsdutilisation.UtilizationReports@tpsgc-pwgsc.gc.ca. The THS Quarterly Usage Report template is accessible from <http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/ocannexd-soannexd-eng.html>

Each QUR should include a list of all call-ups issued to it under each Standing Offer, including stream, classification, level, client department and contact name, call-up number, start and end dates, number of hours billed and dollar value.

The reports must be submitted according to the following schedule.

Quarterly Report	Covering Period	Due Date	
1st Quarter	April 1 to June 30	On or before July 15	
2nd Quarter	July 1 to September 30	On or before October 15	
3rd Quarter	October 1 to December 31	On or before January 15	
4th Quarter	January 1, to March 31	On or before April 15	

If an Offeror is not issued any call-ups during the quarter, the Offeror must confirm this by submitting a NIL report.

The Offeror understands that failure to comply with this requirement may result in the Standing Offer being set-aside by Canada. Canada reserves the right to set-aside the Standing Offer without notice, if reports are not submitted on time or are inaccurate or incomplete.

4. Term of Standing Offer

4.1 Period of Standing Offer

The period for making call-ups against the Standing Offer is from date of award to July 8, 2015.

5. Authorities

5.1 Standing Offer Authority

The Standing Offer Authority is:

Stephanie Riley
Public Works and Government Services Canada
Acquisitions Branch
Professional Services Business Initiatives Directorate
Portage III 11C1
11 Laurier Street
Gatineau, Quebec
K1A 0S5

Telephone: (819) 956-1678

Facsimile: (819) 997-2229

E-mail address: dgasat.acqbths@tpsgc-pwgsc.gc.ca

The Standing Offer Authority is responsible for the establishment of the Standing Offer, its administration and its revision, if applicable. Upon the making of a call-up, as Contracting Authority, she is responsible for any contractual issues relating to individual call-ups made against the Standing Offer by any Identified User.

5.2 Project Authority

The Project Authority for the Standing Offer is:

Name: _____
Title: _____
Organization: _____
Address: _____
Telephone: ____-____-_____
Facsimile: ____-____-_____
E-mail address: _____

The Project Authority is the representative of the department or agency for whom the Work will be carried out pursuant to a call-up under the Standing Offer and is responsible for all the technical content of the Work under the resulting Contract.

5.3 Offeror's Representative

The Offeror's Representative is the individual(s) identified by the Offeror in its offer, or if submitted with the offer, the individual identified in the "Offeror Profile" of the RFSO Technical Response Template. This individual(s) is the point of contact with the Offeror for all matters pertaining to the Standing Offer. By submitting its offer, the Offeror confirms that this individual(s) has the authority to bind the Offeror. It is the Offeror's sole responsibility to ensure that information related to the Offeror's Representative is correct and to immediately inform the SO Authority of any change to it. The Offeror's Representative may delegate to another individual to represent the Offeror for

administrative and technical purposes under any call-up resulting from this Standing Offer by providing to the Contracting Authority prior written notice containing all contact information requested in the "Offeror Profile" for that individual.

6. Identified Users

The Identified Users authorized to make call-ups against the Standing Offer include any government department, agency or Crown corporation listed in Schedules I, I.1, II, III, IV or V of the *Financial Administration Act*, R.S., 1985, c. F-11. Canada may, at any time, withdraw the use of the Standing Offer from any Identified Users.

7. On-Going Opportunity for Qualification

A notice will be posted on the GETS for the duration of the Standing Offer Period to allow new offerors to become qualified and to allow existing offerors, who have been issued a standing offer to qualify for classifications, streams and/or sub-streams for which they are not already pre-qualified. No existing Offeror will be removed from the qualified offeror list because of the addition of new Offerors.

8. Price Revision (PR)

Once a week (the exact day to be determined), the Qualified Offerors will have the opportunity to input two (2) weekly price revision (PR) rates, one unilingual and one bilingual rate directly into the THS On-line System. This will become that given week's Offeror's firm hourly rate, for the given classification and level of expertise. The PR will also be used to establish the ranking of Qualified Offerors, from lowest to highest firm hourly rate, for each classification. Canada reserves the right to change the frequency of the PR. The PR, which is also indicated on the Identified User search result sheet, is valid for up to 10 working days from the date that the search sheet is printed.

Canada reserves the right to request price support from any Offeror and at any time during the Period of the Standing Offer.

Some examples of situations where Canada could request price support:

- Offerors posting unusually low rates;
- Pricing structures not based on incremental; that is, a junior level classification being priced at a higher rate than a senior classification;
- Significant discrepancies in rates from one week to the other.

Should the Offeror be unable to support its rate(s), Canada reserves its right to suspend or set-aside the Standing Offer with the Offeror, or take any other action it deems necessary.

8.1 Option to Extend the Request For Availability (RFA) Search Results Validity Period

Canada reserves the right to exercise an option to extend the 10 working days search result validity period for the Request for Availability (RFA) for a period of up to 45 calendar days from the date that the search results were printed subject to the following provisions:

- (1) The Identified User may exercise this option by sending a written notice to the top ranked compliant Offeror and must receive the Offeror's concurrence in writing to this extension on or before the expiry of the initial 10 working day search results validity period forming part of the issued RFA.

- (2) In the event the top ranked Offeror does not provide to the Identified User a written concurrence with the request for extension to the search results validity period identified in paragraph (1), then the Identified User must complete the call-up within the original 10 working days of the search results validity period in accordance with the article entitled "Price Revision", and must not bypass the top ranked Offeror to proceed with other evaluated Offerors in accordance with the terms of this document.

If the Identified User is unable to complete the call-up award within the original search results validity period see paragraph (6).

- (3) The Identified User must also provide written notice within the original 10 working days of the search results validity period to all invited Offerors on the subject RFA, of the results of the evaluation and inform all invited Offerors that the Identified User has exercised this option with concurrence from the top ranked Offeror.
- (4) The option to be exercised at the sole discretion of the Identified User, as named in the RFA, must be evidenced and retained for administrative and audit purposes with the RFA and THS files.
- (5) The RFA cannot be extended for more than 45 days. If an Identified User requires more than 45 calendar days to complete the RFA process for call-up issuance, the subject RFA will be cancelled and no call-up will be issued from the subject RFA process. The Identified User, subject to its ongoing operational requirements for THS, must then restart a new THS process to fulfill the requirement.
- (6) In the event that no call-up is issued, the RFA will be considered cancelled and the Identified User will provide written notice to all invited Offerors. The Identified User, at its discretion may proceed to initiate a new THS process as may be required.

For illustration purposes the following example is included as information for both the Offeror and Identified Users pertaining to the time requirements of articles 8.0 and 8.1.		
Date	THS RFA Process	Search Result Validity Expiry Date
Monday, February 4, 2013	THS Search results initiated	February 15, 2013
Monday, February 4, 2013	RFA issued	February 15, 2013
Wednesday, February 6, 2013	RFA closed	February 15, 2013
Thursday, February 7, 2013	Identified User required additional RFA process time and has identified the compliant top-ranked Offeror	February 15, 2013
Friday, February 8, 2013	Identified User is seeking to extend validity period for a period up to the maximum 45 calendar days and issues notice to top ranked Offeror	
Tuesday, February 12, 2013	Top ranked Offeror provides written concurrence to extend to the Identified User specified in the RFA	A issued call-up must take place no later than March 21, 2013
Thursday, February 14, 2013	Identified User informs in writing to all RFA invited Offerors of the evaluation results and the extension period	
NOTE: In the event that the Identifier User does not complete the above on or before February 15, 2013, the RFA process is cancelled and no call-up award can take place.		
Saturday, February 16, 2013 or later	Identified User informs in writing to all RFA invited Offerors of the evaluation results and the extension period	Failure to provide notification within the search validity period, renders this RFA process cancelled.
Thursday, March 21, 2013	Call-up must be issued no later than this date.	Failure to issue a call-up by this date; the RFA process is cancelled.

9. Call-up Procedures

- 9.1 Multiple Standing Offers:** The Offeror acknowledges that multiple Standing Offers have been issued for this requirement. Call-ups will be allocated among the Offerors in accordance with the selection methodology described below.
- 9.2 Only Authorized Call-ups to be Accepted:** The Offeror agrees only to perform individual call-ups made by an Identified User pursuant to this Standing Offer that do not exceed the applicable Limitation of call-up, outlined in Section 11.0 Limitation of Call-Up.
- 9.3 Call-ups:** The only authorized methods of call-up allocation against this Standing Offer is described as follows:
- A.1) Right of First Refusal - Streams (3,4,5)**
Identified Users must issue call-ups to the Qualified Offeror with the lowest price, meeting all the mandates outlined in the Request for Availability (RFA), in section 9.4
- A.2) Right of First Refusal - Streams (1,2)**
Identified Users may issue call-ups to the Qualified Offeror with the lowest price, meeting all the mandates outlined in the Request for Availability (RFA), in section 9.4.

The method of allocation is based on the "Right of First Refusal". Issuance of Request for Availability Form (RFA) to more than one Qualified Offeror is permitted under the method of allocation for this Standing Offer. However, Identified Users must issue the call-ups to the Offeror with the lowest price and meeting all the mandatory requirements.

It is recommended that the Identified User send their RFA to more than one Qualified Offeror in order of ranking (lowest to highest rate) as listed in the THS Online search results, with their requirement clearly set out. Qualified Offerors are required to provide a response; a recommended minimum of 48 hours from date of RFA. In exceptional cases only, a four hour response time may be allowed. In these cases Identified Users will be required to support its decision on file. The Identified User must list the classification and level of the resource required. Identified Users should also include the education, experience, language and security clearance required by the proposed resource.

The Qualified Offeror must respond by providing a resource who meets the minimum mandatory qualifications of the classifications set out in Annex "A" - Requirement and all the mandatory criteria set out in the requirement. If the Qualified Offeror cannot respond or has no resource available for that specific requirement, then the Identified User may request a resource from the next Qualified Offeror on the list and so on, until a qualified resource meeting all the mandatory criteria has been identified.

In no circumstances, can the Identified User skip over the lowest Qualified Offeror or randomly selects any other Qualified Offeror during the process (i.e. the Identified User is NOT ALLOWED to simply invite Qualified Offerors listed in price ranking positions 5 to 8, without inviting Qualified Offerors listed in price ranking positions 1 to 4).

The call-up must be issued to the Qualified Offeror (by price) who proposes a resource within the specific time limitation and meeting all the mandatory criteria of the RFA requirement.

B) *Directed Method (for Streams 1 & 2 Only) for requirements \$25,000 and below*

For requirements under Streams 1 & 2 valued at \$25,000 (Travel expenses, Goods and Services Tax or Harmonized Sales Tax and all amendments included) and below, the identified user can either use "Right of First Refusal" methodology or they can direct call-ups using the percentile methodology.

Percentile Methodology: The Identified User can send their RFA to any Qualified Offeror(s) within the 25th percentile of the lowest bid rate from their search results in the THS On-line System. Each RFA must clearly set out their requirements.

Call-ups can be directed to any Qualified Offeror within the 25th percentile of lowest bid rate proposing a compliant resource, who meets the minimum mandatory qualification in each classification set out in Annex "A" - Requirement and all the mandatory criteria set out in the requirement.

Calculation method:

$$n = \frac{25}{100}$$

Rounding decimal:

Numbers with decimals will be rounded to the nearest whole. If the first decimal is five, the number will be rounded to the superior unit.

Example 1 (There are no identical rates within the 25th percentile)

Search criteria:

Classification: Accounting Clerk

Level: Intermediate

Total Offerors: 41 offerors

Calculation method:

$$\frac{41 \times 25}{100} = 10.25$$

Rounding decimal:

= 10

Identified Users can direct the call-up to any of the compliant Offeror within the 25th percentile (any of the **10**)

	Rates	Ranking	Percentile
Offeror 1	\$12.40	1	
Offeror 2	\$12.53	2	
Offeror 3	\$12.74	3	
Offeror 4	\$13.05	4	
Offeror 5	\$13.81	5	
Offeror 6	\$13.90	6	
Offeror 7	\$14.10	7	
Offeror 8	\$14.30	8	
Offeror 9	\$14.50	9	
Offeror 10	\$14.54	10	25%

Example 2 (There are identical rates within the 25th percentile)

Search criteria:

Classification: Compensation Clerk

Level: Intermediate

Total Offerors: 45 offerors

Calculation method:

$$\frac{45 \times 25}{100} = 11.25$$

Rounding decimal:

= 11

Identified Users can direct the call-up to any of the compliant Offerors within the 25th percentile (any of the 13 as Offerors 2, 3, 4 have the same rates so they would count as 1 of the eleven)

	Rates	Ranking	Percentile
Offeror 1	\$12.40	1	
Offeror 2	\$12.94	2	
Offeror 3	\$12.94	2	
Offeror 4	\$12.94	2	
Offeror 5	\$13.24	3	
Offeror 6	\$13.32	4	
Offeror 7	\$13.34	5

Offeror 13	\$15.25	11	25%

9.4 Request for Availability Form (RFA)

The Identified User will issue a Request for Availability form attached as Annex "I"-THS Form-Request for Availability of THS Resources for a resulting Call-up, to this Standing Offer to obtain the information necessary to issue a call-up for the required resource to:

1. The lowest priced Qualified Offeror; or
2. To as many lowest priced Offerors, listed on the THS Online search results; or
3. For requirements of \$25, 000.00 and below, Offeror or Offerors within the 25th percentile

Each Request for Availability form will identify the requirements of the Identified User's request including:

- (a) The estimated and/or actual Call-Up Period;
- (b) The number of weeks required;
- (c) The location where the required service(s) will be delivered;
- (d) The hours of work and number of hours per week for the required service(s);
- (e) The travel requirements;
- (f) The overtime requirements;
- (g) The language requirements;
- (h) The level of security clearance required to carry out the required service(s);
- (i) The specific Stream, Sub-stream, Classification (s) and Level of Expertise required;
- (j) Resource qualifications needed such as education, certification and experience;
- (k) The Statement of Duties;
- (l) The number of resource(s) required;
- (m) The maximum number of resume(s) to be submitted.

9.5 Response Requirements

The Qualified Offeror must respond, by filling in the appropriate sections of the Request for Availability form, via e-mail or fax as specified by the Identified User.

The Qualified Offeror must propose resource(s) who meets the minimum mandatory requirements of the classification and all the mandates of the requirement. Offerors can propose resources that exceed minimum requirements.

The response must be signed by the Offeror or by an authorized representative of the Offeror. The signature indicates that the Offeror agrees to all the terms and conditions in their entirety as they appear in the Request for Availability Form. Timely receipt and correct direction of responses are the sole responsibility of the Offeror. Failure to provide a response within the specified time frame of the Request for Availability Form will be interpreted as being unable to perform the service(s).

The response must contain the written or electronic consent from the resource being proposed by the Offeror. The written or electronic consent must be attached to each Request for Availability form response at the time of submission to the Identified User contact. Offerors who do not provide written or electronic consent with their submission will be found non-responsive.

9.6 Validation of Proposed Resource(s)

The qualifications and experience of the proposed resource(s) will be validated against the requirements set out in the Request for Availability Form.

The Identified User may request proof of successful completion of formal training, as well as reference information. Canada reserves the right to request references from an Offeror to conduct a reference check to verify the accuracy of the information provided. Should the reference(s) not confirm the required qualifications of the proposed resource(s) to perform the required services, the Offeror will be found non responsive and Canada reserves the right to go to the next Offeror.

Where the Offeror is requested to provide information regarding qualifications or experience of its proposed resources, the Offeror must provide complete details as to where, when, month and year, and how, through which activities/responsibilities, the

stated qualifications/experience were obtained. Experience gained during formal education will not be considered work experience. All requirements for work experience will be obtained in a legitimate work environment as opposed to an educational setting. Co-op terms are considered work experience provided they are related to the required Services.

Where the Offeror is requested to provide proof of certification of the proposed resource, the resource must submit a copy of the certification received or proof that they have completed the certification program.

9.7 Offeror Consent Acknowledgement

By submitting and signing a response to a Request for Availability Form, the Offeror acknowledges and warrants each of the following:

- (a) The Offeror certifies that all the information provided in the résumés and supporting material submitted with its proposal, particularly the information pertaining to language, education, experience and work history, has been verified by the Offeror to be true and accurate. Furthermore, the Offeror warrants that every individual resource proposed by the Offeror for the requirement, meets all the mandatory requirements listed in the Request for Availability form and is capable of performing the Work described in the resulting call-up.
- (b) Canada will not delay the issuance of any call-up to allow Offerors to obtain the required security clearance for the proposed resource(s). It is the responsibility of Offeror to ensure that the information required concerning the security clearance of the resource(s) is provided at Request for Availability response time.

9.8 Offeror Certification

By submitting and signing a response to a Request for Availability Form, the Offeror certifies and warrants each of the following:

- (a) Should the Offeror be authorized to provide services under any Request for Availability Form, the persons proposed will be available to perform the work as required by Canada's representatives, and at the time specified in the Request for Availability or agreed to with Canada's representatives.
- (b) If the Offeror has proposed any person in fulfilment of the requirement who is not an employee of the Offeror, the Offeror certifies that it has written permission from such person or the employer of such person to propose the services of such person in relation to the work to be performed in fulfilment of the requirement, and to submit such person's résumé to the Contracting Authority. As well, the Offeror certifies that the proposed person is aware that overtime may be required, and is willing to comply. During the assessment of the proposed resource, the Offeror must upon the request of the call-up Authority provide a copy of such written permission in relation to any or all non-employees proposed. If the Offeror fails to comply with such a request, its response will be considered non-responsive.
- (c) If Canada seeks clarification from the Offeror, the Offeror warrants that clarifications will be made available upon request within two working days of a request by Canada or such longer period as is specified in writing. If the Offeror does not provide any required information within the time limit requested, its response will be considered non-responsive and will receive no further consideration.

- (d) In the event that prior to call-up issuance, the offeror confirms a change in the availability status of the identified resource proposed in the RFA from the top ranked compliant offeror, or subject to a clarification obtained in accordance with (c), the Identified User may at its sole discretion proceed to either:
 - i. set-aside the Offeror's proposal and give it no further consideration for the purposes of the subject RFA, and proceed to the next top ranked compliant offeror provided the proposal is still valid and that the proposed named resource is still available; or
 - ii. cancel the RFA process and start a new THS process.
- (e) In the event that after the call-up issuance, the successful offeror confirms a change in the availability status of the identified resource regardless of the reason of unavailability, the Identified User may elect at its sole discretion either to:
 - i. issue an amendment reducing the value of the call-up to \$0.00 and document this in the THS file. At such time, the Identified User may proceed with the next top ranked offeror provided that the search results validity period has not lapsed; or
 - ii. allow the successful Offeror to replace the resource as per SACC A7017C - Replacement of Specific Individuals
- (f) For all transactions conducted under article (e) i, the Identified User must submit to the PWGSC THS Standing Offer Authority a copy of the amendment reducing the call-up value to \$0.00 along with a completed Client Satisfaction Report. A copy of this report is accessible at: (<http://www.tpsgc-pwgsc.gc.ca/app-acq/sat-ths/clients/rapport-report-eng.html>).

9.9 Multiple Requirements - Same Classification and Level

Multiple requirements, involving the requirement for up to 10 resources of the same classification and level, that start and end assignment on the same dates, can be contracted using the Standing Offer method of supply.

Multiple requirements, involving the requirement for up to 10 resources of various classifications and levels, that start and end assignment on different dates, cannot be contracted using the Standing Offer method of supply. The Supply Arrangement must be used.

9.10 Bulk Requirements

Bulk requirements (those involving the requirement for more than 10 resources of the same classifications and levels, that start and end assignment on the same dates), must be contracted using the Standing Offer or Supply Arrangement method of supply.

Bulk requirements (those involving the requirement for more than 10 resources of various classifications and levels) that start and end assignment on different dates, cannot be contracted using the Standing Offer method of supply. The Supply Arrangement must be used.

Any bulk requirement must first be approved by PWGSC before the solicitation process can be initiated by the Identified User.

9.11 Issuance of a Call-up

The Contracting Authority will issue the call-up within the applicable call-up Limitations using form PWGSC 8251 Call-up Against a Standing Offer for Temporary Help or PWGSC 942 Call-Up Against a Standing Offer.

10. Call-up Instrument

The work will be authorized or confirmed by the Identified User(s) authorized to use the THS Online System, using form PWGSC 8251 Call-up Against a Standing Offer for Temporary Help or PWGSC 942 Call-Up Against a Standing Offer.

11. Limitation of Call-Ups

Individual call-ups against the Standing Offer **must not exceed \$400,000.00** (Travel expenses, Goods and Services Tax or Harmonized Sales Tax and all amendments included).

The Offeror must not perform any work or services or supply any articles in response to a call-up(s) which would cause the total cost to Canada to exceed the said sum.

11.1 Maximum Duration of Call-Ups

A Call-up made against this Standing Offer must not exceed 48 consecutive weeks, including all absences, and all subsequent amendments. The forty-eight consecutive weeks also applies to part-time temporary help resources, from the start date of the Call-up.

On an exceptional basis only and with prior approval of PWGSC, call-ups may be extended beyond the 48 consecutive weeks for up to an additional 24 consecutive weeks. Call-up extension requests must be provided by the Identified User to the Standing Offer Authority a minimum of 10 working days prior to the call-up reaching the 48 consecutive weeks end date.

11.2 Termination of Individual Call-up made under this Standing Offer

If a call-up made under this SO is terminated, such termination does not affect the Standing Offer. The Offeror acknowledges, however, that a default under any contract made under this Standing Offer may result in the set-aside of this Standing Offer, at the discretion of the Standing Offer Authority.

The Standing Offer Authority is responsible for the termination of any call-up.

11.3 Termination Notification of Call-Up

When a Identified User intends to terminate a call-up for a temporary resource in advance of the call-up's expiry date and the resource has been on continuous assignment for 3 to 12 months, the Identified User must provide the Supplier with a minimum of 1 week written notification. In the case of a resource who has been on a continuous assignment for over 12 months but less than 72 weeks (the THS maximum limit), the Identified User must provide the Supplier with a minimum of 2 weeks written notice. If the required notification is not provided or provided for a lesser period, the Identified User will pay a fee

based on 7.5 hours per day at the rate charged by the Supplier for that resource under the call-up for each remaining days of the required notice period set above. No written notification is required if the call-up naturally expires.

12. Financial Limitation

Individual call-ups against the Standing Offer **must not exceed \$400,000.00** (Travel expenses, Goods and Services Tax or Harmonized Sales Tax and all amendments included).

Whichever of the two comes first in (11.1) and (12) shall apply.

13. Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the call up against the Standing Offer, including any annexes;
- (b) the articles of the Standing Offer;
- (c) the general conditions 2005 (2012-11-19), General Conditions - Standing Offers - Goods or Services;
- (d) the general conditions 2010B (2013-06-27), General Conditions - Professional Services (Medium Complexity)
- (e) Annex "A" - Requirement
- (f) Annex "B" - Basis of Payment
- (g) Annex "C" - Generic Security Requirements Check Lists (SRCLs)
- (h) Annex "D" - Protocol and Standards
- (i) Annex "E" - Basic Standards for Testing the Office Support Classification (Stream 1)
- (j) Annex "F" - Insurance Requirements
- (k) Annex "G" - THS Quarterly Usage Report Template
- (l) Annex "H" - THS Form-Request for Availability of THS Resources for a resulting Call-up
- (m) the Offeror's offer dated _____, (as clarified on _____ or as amended _____).

14. Certifications

Compliance

Compliance with the certifications and related documentation provided by the Offeror is a condition of authorization of the Standing Offer and subject to verification by Canada during the term of the Standing Offer and of any resulting contract that would continue beyond the period of the Standing Offer. In the event that the Offeror does not comply with any certification, provide the related documentation or if it is determined that any certification made by the Offeror in its offer is untrue, whether made knowingly or unknowingly, Canada has the right to terminate any resulting contract for default and set aside the Standing Offer.

15. SACC Manual Clauses

A3000C (2011-05-16) Aboriginal Business Certification
M3060C (2008-05-12) Canadian Content Certification

16. Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed and the relations between the parties determined, by the laws in force in _____ (insert name of the province).

17. Official Languages

- (a) Offerors may respond to individual Request for Availability Form's under this SO in either official language, in accordance with the Official Languages Act and Regulations.
- (b) Request for Availability Form's may require that the services be performed in one or the other of Canada's Official Languages.

18. On-Going Qualification Requirements

- (a) The Offeror must immediately notify the Standing Offer Authority if it no longer meets any of the mandatory qualification requirements of this Standing Offer.
- (b) PWGSC may require an Offeror to confirm its qualifications at any time. PWGSC also reserves the right to perform on-site assessments of Qualified Offerors with or without prior notice to the Offeror. The SO Authority may require Offeror to provide evidence with respect to any element of the SO, such as but not limited to:
 - (i) the insurance it carries continues to meet the requirements of RFSO;
 - (ii) it continues to hold the necessary security clearance;
 - (iii) it continues to have the financial capability;
 - (iv) it continues to have the technical ability and experience required to deliver the services for which it is qualified; and
 - (v) the Joint Venture membership remains as stated in the Standing Offer.
- (c) Where the Offeror no longer meets any of the individual requirements for qualification, Canada may, at its option:
 - (i) set-aside the Standing Offer in its entirety until the Offeror has demonstrated that it meets the requirements in respect of which it has been found deficient, during which time the Offeror will not be eligible for Call-ups issued under the Standing Offer;
 - (ii) set-aside the Offeror qualification under specific streams of this Standing Offer until the Offeror has demonstrated that it meets the requirements in respect of which it has been found deficient, during which time the Offeror will not be eligible for Call-ups issued under the Standing Offer framework for those streams;
 - (iii) set-aside the Standing Offer in its entirety; or
 - (iv) cancel the Offeror qualification under specific streams of this Standing Offer.

19. Suspension or Cancellation of Qualification by Canada

In addition to section 2(e) of 2005 04) Offer:

Canada may, by sending written notice to the Offeror, set-aside the Standing Offer under any of the following circumstances:

- (a) Examples of situations which may result in the suspension or set-aside of a Offeror's Standing offer include:

- (i) Late deliveries;
 - (ii) Price revision;
 - (iii) Distribution or publication of advertising, including information included in company websites, which might be interpreted as suggesting that unauthorized services are available under the Standing Offer;
 - (iv) Failure to submit complete and accurate Quarterly Usage Reports within the required time frames;
 - (v) Violation of any of the specific terms and conditions detailed in the Standing Offer (e.g. failure to meet the minimum RFSO requirements, failure to respect the Call-up limitations, etc.);
 - (vi) Canada has terminated any resulting Call-up issued against the Standing Offer framework for default;
 - (vii) Canada has imposed measures on the Offeror under the PWGSC Vendor Performance Policy (or such similar policy as may be in place from time to time);
 - (viii) Canada has documented at least three instances of poor performance under Call-ups awarded against the SO framework. An instance of poor performance may include, but is not limited to late or failed delivery of reports or services including the required number of skilled resources, lack of timely notification given to the PWGSC Standing Offer Authority of changes in the Offeror's Authorized Representative, insurance coverage or security status, and non-compliance with invoicing procedures.
 - (ix) Canada has documented at least three instances under Call-ups issued against the SO framework where, when called upon to submit resources under a tasking request, and the Offeror did not respond, did not submit the required number of resources, submitted resources that did not meet the requirements of the Call-up, or submitted resources at pricing exceeding the amount specified under the Call-up.
 - (x) Canada has documented at least three instances of poor client satisfaction by the same client, or occasions of poor client satisfaction by any Identified User, for services provided by the Offeror under Call-ups.
 - (xi) Providing information on the Offeror website that conflicts with any aspect of the terms and conditions, pricing, or availability of systems currently listed in this Standing offer.
- (b) Suspend or set-aside of a Offeror's Standing Offer does not affect the right of Canada to pursue other remedies or measures that may be available.
- (c) Suspension or set-aside of the Standing offer will not, on its own, affect any Call-ups entered into prior to the issuance of such notice.
- (i) A suspension will not exceed 12 months.
 - (ii) The Offeror acknowledges that Canada may publish information regarding the status of the Offeror's offer, including the suspension, set-aside or withdrawal of authority to use the Offeror's Standing Offer

20. Protocol and Standards

Offeror must follow the Annex "D" - Protocol and Standards for THS Applicable to Identified Users and Suppliers. This is part of the commitment of PWGSC to enhance the integrity, transparency and efficiency of the government contracting process, the use of automated procurement tools developed for Identified Users. Failure to follow Protocol and Standards could also lead to sanctions, e.g. Standing Offer may be set-aside.

21. Aboriginal Business Certification

- 1) The Contractor warrants that its certification of compliance is accurate and complete and in accordance with the "Requirements for the Set-aside Program for Aboriginal Business" detailed in Annex 9.4 of the Supply Manual.
- 2) Contractor must keep proper records and documentation relating to the accuracy of the certification provided to Canada. The Contractor must obtain the written consent of the Contracting Authority before disposing of any such records or documentation before the expiration of six (6) years after final payment under the Contract, or until settlement of all outstanding claims and disputes, under the Contract, whichever is later. All such records and documentation must at all times during the retention period be open to audit by the representatives of Canada, who may make copies and take extracts. The Contractor must provide all reasonably required facilities for any audits.
- 3) Nothing in this clause must be interpreted as limiting the rights and remedies which Canada may otherwise have pursuant to the Contract.

22. Joint Venture

If the Offeror is a joint venture, the Offeror agrees that all members of the joint venture are jointly and severally or solidarily liable for the performance of any contract awarded under the Standing Offer. If the membership of a joint venture changes, the Standing Offer will be cancelled and members who wish to qualify separately or as part of a different joint venture must submit a new offer by following the qualification process established by Canada.

23. Delivery Requirements Outside CLCSAs

The resulting solicitations are not to be used for deliveries within a Comprehensive Land Claims Settlement Area (CLCSA). All requirements for delivery within a CLCSA are to be submitted to the Department of Public Works and Government Services for individual processing.

24. Environmental Considerations

As of April 2006, the Government of Canada issued a policy directing federal departments and agencies to take the necessary steps to acquire products and services that have a lower impact on the environment than those traditionally acquired. The environmental impact assessment of a product and/or service considers the whole life cycle of the product and/or service. Hence, in the near future, all government procurement will include more demanding environmental criteria to encourage product/service Offerors to improve their operations to reduce their negative impact on the environment.

25. Environmental Properties Behaviour Recommended

Paper consumption:

- Provide and transmit draft reports, final reports and bids in electronic format. Should printed material be required, double sided printing in black and white format is the default unless otherwise specified by the Project Authority.
- Printed material is requested on minimum recycled content of 30% and/or certified as originating from a sustainable managed forest.
- Recycle unneeded printed documents (in accordance with Security Requirements).

Travel requirements:

- Project Authority is encouraged to use video and/or teleconferencing where possible to cut down unnecessary travel.

- Use of Properties with Environmental Ratings: Contractors to the Government of Canada may access the PWGSC Accommodation directory, which includes Eco-Rated properties. When searching for accommodation, contractors can go to the following link and search for properties with Environmental Ratings, identified by Green Keys or Green Leafs that will honour the pricing for contractors:
<http://rehelv-acrd.tpsgc-pwgsc.gc.ca/rechercher-search-eng.aspx>
- Use of public/green transit where feasible.

B. RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from a call-up against the Standing Offer.

1. Requirement

The Contractor must perform that Work described in the call-up against the Standing Offer.

2. Standard Clauses and Conditions

2.1 General Conditions

2010B (2013-06-27), General Conditions - Professional Services (Medium Complexity) apply to and form part of the Contract.

Section 15 Interest on Overdue Accounts, of 2010B will not apply to payments made by credit cards.

2.2 Supplemental General Conditions

A7017C (2008-05-12) Replacement of Specific Individual;

B9028C (2007-05-25) Access to Facilities and Equipment, apply to and form part of the Contract.

3. Term of Contract

3.1 Period of Contract

The work must be completed in accordance with the call-up against the Standing Offer.

4. Payment

4.1 Basis of Payment

The Contractor will be paid for Work performed pursuant to each approved call-up, on accordance with Annex "B" - Basis of Payment. Canada's total liability to the Contractor under the call-up must not exceed the Total Price specified in the call-up.

4.2 Method of Payment

Payment by Canada for the Work will be made following delivery, inspection and acceptance of the Work, and upon presentation of invoices and any other substantiating documentation as Canada requires.

5. Invoicing Instructions

The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the 2010B general conditions.

All terms and conditions stated on the Offeror's timesheets, invoices or other documents shall have no validity or affect for services called up under the Standing Offer. Only the terms and conditions stated herein shall apply.

6. Insurance Requirements

The Contractor must comply with the insurance requirements specified in Annex "F" - Insurance Requirements. The Contractor must maintain the required insurance coverage for the duration of the Contract. Compliance with the insurance requirements does not release the Contractor from or reduce its liability under the Contract.

The Contractor is responsible for deciding if additional insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any additional insurance coverage is at the Contractor's expense, and for its own benefit and protection.

The Contractor must forward to the Contracting Authority within ten (10) days after the date of award of the Contract, a Certificate of Insurance evidencing the insurance coverage and confirming that the insurance policy complying with the requirements is in force. Coverage must be placed with an Insurer licensed to carry out business in Canada. The Contractor must, if requested by the Contracting Authority, forward to Canada a certified true copy of all applicable insurance policies.

7. SACC Manual Clauses

A7017C	(2008-05-12)	Replacement of Specific Individual
B9028C	(2007-05-25)	Access to Facilities and Equipment
A9062C	(2011-05-16)	Canadian Forces Site Regulations
A9068C	(2010-01-11)	Government Site Regulations
C0711C	(2008-05-12)	Time Verification
C0705C	(2010-01-11)	Discretionary Audit

Annex “A”
Requirement

See attached document.

Annex "B"

Basis of Payment

For the period of the Standing Offer, the Offeror will be paid in accordance with the Basis of Payment specified in each approved call-up, which will be determined in accordance with the following:

The all inclusive fixed hourly rate of the call-up must be the hourly rate set out in the Weekly Price Revision.

The Contractor will be paid the all inclusive fixed hourly rates as follows, for work performed in accordance with the Contract. Goods and Services Tax or Harmonized Sales Tax (GST/HST) is extra, if applicable.

Classification	Classification Level	All Inclusive Fixed Hourly Rate
_____	_____	\$ _____ (to be entered in THS Online System by specified date)
_____	_____	\$ _____

Pre-Authorized Travel and Living Expenses

The Contractor will be reimbursed its authorized travel and living expenses reasonably and properly incurred in the performance of the Work, at cost, without any allowance for profit and/or administrative overhead, in accordance with the meal, private vehicle and incidental expenses provided in Appendices B, C and D of the National Joint Council Travel Directive (<http://www.njc-cnm.gc.ca/directive/travel-voyage/index-eng.php>) and with the other provisions of the directive referring to "travellers", rather than those referring to "employees".

All travel must have the prior authorization of the _____ (insert "Technical" or "Project" or "Contracting") Authority.

All payments are subject to government audit.

Estimated Cost of Authorized Travel and Living Expenses: \$ ____.

Annex “C”

Generic Security Requirements Check Lists (SRCLs)

See attached document.

Annex "D"

Protocols and Standards For THS Applicable to Identified Users and Suppliers

Lexicon for names; terms and phrases:

Client = Identified User

Federal Department User = Federal Government employee who has access to the THS On-Line System

PWGSC = Standing Offer/Supply Arrangement Authority

Set aside/cancel = Set aside a Standing Offer and/or cancel a Supply Arrangement

System = THS On-Line System

Temporary Help = Temporary Help Services

Failure by the Identified User or by SO Holders/Suppliers to follow these protocol and standards could result in the Identified User being removed authority to use the method of supply or the Offeror/Supplier being set aside or suspended for a period of time.

Section I: General Information

1. System Maintenance

Excluding emergency situations, a notice will be posted on the web site informing users of planned maintenance.

2. Disclosure of Information

In the event of a resultant Standing Offer/Supply Arrangement, PWGSC will publish information on the Federal Government Intranet or Internet website. The Offeror/Supplier agrees to the disclosure of the following confidential information contained in its Standing Offer/Supply Arrangement:

- a. the terms and conditions of the Standing Offer/Supply Arrangement;
- b. the Offeror/Supplier's PBN, Offeror/Supplier's name, representative's contact name, address, telephone, fax numbers, and e-mail address;
- c. the weekly firm hourly rate for each approved classification for which the services can be rendered.

The System will also contain additional general information for the Identified Users.

The information contained in the System is available to all persons who have access to the Federal Government Intranet or Internet Website, including but not limited to: the Offeror/Supplier, their resources, agents or servants, and to the accepted Offeror/Supplier identified in the system.

The Offeror/Supplier acknowledges and agrees that it will have no right to claim against Canada, the Minister, the Identified User, their employees, agents or servants, or any of them, in relation to disclosure of the information contained in the system.

3. Closure of Government Offices

Where resources of the Offeror/Supplier are providing services on government premises pursuant to a Call-Up/Contract issued by a Identified User and the said premises become non accessible due to evacuation or closure of government offices, the Offeror/Supplier will be paid for no more than one (1) working week, at the applicable regular rates as shown on the Call-Up/Contract provided that the Offeror/Supplier submits with its invoice a certification, countersigned by the affected resource(s), stating that:

- the Offeror/Supplier has not received any other payment from any other client, including the government, during the period of the closure; and
- the affected resource(s) has (or have) been or will be paid at the rates such resource(s) is (or/are) entitled to be paid have the services been provided as required in the Call-Up/Contract.

Note: There is no guarantee that the same temporary help resource will remain available upon re-opening of Government offices.

Section II: Information for Identified Users

1. Contract Splitting

Treasury Board policy on temporary help services strictly prohibits contract splitting. Contract Splitting is the practice of unnecessarily dividing an aggregate requirement into a number of smaller contracts (assignments) in order to circumvent controls on the duration of assignments or contract approval authorities.

2. Payrolling

Treasury Board policy strictly prohibits payrolling.

Payrolling is the practice by which firms are instructed by Federal Government Departments or Agencies to take on strength specified individuals who are then assigned to provide services to that government Department or Agency under contract.

The THS On-Line System must not be used by Federal Government Departments or Agencies for the purposes of casual, term or permanent staffing arrangements. This includes amending a call-up/contract to accommodate any of the foregoing. The THS On-Line System is to be used by Identified Users for the purpose of issuing call-ups/contracts for THS on behalf of Federal Government Departments or Agencies.

3. Contract Switching at the Temporary Help Resource's Request

The temporary help resource is an employee or sub-contractor of the Offeror/Supplier.

Accordingly, attempts by temporary help resources or Offeror/Supplier to persuade Temporary Help Authorities to change the Offeror/Supplier are inappropriate and will be rejected, and brought to the attention of the Standing Offer/Supply Arrangement Authority.

It is also prohibited for Identified Users to direct an individual to a specific Offeror/Supplier, or negotiate or dictate the pay rates of Offeror/Supplier temporary help resources.

4. Temporary Help Resource Pay Deductions

Under the terms of each Call-up/Contract pursuant to the Standing Offer/Supply Arrangement, the Offeror/Supplier is solely responsible for any and all temporary help resource payments and deductions required to be made respecting Employment Insurance, Worker's Compensation, Income Tax, Canada Pension Plan, or similar government legislated programs, and such other deductions as may be required by applicable provincial or federal legislation. Under no circumstances will a Federal Government Department or Agency assume this responsibility.

5. Cancelling a Call-up (in order to re-issue)

A Federal Department User shall not at any time, cancel a call-up and re-issue the identical call-up for the reason of obtaining a different rate.

6. Staffing Arrangements

A transfer fee will be payable to the Offeror/Supplier by the department of a Federal Department User when the "office" where the THS Resource has been assigned during the call-up/contract period hires the resource (without competition) either on a casual, term or indeterminate basis, prior to the passage of up to 20 calendar weeks measured from the start of services under the call-up against the THS Standing Offer or contract under the Supply Arrangement. Fees will also be payable if the resource is hired to work in the same office, regardless of new duties. 'Office' is interpreted herein as an organization in a department under the supervision of a Director General or equivalent. Where there is no DG or equivalent level, the next highest rank is applicable.

Note:

- Transfer fees will not be paid at any time following the 20 week period after the start of services under a call-up/or contract.
- Transfer fees do not apply in cases where the resource was staffed using an open and competitive staffing process.

The following schedule applies when determining the calculated transfer fee that must be paid to the Offeror/Supplier:

- Greater than 18 and up to 20 weeks from the start of services: a transfer fee based on 2% of the annualized salary offered to the THS Resource;
- Greater than 16 and up to 18 weeks from the start of services: a transfer fee based on 4% of the annualized salary offered to the THS Resource;
- Greater than 14 and up to 16 weeks from the start of services: a transfer fee based on 6% of the annualized salary offered to the THS Resource;
- Greater than 12 and up to 14 weeks from the start of services: a transfer fee based on 8% of the annualized salary offered to the temporary help resource;
- Greater than 10 and up to 12 weeks from the start of services: a transfer fee based on 10% of the annualized salary offered to the THS Resource;
- Greater than 8 and up to 10 weeks from the start of services: a transfer fee based on 12% of the annualized salary offered to the THS Resource;
- Greater than 6 and up to 8 weeks from the start of services: a transfer fee based on 14% of the annualized salary offered to the THS Resource;

- Greater than 4 and up to 6 weeks from the start of services: a transfer fee based on 16% of the annualized salary offered to the THS Resource;
- Greater than 2 and up to 4 weeks from the start of services: a transfer fee based on 18% the annualized salary offered to the THS Resource;
- 0 to 2 weeks from the start of services: a transfer fee based on 20% of the annualized salary offered to the THS Resource.

For the purposes of this clause, annualized salary offered to the THS Resource means the starting annual salary of the position offered by the department to the THS Resource in effect at the time of the offer. This does not include any subsequent performance / incentive pay, bilingual bonus, collective agreement increases or other increases that may occur.

For example, a THS resource being offered a casual, term or indeterminate employment starting at level 1 increment-PG 2 salary would have an annualized salary of \$50,502. Where the position is instead based on an hourly rate, then this hourly rate would be annualized, multiplied by 1950 (7.5 hour day), and further multiplied by the appropriate transfer fee percentage. (e.g. \$18.00/hour x 1950 hours = \$35,100 and if hired at the 5 week mark \$35,100 x 16% = \$5,616 transfer fee).

7. Name Referral

This is the practice of requesting the temporary help services of a specific individual.

Name Referral is acceptable only under Standing Offer component and only after the supplier has been selected in accordance with the steps for selecting a supplier.

For example, after a search result under the Standing Offer component of the THS On-Line System, if the Supplier with the lowest rate has confirmed availability of a resource or resources that meet the Federal Department User's requirement (i.e. no names have been stated by the Federal Department User) and the Supplier has been selected in accordance with the steps for selecting a Supplier, the Federal Department User can then ask for a specific resource. If the Supplier cannot provide the specific resource, this does not allow the Federal Department User to move forward to the next Supplier, i.e. by-pass a Supplier.

8. Classification and Classification Level Switching

It is prohibited for the Offeror/Supplier or their resources to upgrade the requirements of a specific call-up/contract. Offeror/Supplier must provide a resource that meets both the classification and classification level requested by the Identified User.

For example, if an Identified User requests an Intermediate Clerk, the Offeror/Supplier will not provide a Senior Clerk in place of an Intermediate Clerk. If a Offeror/Supplier is unable to provide the resource requested by the Identified User, the Identified User will send a request to other Offeror/Supplier, until a suitable resource is found, that matches the classification and level that was initially requested.

9. Employer/Employee Relationships

Identified Users must ensure that any call up/contract under the SO/SA, and the conduct of the parties during contract performance, does not result in the establishment of an employer-employee relationship between the temporary help resource and Canada. Should there be any uncertainty; the contract should be signed at a level more senior than the individual who would normally approve the initial entry into the contract.

For guidance in assessing an employer-employee relationship, consult the CRA publication RC 4110 Employee or Self-Employed <http://www.cra-arc.gc.ca/E/pub/tg/rc4110/> and seek legal advice.

It is ultimately the responsibility of the Identified User to ensure that Call-ups/Contracts do not create employer-employee relationships.

10. Classifications

The list of classifications contains detailed information for each classification. Identified users must provide information on the duties and tasks to be performed. This will allow the Offeror/Supplier firms' counselors to match the needs of a specific job/task with the skills and experience of available temporary help employees. Disputes in this area are to be addressed to the Standing Offer/Supply Arrangement Authority named herein.

11. Notice

Despite the stated minimum of two (2) days' notice required, Designated Users should provide as much advance notice as possible; normally five (5) calendar days notice will result in a more thorough review for the "best-qualified" temporary help resources.

12. Resumes & Interviews

For Streams 1 to 3, interviews and resumes may not be required by the Identified User, however, if the Identified User chooses to request interviews for these classifications (under Streams 1 to 3), the Identified User will be charged four (4) hours at the hourly rate of the candidate, for each interview. Identified users are to issue a separate call-up/contract document for these interviews.

NOTE: Telephone interviews are encouraged, as the four (4) hours charge will then not be applicable. To ensure that the chosen resource will remain available to you, please contact the company as soon as possible when a decision is made.

For Streams 4 and 5 (all classifications under Streams 4 and 5), Identified users are entitled to one (1) interview for up to three (3) candidates at no charge, and may request resumes or work samples.

13. Quality Control

All services are to be performed to the complete satisfaction of the Identified User and are subject to his/her acceptance. Identified Users are asked to provide PWGSC with a Client Satisfaction Report as needed. In the report, Identified Users should provide information on both satisfactory Offeror/Supplier, which provide high quality services, and unsatisfactory Offeror/Supplier which consistently are unable to supply resources as well as instances where less than satisfactory, including cases where resources were rejected because of unsatisfactory performance.

In addition, Identified users are to report the following situations to PWGSC:

- If the Offeror/Supplier repeatedly cannot provide a resource that meets the classification requirements requested by the Identified User; or
- If the Offeror/Supplier provides poor service or unqualified temporary help resources; or
- Any other situation where any Offeror/Supplier contravenes the terms and conditions of the SO/SA.

Identified Users should report inefficiencies, extensive absenteeism, or inability to perform assigned duties on the part of the temporary help resources immediately to the Temporary Help Authority. If the issue cannot be resolved by the Temporary Help Authority and Offeror/Supplier, the Identified User should contact the Standing Offer/Supply Arrangement Authority for

assistance. Such notification will provide the Standing Offer/Supply Arrangement Authority with an opportunity to take any further corrective action that may be required under the circumstances.

14. Family Day

Family Day is observed as a public (or statutory) holiday in the province of Ontario and is held every year on the third Monday of February. This is an Ontario provincial holiday that the Federal Government of Canada has not adopted and, as a result, all Users of THS are reminded that it is the right of the Supplier to decide if their THS resource will or will not work on "Family Day".

If a THS resource reports to work on that day, THS Suppliers will be paid at the regular contract rate, as the THS Standing Offers and Supply Arrangements do not provide for premiums to be paid to Suppliers for work on statutory holidays. Because of this, Supplier agreement is necessary before the resource reports to work on "Family Day".

If a THS resource does not report into work on that day, Suppliers will not be entitled to invoice the Federal Department/Agency for that day as no services were provided.

The THS Federal Department User (FDU) requires agreement from the Suppliers that they will only charge the regular contract rate if they agree to have the resource work. If the Supplier states that the FDU will pay the resource 1.5X the rate in order for that resource to show up at work then FDU should say no and resource won't work.

15. Overtime

Overtime must be discussed between the Federal Department User and the Offeror/Supplier and must be pre-approved. Whenever there is overtime work performed, the contractor will be paid using overtime rate indicated by the Supplier to the Federal Department User. Overtime is regulated by provincial legislation and is therefore calculated based on where the work is performed.

- For the province of Ontario, overtime is payable for time worked in excess of 44 hours in a week .
- For the province of Quebec, overtime is payable for time worked in excess of 40 hours in a week .

16. Resource Resumes

In response to situations of falsified résumés, or portions thereof, an assessment process will be implemented to establish the procedures that PWGSC will use to investigate challenges of falsified information. The punitive measure that will result from a validated situation of a falsified résumé, or portions thereof, will be automatic suspension of the Supplier from the THS On-Line System.

17. Written Consent

Offerors will be required to submit with each response to a Request for Availability a copy of the written agreement from the resource covering the availability of the resource for the full duration of the proposed call-up.

Federal Government Department users will need to track the name of the temporary help resource. Where it is found that a temporary help resource bid by the company with the Right of First Refusal, and who had provided his/her written consent to be bid by that company for a specific requirement, subsequently advises unavailability for the assignment, then that resource will not be considered a valid proposal from any other bidder.

18. Security Clearances of Resources

With respect to security clearances of resources, Suppliers are reminded that the Security Clearance Global Release Option form is not to be completed (populated) by Suppliers nor is the form to be used to restrict the mobility of a resource.

Section III: Information for Offeror/Supplier

1. Code Of Ethics & Standards of Offeror/Supplier

The Offeror/Supplier must observe the highest principles of integrity, professionalism and fair practice in dealing with Identified Users, candidates, employees and all regulatory authorities; and will respect the confidentiality of records in accordance with law and good business practices.

The Offeror/Supplier must provide leadership in the adherence to both the spirit and letter of all applicable human rights, employment laws and regulations. The Offeror/Supplier must treat all candidates and employees without prejudice and must not accept an order from any client that is discriminatory in any way.

The Offeror/Supplier must take all reasonable steps to provide Identified Users with accurate information on each candidate's employment qualifications and experience; and shall only present those candidates who have given them written authorization to represent their application for employment.

The Offeror/Supplier must supply candidates and employees with complete and accurate information as provided by the client, regarding terms of employment, job descriptions and workplace conditions.

The Offeror/Supplier must not recruit, encourage or entice a candidate whom it has previously placed to leave the employ of its client, nor must it encourage or coerce an individual to leave any temporary assignment before the stated completion date.

The Offeror/Supplier must not restrict the right of a candidate or employee to accept employment of their choice.

The Offeror/Supplier must maintain the highest standards of integrity in all forms of advertising, communications and solicitations.

The Offeror/Supplier must ensure that its Identified Users, candidates and employees are aware of its duty to abide by this Code of Ethics & Standards and such supporting policies and guidelines.

2. Services

The Offeror/Supplier must provide services in accordance with the terms and conditions of the Standing Offer/Supply Arrangement (no other conditions are applicable).

The Offeror/Supplier will as a result of a request for call-up or Request for Proposal:

- i. Review its inventory of temporary help resources in the specified area to identify all resources possessing the basic skills (including skill testing).
- ii. Review the experience and previous performance of temporary help resources and match with the job/task description provided by the Identified User.
- iii. Contact the proposed temporary help resource to verify his/her willingness/ability to accept assignment and obtain the written consent of the temporary help resource prior to

- submitting his/her name in response to a Request for Availability or Request for Services under the THS On-Line System.
- iv. Propose an hourly rate that matches the WPR rate of the given classification and level of expertise in the case of call-up against the Standing Offer.

If a temporary help resource is found to be unsuitable and the Offeror/Supplier is notified within four (4) hours from the commencement of the start of his/her service, Canada will not be liable for payment to the Offeror/Supplier for that period.

If the Offeror/Supplier provides poor service or unqualified temporary help resources, Identified Users will contact the Standing Offer/Supply Arrangement Authority with details and the Offeror/Supplier will be notified. Three (3) separate complaints may result in the removal of the Offeror/Supplier from the Temporary Help Services (THS) System.

3. Workplace Hazardous Materials Information System (WHMIS)

Stream 3 Offeror/Supplier are responsible for basic WHMIS training and for basic protective gear such as steel toe boots and a hard hat, as stipulated in applicable classifications; any training requirements and protective equipment specific to the workplace, shall be responsibility of the client. Stream 3 Offeror/Supplier must refer to each classification descriptions for a complete list of requirements.

4. Time Worked

The Offeror/Supplier will only be paid for actual time worked that has been pre-approved by the Identified user.

See below for the nature of information required on time sheets:

- Week starting / ending:
- From / To:
- Classification and Level:
- THS Supplier:
- Name of THS Resource:
- Call up/Contract Number:
- Hourly Rate:
- Over Time (Pre-approved):
- Daily Total Reg. + O.T. =
- Weekly total:
- Sun.
- Sat.
- Fri.
- Thu.
- Wed.
- Tues.
- Mon.

THS resource's Signature: _____

Client Representative: _____

Date: _____

Payment will be made for hours actually worked in accordance with Basis of Payment in the Call-up/Contract. Canada will not accept any charges for statutory holidays or annual leave or sick leave incurred by the Offeror/Supplier as a consequence of satisfying the terms of the resulting Call-up/contract.

The Identified User will validate the hours actually worked by the temporary help resource by signing this schedule. Electronic communication will be acceptable where authorized by departments.

Temporary Help Services resources must submit this signed Hourly Schedule to its employer, the Offeror/Supplier.

5. Compliance

It is imperative that the Offeror/Supplier report to PWGSC within fifteen (15) days, any changes that could affect its compliance with the terms and conditions of the resulting Standing Offer/Supply Arrangement. Failure to do so could result in the Standing Offer being set aside or the Supply Arrangement cancelled.

6. Reinstatement Process

This section entitled "Reinstatement Process" pertains actions related to the contents of the document entitled "Protocol and Standards for the THS On-Line System Applicable to Federal Department Users and Suppliers", e.g. item 2 above addresses the services provided by an SO/SA Holder and the action that could result relating to poor service. The contents of item 6, hereunder, provides further information on actions that may be taken by PWGSC and the approach to be followed for setting aside a Standing Offer or canceling a Supply Arrangement.

Standing Offers/Supply Arrangement will be set aside/cancel and Call-ups/Contracts may be terminated for default if the Offeror/Supplier does not correct any deficiencies to the satisfaction of PWGSC in the allotted three (3) month period. PWGSC will take the following steps:

- i. a notice will be sent to the Offeror/Supplier stating the deficiencies and allow a minimum of three (3) months to correct the situation. At the discretion of the SO/SA Authority a longer period may be granted depending on the gravity of the deficiencies;
- ii. after this period, should the situation not be corrected to the Standing Offer/Supply Arrangement Authority's satisfaction, the SO/SA will be set aside/cancel. The SO/SA Authority will notify the Identified Users to stop placing call-ups/contracts with this SO Holder/Supplier until otherwise notified;
- iii. depending on the degree to which the criteria have not been met, PWGSC may require, at its discretion, a detailed list of all call-ups/contracts with the name of the Identified User, the contact person and the telephone number. Depending on the case, the contracting authority may terminate any call-ups/contracts if warranted; and
- iv. when the SO/SA is set aside/cancel, after a one (1) year period and at the SO Holder/Supplier's written demonstration that problems have been corrected, PWGSC may review the situation (and may include a Facility Inspection) with view to SO Holder/Supplier to be able to re-submit a Technical Offer if the period of the Standing Offer/Supply Arrangement has not expired (to Date, Month and Year).

7. Commercial Office

The Offeror/ Supplier must occupy and maintain, at the time of the offer and during the lifetime of any resulting Standing Offer/Supply Arrangement for Temporary Help Services, a fully operational permanent commercial office open during normal business hours (7-1/2 hrs per day, Monday to Friday) with a minimum staff of two (2) full time primary contacts, one of which must be able to offer services in both official languages, dedicated to the supply of THS to Identified users and with four (4) hours response time to Identified user departments. The Offeror/Supplier must provide the address of its commercial office as well as the name of its two full time primary contacts and indicate which employee can offer the services in both official languages.

8. Written Consent

Suppliers will be required to submit with each response to a Request for Availability a copy of the written agreement from the resource covering the availability of the resource for the full duration of the proposed call-up.

Federal Government Department users, will need to track the name of the temporary help resource. Where it is found that a temporary help resource bid by the company with the Right of First Refusal, and who had provided his/her written consent to be bid by that company for a specific requirement, subsequently advises unavailability for the assignment, then that resource will not be considered a valid proposal from any other bidder.

9. Security Clearances of Resources

With respect to security clearances of resources, Suppliers are reminded that the Security Clearance Global Release Option form is not to be completed (populated) by Suppliers nor is the form to be used to restrict the mobility of a resource.

10. Resource Resumes

In response to situations of falsified résumés, or portions thereof, an assessment process will be implemented to establish the procedures that PWGSC will use to investigate challenges of falsified information. The punitive measure that will result from a validated situation of a falsified résumé, or portions thereof, will be automatic suspension of the Supplier from the THS On-Line System. Protocol and Standards for THS Applicable to Identified Users and Suppliers, can be updated from time to time and such modification will be posted on the THS website.

Protocol and Standards for THS Applicable to Identified Users and Suppliers, can be updated from time to time and such modification will be posted on the THS website.

Annex "E"

Basic Standards for Testing the Office Support Classifications (Stream 1)

1. Provision of Examinations

Standardized examinations must be provided for the assessment of the qualifications in the Classification and as a minimum, Offerors must have available the following four types of examinations for the selection and classification of its resources. Public Service testing will be accepted where appropriate and relevant to the Federal Department Users requirements.

1.1 Keyboarding Examinations

Keyboarding examinations **must** be available separately in English and French to evaluate the following:

- a) Keyboarding skill in English or French or English and French at a speed of at least 40 words per minute with not more than 5 percent error rate,
- b) Keyboarding skill in English or French or English and French, at a speed of at least 25 words per minute with not more than a 3 percent error rate.

1.2 Grammar, Spelling and Punctuation Proficiency Tests

A good knowledge of the fundamental rules of grammar, spelling and punctuation is normally required.

1.3 Clerical Ability

These examinations, generally administered in the candidates' official language, are designed to assess basic abilities required in satisfactorily carrying out office duties. Although the number and types of abilities measured may vary from one examination to another, a clerical test should normally contain a series of sub-tests designed to evaluate:

- a) filing ability,
- b) coding ability,
- c) checking ability,
- d) arithmetic ability.

1.4 Commonly Used Software

Testing of commonly used software such as Word, WordPerfect, Excel, Powerpoint, depending on the candidate's abilities and desired classification **must** be performed by the Offeror.

2. Identification of Examinations

Where the Offeror develops their own examinations, either with staff trained or experienced in test development or with assistance from outside consultants, such examinations **must** be consistent with the standards set out herein.

A number of commercial tests also exist which meet the minimal requirements outlined below.

3. Administration of Examinations

The Offeror must ensure that individuals responsible for administering these various examinations possess adequate training and experience to carry out this function. The task of administering an examination to one or more individuals cannot be carried out without preparation; it requires a good knowledge of the examination itself and the conditions of test administration.

The Offeror must ensure that the individual assigned to administer these examinations is completely familiar with the oral and written instructions that are to be given to the candidates. The Offeror must ensure that the test administrator periodically verifies that all test equipment is in good working condition and ensure that general test conditions permit candidates to perform at their best (e.g. that there is adequate lighting, sufficient work space, a quiet environment, and accommodation of any special needs a candidate may have.)

3.1 Time Limits

The Offeror must rigorously apply and adhere to time limits, if applicable, established for examinations or examination sections.

It is strongly recommended that the test administrator ensure the accurate timing of the various sections of the ability tests.

3.2 Examination Scoring

The Offeror must score skill examinations according to precise guidelines and procedures outlined in a clear scoring guide or manual.

The Offeror must ensure that test scorers have adequate training and experience in the scoring of skill examinations and are completely familiar with the scoring guidelines provided for each examination.

Scores for each ability must be totalled for each section of the examination and/or for the examination as a whole.

3.3 Security of Examination Material

All examination material which may include answers, tests and manuals must be securely stored. Only those individuals responsible for administering and/or scoring examinations should have access to examination material.

4. Examination Specifications

4.1 Keyboarding Examinations

- a) Two equivalent versions in each language must be available for the assessment of the skills listed in section 1. above, that is two parallel forms of the French keyboarding test and two parallel forms of the English keyboarding test.
- b) The equivalency of the two forms of the examination will be determined by an evaluation of the following two factors:
 - ♦ stroke intensity
 - ♦ syllabic intensity
- c) Each equivalent form must comprise the following:

- ♦ a page of general instructions preceding the test,
 - ♦ a practice keyboarding text of approximately 150 words (3 to 5 minutes),
 - ♦ a first examination text of 1,350 to 1,550 strokes in narrative format (that is not containing numbers or symbols) with a time limit of 5 minutes,
 - ♦ a second examination text of 1,350 to 1,550 strokes in narrative of 5 minutes duration.
- d) For each keyboarding text the mean number of strokes per dictionary word must fall between 5.90 and 6.10. The average stroke intensity may be calculated by dividing the total number of key-strokes in the keyboarding text by the total number of words.
- e) The syllabic intensity of each keyboarding text must fall between 1.45 and 1.55. The average syllabic intensity can be calculated by dividing the total number of syllables by the total number of words in the text.
- f) At the completion of the examination the candidates will be asked to decide which of the two examination texts typed they wish to be scored. Only the one text designated by them will be scored.
- g) The scoring of the examination must take into account the two criteria below:
- ♦ the speed in number of words typed per minute, determined by dividing the total number of keyboarding strokes by 25,
 - ♦ accuracy by percentage of errors, determined by dividing the number of errors by the total number of words typed.
- h) The pass mark required on the keyboarding examination is either:
- ♦ a speed of 40 words per minute with no more than 5% error
 - ♦ a speed of 25 words per minute with no more than 3% error
- i) To be fully qualified each candidate must be able to meet the criterion for both speed and accuracy. Failure on either one or the other of these criteria will result in a failure on the examination.
- j) In the case of a failure the candidate may be re-tested within a reasonable time. However in this case a different form of the examination must be used and the examination administered under the same conditions as in the first test session.

4.2 Grammar, Spelling and Punctuation Tests

- a) An examination of grammar, spelling and punctuation must be available in each official language to evaluate the knowledge qualifications, that is a separate English and a separate French test of grammar, spelling and punctuation.
- b) The examination must be able to provide a reliable measure of fundamental rules of grammar, spelling and punctuation at the tenth grade level.
- c) The examination and related material (i.e. answer sheet, administration and technical manual) must be accompanied by appropriate normative data, based on one or more properly identified norm groups. Among these may be 10th grade students, applicants to clerical positions or incumbents.
- d) The pass mark on the examination must be established according to appropriate norm group data. When this data is expressed in terms of percentiles, it is recommended that the pass mark be established at the 40th percentile.

- e) A candidate who has failed the examination may be tested again within a reasonable time.
- f) The raw scores obtained on this examination (including scores obtained on each sub-test of the examination) together with data recorded on the candidates must be filed systematically and maintained.

4.3 Clerical Ability Tests

- a) An examination of clerical abilities must be available in each official language to evaluate the qualifications.
- b) The examination must provide a reliable and valid measure of abilities judged necessary to successful office work:
 - speed and accuracy in activities related to filling, coding and checking of numerical and/or alphabetical material, and
 - arithmetic abilities.
- c) The examination and related material (that is answer sheet, administration and technical manual) must be accompanied by appropriate normative data based on one or more carefully identified reference groups. Among these may be students and incumbents of clerical positions.
- d) The pass mark for the examination must be based on the normative data available. When this data is expressed in terms of percentiles for female and male subjects separately, it is recommended that a pass mark corresponding to the 40th percentile for each normative group be established.
- e) A candidate who has failed the examination may be tested again within a reasonable time.
- f) The raw scores obtained on this examination (including scores obtained on each sub-test of the examination) together with data recorded on the candidates must be filed systematically and maintained.

Annex “F”

Insurance Requirements

1. Commercial General Liability (CGL)
 - 1.1 The Contractor must obtain Commercial General Liability Insurance, and maintain it in force throughout the duration of the Standing Offer and any resulting Call-up, in an amount usual for a Call-up of this nature, but for not less than \$2,000,000 per accident or occurrence and in the annual aggregate.
 - 1.2 For every Call-up resulting from the Standing Offer, the Commercial General Liability policy must include the following:
 - (a) Additional Insured: Canada is added as an additional insured, but only with respect to liability arising out of the Offeror's performance of the Call-up. The interest of Canada should read as follows: Canada, as represented by Public Works and Government Services Canada.
 - (b) Bodily Injury and Property Damage to third parties arising out of the operations of the Contractor.
 - (c) Products and Completed Operations: Coverage for bodily injury or property damage arising out of goods or products manufactured, sold, handled, or distributed by the Contractor and/or arising out of operations that have been completed by the Contractor.
 - (d) Personal Injury: While not limited to, the coverage must include Violation of Privacy, Libel and Slander, False Arrest, Detention or Imprisonment and Defamation of Character.
 - (e) Cross Liability/Separation of Insureds: Without increasing the limit of liability, the policy must protect all insured parties to the full extent of coverage provided. Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.
 - (f) Blanket Contractual Liability: The policy must, on a blanket basis or by specific reference to the Call-up, extend to assumed liabilities with respect to contractual provisions.
 - (g) Employees and, if applicable, Volunteers must be included as Additional Insured.
 - (h) Employers' Liability (or confirmation that all employees are covered by Worker's compensation (WSIB) or similar program)
 - (i) Broad Form Property Damage including Completed Operations: Expands the Property Damage coverage to include certain losses that would otherwise be excluded by the standard care, custody or control exclusion found in a standard policy.
 - (j) Notice of Cancellation: The Insurer will endeavour to provide the Standing Offer Authority and the Contracting Authority thirty (30) days written notice of policy cancellation.
 - (k) If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Call-up.

- (l) Owners' or Contractor's Protective Liability: Covers the damages that the Contractor becomes legally obligated to pay arising out of the operations of a subcontractor.
- (m) Non-Owned Automobile Liability - Coverage for suits against the Contractor resulting from the use of hired or non-owned vehicles.
- (n) Litigation Rights: Pursuant to subsection 5(d) of the Department of Justice Act, S.C. 1993, c. J-2, s.1, if a suit is instituted for or against Canada which the Insurer would, but for this clause, have the right to pursue or defend on behalf of Canada as an Additional Named Insured under the insurance policy, the Insurer must promptly contact the Attorney General of Canada to agree on the legal strategies by sending a letter, by registered mail or by courier, with an acknowledgement of receipt.

For the province of Quebec, send to:

Director Business Law Directorate,
Quebec Regional Office (Ottawa),
Department of Justice,
284 Wellington Street, Room SAT-6042,
Ottawa, Ontario, K1A 0H8

For other provinces and territories, send to:
Senior General Counsel,
Civil Litigation Section,
Department of Justice
234 Wellington Street, East Tower
Ottawa, Ontario K1A 0H8

A copy of the letter must be sent to the Contracting Authority. Canada reserves the right to co-defend any action brought against Canada. All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any action brought against it, and Canada does not agree to a proposed settlement agreed to by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

2. Errors and Omissions Endorsements

The following applies to Offerors in Streams 4 and 5.

- 2.1. The Contractor must obtain Errors and Omissions Liability (a.k.a. Professional Liability) insurance, and maintain it in force throughout the duration of the Call-up, in an amount usual for a call-up of this nature but for not less than \$1,000,000 per loss and in the annual aggregate, inclusive of defence costs.
- 2.2. For every Call-up resulting from the Standing Offer for services in Streams 4 and 5, the Errors and Omissions Liability policy must include the following:
 - a) If the policy is written on a claims-made basis, coverage must be in place for a period of at least 12 months after the completion or termination of the Call-up.
 - b) Notice of Cancellation: The Insurer will endeavour to provide the Standing Offer Authority and the Contracting Authority thirty (30) days written notice of cancellation.

ANNEX "A"

Requirement

Classifications

for

Temporary Help Services, National Capital Area

For THS Suppliers and Identified Users (Client):

When a Client is requesting a higher than the minimum education requirement than those specified in the Minimum Mandatory Qualifications for a given classification /level specified in this Annex, the client has the authority to accept an alternative as long as that alternative does not go below the minimum education requirement identified for that classification. When used, the alternative must be specified by the Client in the Request for Availability (RFA) form for the Standing Offer and in the Request for Services (RFS) form for the Supply Arrangement.

In addition, when a minimum education is required for a given classification and level, and the THS Supplier submits a proposal / submission to either a RFA or RFS whereby the THS supplier provides evidence of a higher level of education as part of its submission, there will be no requirement from the Client to request additional proof by the supplier to demonstrate the lower education requirement as may be specified for the given classification and level.

Descriptions of Classifications

Stream 1 ~ Office Support

Classification: Clerk, Sub-Classification - Accounting	
<p>An Accounting Clerk's main task is to process information related to the daily financial operations of the department or agency by manual, written, verbal or electronic means. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, etc.), accounting software, the ability to communicate effectively orally and in writing and abilities in general accounting and mathematics.</p> <p>Major Duties:</p> <ul style="list-style-type: none"> ◆ Calculating, preparing and issuing documents related to accounts such as bills, invoices, inventory reports, account statements and other financial statements using computerized and manual systems ◆ Coding, totalling, batching, entering, verifying and reconciling transactions such as accounts payable and receivable, payroll, purchase orders, cheques, invoices cheque requisitions, and bank statements in a ledger or computer system or both ◆ Providing general clerical support including data inputting, processing and updating, routing correspondence, maintaining Bring-Forward (BF) systems, answering the telephone, operating telephone switching systems and taking messages ◆ Performing document and file management functions, including e-filing ◆ Photocopying, faxing and scanning documents 	
Junior	<p>Duties include the performance of routine, repetitive tasks of low complexity involving a limited number of clearly defined procedures and instructions. - ♦ Minimum of one (1) year of relevant experience is required

Classification: Clerk, Sub-Classification - Accounting

An Accounting Clerk's main task is to process information related to the daily financial operations of the department or agency by manual, written, verbal or electronic means. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, etc.), accounting software, the ability to communicate effectively orally and in writing and abilities in general accounting and mathematics.

Major Duties:

- ♦ Calculating, preparing and issuing documents related to accounts such as bills, invoices, inventory reports, account statements and other financial statements using computerized and manual systems
- ♦ Coding, totalling, batching, entering, verifying and reconciling transactions such as accounts payable and receivable, payroll, purchase orders, cheques, invoices cheque requisitions, and bank statements in a ledger or computer system or both
- ♦ Providing general clerical support including data inputting, processing and updating, routing correspondence, maintaining Bring-Forward (BF) systems, answering the telephone, operating telephone switching systems and taking messages
- ♦ Performing document and file management functions, including e-filing
- ♦ Photocopying, faxing and scanning documents

Senior

Tasks include providing client service related to client accounts in addition to providing administrative support to accounting staff.

Typical duties may include:

- ♦ Retrieving financial data
- ♦ Coding and auditing invoices
- ♦ Reconciliation of accounts with general ledger
- ♦ Preparing period statements, cost statements and reports
- ♦ Calculating costs of materials, overhead and other expenses based on estimates, quotations, or price lists

Minimum Mandatory Qualifications:

Education:

- ♦ Secondary school diploma or an acceptable combination of education, training and experience is required

Experience:

- ♦ Minimum of three (3) years of relevant experience is required

Asset Qualifications:

- ♦ Successful completion of post-secondary program courses in business, accounting or related field from a recognized post secondary institution or an acceptable combination of education, training and experience may be required

Classification: Clerk, Sub-Classification - Accounting

An Accounting Clerk's main task is to process information related to the daily financial operations of the department or agency by manual, written, verbal or electronic means. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, etc.), accounting software, the ability to communicate effectively orally and in writing and abilities in general accounting and mathematics.

Major Duties:

- ◆ Calculating, preparing and issuing documents related to accounts such as bills, invoices, inventory reports, account statements and other financial statements using computerized and manual systems
- ◆ Coding, totalling, batching, entering, verifying and reconciling transactions such as accounts payable and receivable, payroll, purchase orders, cheques, invoices cheque requisitions, and bank statements in a ledger or computer system or both
- ◆ Providing general clerical support including data inputting, processing and updating, routing correspondence, maintaining Bring-Forward (BF) systems, answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing and scanning documents

Advanced

Tasks include providing client service related to client accounts, providing administrative support to accounting staff and providing guidance regarding work completed by other clerical support staff.

Typical duties may include:

- ◆ Retrieving financial data
- ◆ Coding and auditing invoices
- ◆ Reconciliation of accounts with general ledger
- ◆ Preparing period statements, cost statements and reports
- ◆ Calculating costs of materials, overhead and other expenses based on estimates, quotations, or price lists
- ◆ Providing advice and administration support in areas of finance and budgeting
- ◆ Coordinating and preparing all aspects of financial and budget administration
- ◆ Preparing financial statements
- ◆ Verifying and balancing transactions

Minimum Mandatory Qualifications:

Education:

- ◆ Secondary school diploma or an acceptable combination of education, training and experience is required

Experience:

- ◆ Minimum of five (5) years of relevant experience is required

Asset Qualifications:

- ◆ Certificate, diploma, or degree in business, accounting or related field from a recognized post secondary institution or an acceptable combination of education, training and experience may be required
- ◆ Experience with Government Financial System (GFS) may be required

Classification: Clerk, Sub-Classification - Access to Information & Privacy (ATIP)

ATIP Clerks compile, verify, record and process forms and documents by manual, written, verbal or electronic means, in accordance with established procedures, guidelines and schedules. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, Access, RDIMS, etc.) and the ability to communicate effectively orally and in writing.

Major Duties:

- ◆ Providing general clerical support including input, processing and updating of data
- ◆ Routing correspondence and maintaining Bring-Forward (BF) systems
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents
- ◆ Preparing correspondence, reports, statements and other material

Junior

Duties include the performance of routine, repetitive tasks involving a number of clearly defined procedures and instruction. Work performed will be subject to review while in progress and the THS Resource will report to a more senior clerical level.

Typical duties may include:

- ◆ Entering of data
- ◆ Filing, e-filing and retrieval of documents
- ◆ Addressing and filling envelopes
- ◆ Photocopying, faxing, and scanning documents
- ◆ Entering data in databases, spreadsheets, and inventories
- ◆ Collating, separating and organizing documents
- ◆ Distributing mail

Minimum Mandatory Qualifications:**Education:**

- ◆ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required

Intermediate

Duties include providing assistance to more senior staff in the completion of various tasks. Work performed is subject to review while in progress.

Typical duties may include:

- ◆ Assisting in the preparation of correspondence, reports, statements and other documents
- ◆ Assisting in the processing of applications and forms
- ◆ Assisting in the maintenance of records
- ◆ Processing database, spreadsheet, and inventory information
- ◆ Sending, receiving and distributing internal and external mail
- ◆ Completion of courier forms and the dispatching of couriers

Minimum Mandatory Qualifications:**Education:**

- ◆ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required

Experience:

- ◆ Minimum of one (1) year of relevant experience is required

Classification: Clerk, Sub-Classification - Access to Information & Privacy (ATIP)

ATIP Clerks compile, verify, record and process forms and documents by manual, written, verbal or electronic means, in accordance with established procedures, guidelines and schedules. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, Access, RDIMS, etc.) and the ability to communicate effectively orally and in writing.

Major Duties:

- ◆ Providing general clerical support including input, processing and updating of data
- ◆ Routing correspondence and maintaining Bring-Forward (BF) systems
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents
- ◆ Preparing correspondence, reports, statements and other material

Senior

The ability to organize tasks and meet deadlines is required. Work performed will be subject to review initially and at completion rather than throughout the process and the THS Resource will report to an Administrative Officer or Clerical Manager.

Typical duties may include:

- ◆ Collecting, recording, arranging, transmitting and processing information
- ◆ Processing invoices, expenditures, receipts and other financial information
- ◆ Processing applications and forms
- ◆ Drafting correspondence, reports,
- ◆

Education:

- ◆ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required

Experience:

- ◆ Minimum of three (3) years of relevant experience is required

Advanced

The ability to plan, organize work, prioritize tasks and meet conflicting deadlines is required. Work performed will be subject to review upon completion and the THS Resource will report to an Administrative Officer or Clerical Manager.

Typical duties may include:

- ◆ Editing, proofreading, and finalizing correspondence, reports, statements, invoices, forms, presentations and other documents
- ◆ Verifying applications, receipts, expenditures, forms and other documents
- ◆ Maintaining and controlling stationery and office supplies inventory
- ◆ Maintaining office equipment and arranging for service
- ◆ Organizing and co-ordinating the flow of work for general office and data entry clerks

Minimum Mandatory Qualifications:**Education:**

- ◆ Secondary school diploma or an acceptable combination of education, training and experience is required

Experience:

- ◆ Minimum of five (5) years of relevant experience is required

Asset Qualifications:

- ◆ Experience working with confidential and secure information may be required

Classification: Clerk, Sub-Classification - Compensation

A Compensation Clerk's main tasks are to collect, verify and process payroll and benefit information for employees within a department. Skills and abilities required include familiarity with general office and payroll procedures, the use of standard office equipment and software (Windows XP, Word, Excel, etc.), general accounting and mathematical abilities.

Major Duties:

- ◆ Routing correspondence and maintaining Bring-Forward (BF) systems
- ◆ Inputting, processing and updating of data
- ◆ Providing information on benefits, such as the Public Service Health Care Plan and the Public Service Superannuation Plan, to employees within the department
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents
- ◆ Preparing correspondence, reports, statements and other material

Junior

Ability to use an automated pay and benefits systems, such as an HRMS, with supervision from senior staff is required. In addition, an understanding of the processing of pay and benefit entitlements as well as bookkeeping and payroll administration is required.

Classification: Clerk, Sub-Classification - Human Resources

An HR Clerk's main task is to provide support services for human resource activities as carried out by managers and Human Resources Officers. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, etc.) along with strong communication skills, and the ability to organize and prioritize their own workload.

The position may also require specialization in one discipline (classification, compensation, employment equity, labour relations, planning, staffing or training and development) or it may involve generalist duties.

Major Duties

- ◆ Processing, verifying and registering documentation related to human resources activities
- ◆ Filing, e-filing and retrieving documents
- ◆ Providing general clerical support including data inputting, processing and updating, routing correspondence, maintaining Bring-Forward (BF) systems
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents

Intermediate

Experience within the position's specialized area of human resources may be required. Knowledge of, or experience with, SAP and a Human Resource Management System (HRMS) may be required.

Typical duties may include:

- ◆ Preparing documents such as job postings and descriptions, letters of offer, letters of acknowledgement, organizational charts, and training materials
- ◆ Assisting Managers and HR Officers in completing rating guides after conducting interviews
- ◆ Assisting in the creation of Statements of Merit Criteria, rating guides, etc.
- ◆ Arranging and administering Public Service Commission tests
- ◆ Maintaining confidential documents, such as compensation records, employment histories, training records, performance evaluations and grievances
- ◆ Coordinating on-site job analysis and interviews with managers, employees and external consultants for classification purposes
- ◆ Arranging for job postings on the Internet through the Public Service Commission
- ◆ Assisting in screening and rating of job applicants, conducting reference checks
- ◆ Assisting in the administration of priorities through the Public Service Commission

Minimum Mandatory Qualifications:

Education:

- ◆ Secondary school diploma is required
- ◆

Experience:

- ◆ Minimum of three (3) years of relevant experience is required

Asset Qualifications:

- ◆ Successful completion of post-secondary courses in Human Resources, Industrial Relations, Labour Relations, Staff Relations, Business Administration or related discipline; or training, workshops or experience in a field related to the position is considered an asset.

Classification: Clerk, Sub-Classification - Human Resources

An HR Clerk's main task is to provide support services for human resource activities as carried out by managers and Human Resources Officers. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, etc.) along with strong communication skills, and the ability to organize and prioritize their own workload.

The position may also require specialization in one discipline (classification, compensation, employment equity, labour relations, planning, staffing or training and development) or it may involve generalist duties.

Major Duties

- ◆ Processing, verifying and registering documentation related to human resources activities
- ◆ Filing, e-filing and retrieving documents
- ◆ Providing general clerical support including data inputting, processing and updating, routing correspondence, maintaining Bring-Forward (BF) systems
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents

Senior

Experience relating to the specialized area of human resources as well as advanced knowledge of, or experience with, SAP and a Human Resource Management System (HRMS) may be required.

Typical duties may include:

- ◆ Verifying documents such as job postings and job descriptions prior to submission to translation services or the Public Service Commission (PSC) for web posting
- ◆ Preparing and distributing documents, including letters of offer, letters of acknowledgement, organizational charts, and training materials
- ◆ Assisting Managers and HR Officers in conducting reference checks, verifying information in resumes and identifying discrepancies in the information collected
- ◆ Compiling and tabulating statistics to support compensation and benefits practices, such as leave records and administration of salary increases
- ◆ Starting and maintaining confidential records, such as compensation records, employment histories, training records, performance evaluations and grievances
- ◆ Participating in the screening of employment candidates by conducting and evaluating reference checks, obtaining further information or verifying information in resumes, and identifying discrepancies in the information collected
- ◆ Assisting Managers and HR Officers in conducting employee orientation and information sessions

Minimum Mandatory Qualifications:

Education:

- ◆ Secondary school diploma is required
- ◆ Certificate, diploma, or degree in Human Resources, Industrial Relations, Labour Relations, Staff Relations, Business Administration or related discipline from a recognized post secondary institution or an acceptable combination of education, training and experience is required

Experience:

- ◆ Minimum of five (5) years of relevant experience is required

Asset Qualifications:

- ◆ Demonstration of continuous advancement towards obtaining certification as a Human Resources Professional (CHRP) may be required.

Classification: Clerk, Sub-Classification - Legal

Legal clerks are employed in a variety of legal practice areas within the federal government including civil litigation, criminal prosecutions, tax law, property law, advisory services, and legislative drafting. Legal clerks assist in preparing for and attending hearings, legal research, interviewing witnesses, managing evidence and drafting legal documents. The THS Resource will work as part of a multi-disciplinary team that may include counsel, information technology specialists and other experts. The demonstration of applied and current knowledge of military and criminal jurisprudence and practice, as well as law and practice under other federal statutes, in order to apply precedents and legal principles to particular case situations is required. Skills and abilities required include familiarity with general office procedures, the use of standard office equipment and software (Windows XP, Word, Excel, RDIMS, etc.).

Major Duties:

- ◆ Providing general legal support of a clerical nature, including data inputting, processing and updating, and routing correspondence
- ◆ Maintaining a Bring-Forward (BF) system encompassing various stages of litigation
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents
- ◆ Assembling documentary evidence, preparing trial briefs, and arranging for trials
- ◆ Assisting lawyers by interviewing clients, witnesses and other related parties
- ◆ Researching records, court files and other legal documents
- ◆ Preparing correspondence, reports, statements and other material

Junior

In order to provide a consistent level of service while adhering to time limitation deadlines imposed by statutes and court rules, familiarity with the theories, principles and procedures of the Canadian Parliamentary and Canadian court systems is required.

Typical duties may include:

- ◆ Conducting legal and factual research upon request
- ◆ Preparing a variety of legal documents (e.g. Orders, Motions, Affidavits, and applications for the prosecutors, etc.)
- ◆ Assisting in the formatting documents in the proper format for the regions and legal services in prosecution matters
- ◆ Registering and assigning dockets to appropriate lawyer
- ◆ Compiling and coordinating trials and appeal reports
- ◆ Ensuring that the information contained in each file is complete and accurate at each stage of criminal litigation process before forwarding it for further action
- ◆ Reporting to and answering queries from investigators, defence counsel, crown and senior counsels, support staff, and the general public in relation to case files

Minimum Mandatory Qualifications:

Education:

- ◆ Secondary school diploma or an acceptable combination of education, training and experience is required

Asset Qualifications:

- ◆ Successful completion of courses, from a recognized post secondary institution related to administration in a legal environment or an acceptable combination of education, training, and experience may be required

Classification: Clerk, Sub-Classification - Legal

Legal clerks are employed in a variety of legal practice areas within the federal government including civil litigation, criminal prosecutions, tax law, property law, advisory services, and legislative drafting. Legal clerks assist in preparing for and attending hearings, legal research, interviewing witnesses, managing evidence and drafting legal documents. The THS Resource will work as part of a multi-disciplinary team that may include counsel, information technology specialists and other experts. The Executive Assistant will have the ability to prioritize workload, as there may be multiple projects or assignments with conflicting deadlines and ongoing responsibilities.

Major Duties:

- ◆ Inputting data, processing and updating, routing correspondence, maintaining Bring-Forward (BF) systems
- ◆ Managing the daily office operations and coordinating agendas
- ◆ Organizing meetings, teleconferences and events
- ◆ Preparing background materials
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents
- ◆ Preparing correspondence, reports, statements and other material
- ◆ Scheduling and organizing national and international travel arrangements
- ◆ Assembling and disseminating correspondence and briefing materials for senior management

Senior

Tasks include ensuring that the office functions in accordance with established financial policies and practices. Experience processing various financial materials in accordance with government policies and procedures and familiarity with the policies and procedures of the specific department or agency where the work will be performed will be required.

Typical duties may include:

- ◆ Proofreading and editing materials to ensure quality of language, proper format, accuracy of content, senior staff's preferences are reflected, etc
- ◆ Ensuring proper attention is given to the wider government issues and their relationship to departmental issues and events
- ◆ Tracking issues or projects referred by senior staff
- ◆ Routing and tracking items for review or signature, to and from the office
- ◆ Scrutinizing and querying sources as required
- ◆ Creating and presenting a variety of weekly and monthly reports

Minimum Mandatory Qualifications:

Education:

- ◆ Secondary school diploma or an acceptable combination of education, training and experience is required

Experience:

- ◆ Minimum of three (3) years experience as an Executive Assistant is required

Asset Qualifications:

- ◆ Minimum of one (1) year of experience with the federal government, as an Executive Assistant, may be required

Classification: Executive Assistant

The Executive Assistant provides administrative support to senior level staff and will work with CCM Mercury, RDIMS or other electronic correspondence tracking system, as well as standard office equipment and software (Windows XP, Word, Excel, Access, etc.) and office equipment. Familiarity with office management practices, relevant Department or Agency administrative practices, policies and directives as well as excellent writing, analytical, organizational and communication skills is required. The Executive Assistant will have the ability to prioritize workload, as there may be multiple projects or assignments with conflicting deadlines and ongoing responsibilities.

Major Duties:

- ◆ Inputting data, processing and updating, routing correspondence, maintaining Bring-Forward (BF) systems
- ◆ Managing the daily office operations and coordinating agendas
- ◆ Organizing meetings, teleconferences and events
- ◆ Preparing background materials
- ◆ Answering the telephone, operating telephone switching systems and taking messages
- ◆ Performing document and file management functions, including e-filing
- ◆ Photocopying, faxing, and scanning documents
- ◆ Preparing correspondence, reports, statements and other material
- ◆ Scheduling and organizing national and international travel arrangements
- ◆ Assembling and disseminating correspondence and briefing materials for senior management

Advanced

Experience making domestic and foreign travel arrangements and preparing travel expense claims in addition to familiarity with the specific department or agency where the work will be performed will be required.

Typical duties may include:

- ◆ Planning meetings, making hotel and travel reservations and contracting interpreters and technicians
- ◆ Preparing reports, documentation and recording meeting minutes
- ◆ Making recommendations for improvements in communication procedures between offices
- ◆ Composing, editing and verifying a wide range of materials to reflect senior staff's preferences and awareness of audience reaction
- ◆ Offering guidance and training to junior team members

Minimum Mandatory Qualifications:

Education:

- ◆ Secondary school diploma or an acceptable combination of education, training and experience is required

Experience:

- ◆ Minimum of five (5) years experience as an Executive Assistant is required

Asset Qualifications:

- ◆ Certificate, diploma, or degree in a relevant field from a recognized post secondary institution or an acceptable combination of education, training and experience may be required
- ◆ Minimum of one (1) year of experience with the federal government, as an Executive Assistant, may be required

Stream 3 ~ Operational Services

Classification: Building Technician	
A building technician's main duties involve performing routine maintenance jobs such as general landscaping, painting, and various types of minor repairs.	
Intermediate	<p>Duties include the performance of routine, repetitive tasks of low complexity involving a limited number of clearly defined procedures and instructions. Tasks include the cleaning and maintenance of the interior and exterior of commercial, institutional and residential buildings and their surrounding grounds.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Washing windows, interior walls and ceilings ♦ Clearing snow and ice from walkways and parking areas ♦ Performing landscaping tasks ♦ Cleaning and disinfecting washrooms and fixtures ♦ Performing minor repairs of HVAC, plumbing, electrical systems, etc. ♦ Moving furniture, equipment or supplies <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHIMS, fall protection, manual material handling, personal protective equipment, rights of the workers, confined spaces, first-aid at the emergency level ♦ Training in heating, ventilation and air conditioning (HAC) may be required
Senior	<p>Duties include the performance of more complex, repetitive tasks including the coordination of duties performed by junior building techs. Work performed does not require supervision.</p> <p>Typical Duties may include:</p> <ul style="list-style-type: none"> ♦ Performing cleaning tasks ♦ Performing landscaping tasks ♦ Monitoring and performing more complex repairs and maintenance of HVAC and plumbing systems ♦ Moving furniture, equipment, supplies, etc. ♦ Ensuring that the appropriate security and safety measures are in place <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Successful completion of training in HVAC (Heating, Ventilation and Air Conditioning) from a recognized post secondary institution, is required ♦ Current and valid Health and Safety Certification - Part One (Health and Safety Representative) is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers, powered elevated work platforms, confined spaces, first-aid (standard level), custodial training

Classification: Building Superintendents	
A building superintendent's duties include overseeing routine maintenance and repair jobs.	
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ◆ Ensuring security and safety measures are in place and are followed ◆ Making adjustments and minor repairs to heating, cooling, ventilating, plumbing and electrical systems ◆ Contacting appropriate service provider for major repairs ◆ Assisting in the coordination of repair activities with those of other departments ◆ Assisting in the adherence to a budget and keeping financial records <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ◆ Secondary school diploma or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ◆ Minimum of three (3) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ◆ Safety training or current certification in any or all of the following may be required - WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers, confined spaces, first-aid at the emergency level ◆ Successful completion of training in HVAC (Heating, Ventilation and Air Conditioning) from a recognized post secondary institution may be required ◆ Current Building Operator Certification to level I or II may be required ◆ Certificate, diploma, or degree in Occupational Health & Safety from a recognized post secondary institution may be required
Advanced	<p>Duties will include involvement in planning, organizing, co-ordinating activities within a maintenance department.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ◆ Co-ordinating the activities of external workers engaged in bricklaying, roofing, cement finishing, tile setting, plastering, drywall installation, glazing, insulating, painting, etc. ◆ Requisitioning materials and supplies ◆ Providing or arranging appropriate safety training for staff ◆ Ensuring safety legislation and regulations are followed ◆ Inspecting sites or facilities to ensure established safety and cleanliness standards are met ◆ Recommending or arranging additional services required such as painting, repair work, renovations, replacement of furnishings and equipment, etc. ◆ Coordinating the work of light duty, industrial or specialized cleaners, janitors, apprentices and labourers ◆ Preparing work schedule and coordinating activities with those of other departments ◆ Preparing budgets and keeping financial records <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ◆ Secondary school diploma or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ◆ Minimum of five (5) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ◆ Safety training or current certification in any or all of the following may be required - WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers, confined spaces, first-aid at the emergency level ◆ Successful completion of training in HVAC (Heating, Ventilation and Air Conditioning) from a recognized post secondary institution may be required ◆ Current Building Operator Certification to level I or II may be required

Classification: Construction Site Coordinator	
A construction site coordinator's main duties involve reading blue prints, setting priorities, managing contractors and troubleshooting. Skills include the ability to succeed in stressful situations and the ability to manage conflicts. Awareness of current trends in construction methods, concepts and technological advances in the industry is required.	
Intermediate	<p>Duties involve coordinating and managing specific activities performed by external construction trades, specific phases of construction or sub-projects.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Interpretation of blue prints and setting of priorities ♦ Managing external contractors related to specific activities, phase or sub-project ♦ Reporting of any problems (technical or safety related) to the senior Construction Site Administrator <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHMIS, fall protection, manual material handling, housekeeping, personal protective equipment, traffic control for road and pedestrians, elevated work platforms, scaffold erection, confined spaces, fire extinguisher and first-aid at the emergency level ♦ Certificate, diploma, or degree in Occupational Health & Safety from a recognized post secondary institution may be required
Advanced	<p>Duties involve complex coordinating and management activities, pertinent to a complete project, performed by external construction trades.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Interpreting blue prints and setting of priorities ♦ Managing contractors and troubleshooting ♦ Supervising different external trades on site ♦ Attending meetings as required by PWGSC ♦ Providing solutions for minor disputes with or between contractors ♦ Identifying problems and providing viable solutions ♦ Performing inspections of work performed <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of ten (10) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - for WHMIS, fall protection, manual material handling, housekeeping, personal protective equipment, traffic control for road and pedestrians, powered elevated work platforms, scaffold erection, confined spaces, fire extinguisher and first-aid at the emergency level ♦ Certificate, diploma, or degree in Occupational Health & Safety from a recognized post secondary institution may be required

Classification: General Labourer	
A general labourer's include construction work, scaffolding, demolition, heavy labour, shovelling, chipping, and assisting trade workers in the performance of daily duties.	
Junior	<p>Duties include the performance of routine, repetitive tasks of low complexity involving a limited number of clearly defined procedures and instructions. Limited knowledge or experience relating to the work to be performed is required as the work will be closely supervised and directed. Tools are provided to the THS Resource.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing basic demolition, site clean-up and other basic construction work ♦ Handling material ♦ Snow removal, landscaping, grounds keeping ♦ Assisting trade workers <p>The THS Resource will not be:</p> <ul style="list-style-type: none"> ♦ Required to work at heights above 4 feet ♦ Required to use electrical or motorized equipment <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers and first-aid at the emergency level
Intermediate	<p>Duties include the performance of routine, repetitive tasks of higher complexity involving a limited number of clearly defined procedures and instructions. Decent knowledge and experience relating to the work to be performed is required, as the work will be performed with minimal supervision. The THS Resource is required to supply their own basic tools such as a hammer, pouch, measuring tape, cutting tools, etc.</p> <p>Typical Duties may include:</p> <ul style="list-style-type: none"> ♦ Performing construction work involving scaffolding, demolition, heavy labor, shoveling, chipping etc. ♦ Working at heights above 10 feet ♦ Using basic electrical tools ♦ Using basic motorized equipment (if certified in the use of the equipment in question) <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required: WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers, traffic control for road and pedestrians, powered elevated work platforms, scaffold erection, confined spaces, first-aid (emergency level) ♦ Current forklift certification level I or II may be required

Classification: General Labourer

A general labourer's include construction work, scaffolding, demolition, heavy labour, shovelling, chipping, and assisting trade workers in the performance of daily duties.

Senior

Duties include the performance of routine, repetitive tasks of higher complexity involving a limited number of clearly defined procedures and instructions. Significant knowledge and experience relating to the work to be performed is required, as the work will be performed with minimal or no supervision. The THS Resource is required to supply their own basic tools such as a hammer, pouch, measuring tape, cutting tools, etc.

Typical Duties may include:

- ♦ Performing construction work involving scaffolding, taping, using cutting tools (including torches), etc.
- ♦ Working at heights above 10 feet, rooftops, etc.
- ♦ Using basic electrical tools
- ♦ Using basic motorized equipment (if certified in the use of the equipment in question)
- ♦ Performing material handing tasks

Minimum Mandatory Qualifications:

Education:

- ♦ Secondary school diploma or an acceptable combination of education, training and experience is required

Experience:

- ♦ Minimum of three (3) years of relevant experience is required

Asset Qualifications:

- ♦ Safety training or current certification in any or all of the following may be required: WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers, traffic control for road and pedestrians, powered elevated work platforms, scaffold erection confined spaces training, and first-aid (standard level)

Classification: Trade Helper	
A trade helper's main duties involve assisting certified trades people in the performance of their duties.	
Intermediate	<p>Duties include the performance of routine, repetitive tasks of higher complexity involving a limited number of clearly defined procedures and instructions. Work will be performed with less direction but with some supervision. The THS Resource is required to supply their own basic tools such as a hammer, measuring tape, and cutting tools.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting journeyman or master trades in the performance of their duties ♦ Working at heights above 10 feet ♦ Using basic electrical or motorized equipment <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Successful completion of two years of secondary school, or; an acceptable combination of education, training and experience is required ♦ Registration as an apprentice, in a recognized program, is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - for WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers, powered elevated work platforms, scaffold erection, confined spaces and first-aid at the emergency level ♦ Current forklift certification level I or II may be required
Senior	<p>Duties include the performance of routine, repetitive tasks of higher complexity involving a limited number of clearly defined procedures and instructions. Work will be performed with minimal supervision. The THS Resource is required to supply their own basic tools such as a hammer, pouch, measuring tape, and cutting tools.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting journeyman or master trades in the performance of their duties ♦ Working at heights above 10 feet ♦ Using basic electrical or motorized equipment <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and experience is required ♦ Successful completion of the first three (3) years of a four (4) year apprenticeship, in a recognized program, is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - for WHMIS, fall protection, manual material handling, personal protective equipment, rights of the workers, traffic control for road and pedestrians, powered elevated work platforms, scaffold erection, confined spaces and first-aid at the emergency level ♦ Current forklift certification level I or II may be required

Classification: Stores Services Personnel	
A stores services person's main duties may involve commercial moving, packaging, shipping and receiving, inventory and order control, material handling, printing, mailroom, forklift operations, office installation, quality control, and other industrial duties.	
Junior	<p>Duties include the performance of routine, repetitive tasks of low complexity involving a limited number of clearly defined procedures and instructions. Limited knowledge or experience relating to the work to be performed will be required. Work will be closely supervised and directed.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Moving commercial or government materials ♦ Packaging, shipping and receiving, inventory and order picking ♦ Performing warehouse duties <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHMIS, manual material handling, counter balance equipment personal protective equipment, rights of workers, laceration protection, housekeeping and first-aid at the emergency level
Intermediate	<p>Duties include the performance of routine, repetitive tasks of higher complexity involving a limited number of clearly defined procedures and instructions.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing material handling, printing, mailroom, forklift, office installation, office clerk and other industrial duties ♦ Performing warehouse duties <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHMIS, manual material handling, counter balance equipment, personal protective equipment, rights of workers, laceration protection, housekeeping, fall protection and first-aid at the emergency level ♦ Current forklift certification level I or II may be required

Classification: Stores Services Personnel	
A stores services person's main duties may involve commercial moving, packaging, shipping and receiving, inventory and order control, material handling, printing, mailroom, forklift operations, office installation, quality control, and other industrial duties.	
Senior	<p>Duties include the performance of routine, repetitive tasks of higher complexity involving a limited number of clearly defined procedures and instructions. Work will require minimal or no supervision.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing warehouse work involving shipping and receiving, order picking, wrapping, mailroom, moving material, restacking ♦ Operating computers ♦ Operating basic tools, hand tools, wrapping equipment, electric pallet lifts, manual pallet lifts, cherry pickers, forklifts <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and/or experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHMIS, manual material handling, counter balance equipment (forklift and pallet truck), personal protective equipment, rights of workers, laceration protection, housekeeping, fall protection, propane handling and first-aid at the emergency level ♦ Current forklift certification level I or II may be required
Advanced	<p>Duties include the performance of routine, repetitive tasks of higher complexity involving a limited number of clearly defined procedures and instructions and the providing of direction or guidance when necessary. Familiarity with the <i>Occupational Health and Safety Act</i> and the regulations for industrial establishments will be required.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing of warehouse work including shipping and receiving, order picking, wrapping, mailroom, moving material, restacking, quality control, administration, and inventory control ♦ Operating computers, basic tools, hand tools, wrapping equipment, electric pallet lifts, manual pallet lifts, cherry pickers and forklifts ♦ Providing guidance or overseeing other workers <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and/or experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Safety training or current certification in any or all of the following may be required - WHMIS, manual material handling, counter balance equipment (forklift and pallet truck), personal protective equipment, rights of workers, laceration protection, housekeeping, fall protection and propane handling and first-aid at the emergency level ♦ Certificate, diploma, or degree in Occupational Health & Safety from a recognized post secondary institution may be required ♦ Current forklift certification level I or II may be required

Stream 4 ~Technical Services

Classification: Assembler and Fabricator, Electronics	
Electronics assemblers and fabricators assemble and fabricate electronic equipment, parts, and components.	
Junior	<p>Duties include the performance of routine, repetitive assembly or fabrication tasks of low complexity involving a limited number of clearly defined procedures and instructions. Work is generally reviewed while in progress.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assembling, manually, various electronic components ♦ Installing, mounting, fastening, aligning and adjusting parts, components, wiring and harnesses to subassemblies and assemblies using hand and small power tools ♦ Operating automatic and semi-automatic machines to position, solder and clean prescribed components on printed circuit boards ♦ Setting up, operating and monitoring process equipment including automatic and semi-automatic machines to fabricate electronic components, solder, clean, seal and stamp components and perform other process operations as specified ♦ Replacing defective components ♦ Repairing and overhauling older devices ♦ Using microscopes ♦ Adhering to clean room procedures <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required
Intermediate	<p>Duties include the performance of more complex assembly and fabrication tasks.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assembling, manually, various electronic components ♦ Assembling microcircuits requiring fine hand assembly ♦ Installing, mounting, fastening, aligning and adjusting parts, components, wiring and harnesses to subassemblies and assemblies using hand and small power tools ♦ Operating automatic and semi-automatic machines to position, solder and clean prescribed components on printed circuit boards ♦ Setting up, operating and monitoring process equipment including automatic and semi-automatic machines to fabricate electronic components, solder, clean, seal and stamp components and perform other process operations as specified ♦ Replacing defective components ♦ Repairing and overhauling older devices ♦ Using microscopes ♦ Adhering to clean room procedures <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of experience as an electronics assembler or fabricator is required

Classification: Assembler, Mechanical	
Assemblers assemble a wide variety of mechanical products such as trucks, buses, snowmobiles, garden tractors, automotive engines, transmissions, outboard motors, gearboxes, hydraulic pumps and sewing machines.	
Junior	<p>Duties include the performance of routine, repetitive assembly tasks of low complexity involving a limited number of clearly defined procedures and instructions. Work will be reviewed while in progress.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assembling, fitting and installing prefabricated parts to form subassemblies or finishing products using hand or power tools ♦ Positioning, aligning and adjusting parts for proper fit and assembly and connecting cables, tubes and wires ♦ Fastening parts together using bolting and riveting equipment or other fastening and joining techniques or equipment <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required
Intermediate	<p>Duties include the performance of more complex assembly.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assembling, fitting and installing prefabricated parts to form subassemblies or finishing products using hand or power tools ♦ Positioning, aligning and adjusting parts for proper fit and assembly and connect cables, tubes and wires ♦ Fastening parts together using bolting and riveting equipment or other fastening and joining techniques ♦ Operating or tending automated assembling equipment such as robotics and fixed automation equipment ♦ Operating small cranes to transport or position larger parts ♦ Reading assembly, schematic or scale (e.g., blueprints) drawings <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of one (1) year of relevant experience is required

Classification: Computer, Application Support	
The Computer Application Support Specialist provides basic technical or web-related support to users. The main tasks are responding to calls and providing accurate responses and installing, maintaining and troubleshooting hardware, software or peripherals at the desktop, network or server level.	
Junior	<p>The Computer Application Support Specialist duties include providing new staff with system orientation as well as contributing to processing and procedural documentation, developing Frequently Asked Questions (FAQ's) to assist users, the installation of applications on new desktops and following asset management practices to track inventory of hardware and software.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Adding new functionality, documenting functionality and changes ♦ Responding to 1st level support calls and providing accurate responses ♦ Opening and closing of trouble tickets ♦ Participating in the maintenance of a knowledge base of problems and solutions ♦ Interfacing with end users on support issues in a professional manner and respond to user demands in a specified time period <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Successful completion of additional courses in computer science or related field, or an acceptable combination of education, training and experience is required
Intermediate	<p>Duties include the installation, maintenance and troubleshooting of desktop computers, laptops and printer hardware and associated software as well as providing remote support for external desktop computer and laptop connections, wireless, and broadband.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Providing problem recognition, isolation, research, resolution and follow-up ♦ Providing 2nd level technical support ♦ Providing systems administration duties such as creating and maintaining network accounts, performing basic security back-ups. ♦ Escalating more complex problems to senior support personnel to expedite resolution ♦ Assisting with the automation of desktop computer build processes and packaging applications ♦ Troubleshooting and resolving network problems ♦ Creating problem and resolution logs for help desk activities ♦ Ensuring technical support issues are resolved in a prompt and efficient manner <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in computer science or other relevant field from a recognized post secondary institution is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year experience providing desktop computer support services specifically for PC or Macintosh computers is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Current and valid certification in A+, MCP, or MCSE may be required

Classification: Computer, Application Support	
The Computer Application Support Specialist provides basic technical or web-related support to users. The main tasks are responding to calls and providing accurate responses and installing, maintaining and troubleshooting hardware, software or peripherals at the desktop, network or server level.	
Senior	<p>Duties include the planning or participating in the implementation of a department wide system upgrades, occasional project work, asset management, technical documentation and making recommendations on technology. Extensive experience with analysis phase of the SDLC (System Development Life Cycle), as well as a balanced mix of business and technical knowledge, interviewing and analytical skills is required.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ◆ Resolving advanced application support issues ◆ Coordinating emerging technology application specifications ◆ Solving complex end-user technical problems that more junior levels cannot resolve ◆ Serving as a user support liaison between vendors, information systems technicians, and end-user departments ◆ Providing training expertise and direction in the area of emerging technology and special application support ◆ Emulating or reproducing technical problems encountered by users ◆ Providing advice and training to users in response to identified difficulties ◆ Recommending and implementing complex security requirements ◆ Providing business systems, network and Internet support to users in response to identified difficulties ◆ Collecting, organizing and maintaining a problems and solutions log for use by others <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ◆ Secondary school diploma is required ◆ Certificate, diploma, or degree in computer science or other relevant field from a recognized post secondary institution is required <p>Experience:</p> <ul style="list-style-type: none"> ◆ Minimum of three (3) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ◆ Current and valid certification in A+, MCP, or MCSE may be required

Classification: Computer, Application Support	
The Computer Application Support Specialist provides basic technical or web-related support to users. The main tasks are responding to calls and providing accurate responses and installing, maintaining and troubleshooting hardware, software or peripherals at the desktop, network or server level.	
Advanced	<p>Broad technical experience, the ability to handle multiple tasks in a fast-paced environment and proven success working with a great deal of autonomy and providing leadership to the other team members is required. The THS Resource must be able to adjust priorities as needed and work in an "interrupt-driven" work environment and have a natural talent for analyzing problems, developing and simplifying procedures, explaining complex tasks and ideas in an easy to understand manner, and finding innovative, cost-effective solutions.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Verifying accuracy and completeness of work performed ♦ Designing, configuring and deploying server-based file systems and applications ♦ Identifying subtle or overlooked problems and implementing solutions ♦ Diagnosing root cause of software or hardware problems ♦ Identifying, researching, and resolving complex technical problems ♦ Documenting technical changes, upgrades, etc. ♦ Recommending new products or processes which support and enhance the user groups business activities ♦ Responding to client inquiries concerning systems operations and diagnosing system hardware and software issues ♦ Training and mentoring more junior Computer Application Support personnel <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in computer science or other relevant field from a recognized post secondary institution is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Current and valid certification in A+, MCP, or MCSE may be required

Classification: Computer, Website Support	
Computer Website Support includes web maintenance, changing and enhancing websites or providing services such as the development of interfaces to connect web pages to departmental databases.	
Junior	<p>Duties may include the responsibility for Web content conversions; converting complex tables, spreadsheets, charts and images to HTML; following Common Look and Feel and Accessibility standards adhered to in the federal government's day-to-day works.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing HTML, DHTML, XML conversions ♦ Performing basic web design ♦ Preparing Word, WordPerfect, PDF, Excel or Quattro Pro Spreadsheets, tables, charts and other documents required for web publishing using applications such as Homesite, Dreamweaver, Adobe Acrobat, Snag it, etc. ♦ Performing changes updates and uploads and maintenance of the departmental web sites <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education;</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Successful completion of additional courses in computer science, web design, or other relevant field, or an acceptable combination of education, training and experience is required
Intermediate	<p>Duties require a strong knowledge of Treasury Board Common Look and Feel guidelines and W3 standards.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing HTML, DHTML, XML conversions ♦ Performing more complex web design ♦ Preparing Word, WordPerfect, PDF, Excel or Quattro Pro Spreadsheets, tables, charts and other documents required for web publishing using applications such as Homesite, Dreamweaver, Adobe Acrobat, Snag it, etc. ♦ Performing changes updates and uploads and maintenance of the departmental web sites <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in computer science, web design or other relevant field from a recognized post secondary institution is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of relevant experience is required

Classification: Computer, Website Support	
Computer Website Support includes web maintenance, changing and enhancing websites or providing services such as the development of interfaces to connect web pages to departmental databases.	
Senior	<p>Proficiency in HTML as well as one or more scripting and interface languages such as JavaScript and Perl (Cold Fusion) is required.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Gathering user requirements ♦ Creating functional specifications ♦ Developing new websites ♦ Conducting research on websites for information on best practices <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in computer science, web design or other relevant field from a recognized post secondary institution is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Advanced	<p>The ability to handle multiple tasks in a fast-paced environment and proven success working with a great deal of autonomy and providing leadership to the other team members is required. The THS Resource must be able to adjust priorities as needed and be able to analyze problems, explaining complex tasks and ideas in an easy to understand manner, and finding innovative, cost-effective solutions.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Verifying accuracy and completeness of work performed ♦ Providing technical advices to clients regarding web site needs ♦ Coordinating web site development in specialized fields (communication, scientific, etc.) <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in computer science, web design or other relevant field from a recognized post secondary institution is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years of relevant experience is required

Classification: Electrician	
<p>Electricians work in commercial, industrial and residential settings, installing, testing and maintaining the electrical wiring infrastructures that supply light, power, air-conditioning and refrigeration. The main tasks are to install wiring systems into new buildings including homes, businesses and factories, and to rewire or upgrade existing electrical systems so that they conform to building codes and other regulations. The electrician must be able to work with wiring schematics and blueprints (which indicate the locations of circuits, outlets, load centers, panel boards, and other equipment) when installing electrical systems. Finally, the electrician will use test equipment to verify proper installation and operation and to confirm that new or repaired installations meet fire and safety code standards.</p>	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the installation, repair and maintenance of electrical systems ♦ Assisting in the testing and troubleshooting of circuits to ensure that systems operate safely <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Registration as an electrical apprentice is required ♦ Entry into a recognized apprenticeship program is required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Installing, repairing and maintaining electrical systems ♦ Reading and interpreting blueprints, schematics and drawings ♦ Interpreting electrical code specifications ♦ Testing and troubleshooting circuits to ensure that systems operate safely <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate of Qualification as a journeyperson electrician is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year experience as a journeyperson electrician is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Installing, repairing and maintaining electrical systems ♦ Reading and interpreting blueprints, schematics and drawings ♦ Interpreting electrical code specifications ♦ Testing and troubleshooting circuits to ensure that systems operate safely ♦ Preparing cost estimates and documentation for clients <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate of Qualification as a journeyperson electrician is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years experience as a master electrician is required

Classification: Engineer

Engineers apply established principles drawn from mathematics and science in order to develop economical solutions to technical problems. The work of engineers is the link between perceived social needs and commercial applications. Engineers consider many factors when developing a new product. For example, in developing an industrial robot, engineers precisely specify the functional requirements; design and test the robot's components; integrate the components to produce the final design; and evaluate the design's overall effectiveness, cost, reliability, and safety. This process applies to the development of many different products, such as chemicals, computers, engines, aircraft, and toys.

In addition to design and development, many engineers work in testing, production, or maintenance. These engineers supervise production in factories, determine the causes of component failure, and test manufactured products to maintain quality. They also estimate the time and cost to complete projects.

Engineers use computers extensively to produce and analyze designs; to simulate and test how a machine, structure, or system operates; and to generate specifications for parts. Many engineers also use computers to monitor product quality and control process efficiency.

Classification: Engineer, Sub-Classification - Aerospace	
Aerospace engineers design, develop, test, and supervise production of aircraft, spacecraft, and missiles. Engineers in this classification may also develop new technologies for use in aviation, defence systems, and space exploration, often specializing in areas such as structural design, guidance, navigation and control, instrumentation and communication, or production methods. This type of engineer may also specialize in a particular type of aerospace product, such as commercial aircraft, military fighter jets, helicopters, spacecraft, missiles or rockets. They also may become experts in aerodynamics, thermodynamics, celestial mechanics, propulsion, acoustics, or guidance and control systems.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the design and development of components used in aerospace vehicles (such as aircraft, spacecraft, missiles and satellites) or systems (such as space-based communication systems) ♦ Assisting in the development of computer simulations of aerospace vehicles, systems and components using advanced mathematical modeling ♦ Assisting in the preparation of specifications for materials and processes to be used in aerospace manufacturing, maintenance, repair or modification ♦ Assisting in the development of operational specifications, maintenance schedules and manuals for operators ♦ Assisting in the development of the technical phases of logistical and operational support for aerospace vehicles and systems ♦ Assisting in the investigation of structural, component or system failures <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent {as determined by one of the agencies referred by the Canadian Information Centre for International Credentials (CICIC)} from a foreign institution, is required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Designing and developing components used in aerospace vehicles (such as aircraft, spacecraft, missiles and satellites) or systems (such as space-based communication systems) ♦ Developing and conducting computer simulations on components used in aerospace vehicles and systems using advanced mathematical modeling ♦ Preparing specifications for materials and processes to be used in aerospace manufacturing, maintenance, repair or modification ♦ Developing operational specifications, maintenance schedules and manuals for operators ♦ Investigating structural or other component or system failures <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC) is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required

Classification: Engineer, Sub-Classification - Aerospace

Aerospace engineers design, develop, test, and supervise production of aircraft, spacecraft, and missiles. Engineers in this classification may also develop new technologies for use in aviation, defence systems, and space exploration, often specializing in areas such as structural design, guidance, navigation and control, instrumentation and communication, or production methods. This type of engineer may also specialize in a particular type of aerospace product, such as commercial aircraft, military fighter jets, helicopters, spacecraft, missiles or rockets. They also may become experts in aerodynamics, thermodynamics, celestial mechanics, propulsion, acoustics, or guidance and control systems.

Senior

Typical duties may include:

- ♦ Designing and developing aerospace vehicles (such as aircraft, spacecraft, missiles and satellites) or systems (such as space-based communication systems)
- ♦ Developing and conducting computer simulations of complete aerospace vehicles and systems using advanced mathematical modeling
- ♦ Preparing specifications for materials and processes to be used in aerospace manufacturing, maintenance, repair or modification
- ♦ Co-ordinating the manufacturing, assembly modification, repair and overhaul of aerospace vehicles or systems
- ♦ Co-ordinating the ground and flight tests of aerospace vehicles
- ♦ Developing the technical phases of logistical and operational support for aerospace vehicles and systems
- ♦ Investigating and reporting on structural or other component or system failures
- ♦ Providing input into the preparation of tender documents, evaluation of tenders and preparation of contractual documents
- ♦ Coordinating and administering a wide range of technical endeavors including the planning and scheduling of work

Minimum Mandatory Qualifications:

Education:

- ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC)

Experience:

- ♦ Minimum of ten (10) years of relevant experience is required

Asset Qualifications:

- ♦ Licensing as a Professional Engineer from a Provincial or territorial association of professional engineers may be considered desirable

Classification: Engineer, Sub-Classification - Architectural	
An Architectural Engineer applies scientific and engineering principles to the design and construction of buildings and building systems. This type of engineer has an interdisciplinary background, encompassing the areas of structural, building mechanical, electrical, lighting, fire protection and construction.	
Junior	<p>Typical duties include:</p> <ul style="list-style-type: none"> ♦ Assisting in the design of buildings or building sections, preparation of specifications ♦ Assisting in the development of models of buildings and building systems ♦ Assisting in the resolution of problems ♦ Assisting in the execution of studies ♦ Writing reports ♦ Performing design drafting <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent {as determined by one of the agencies referred by the Canadian Information Centre for International Credentials (CICIC)} from a foreign institution, is required
Intermediate	<p>Typical duties include:</p> <ul style="list-style-type: none"> ♦ Designing of buildings or building sections, preparation of specifications ♦ Developing of models of buildings and building systems ♦ Performing studies ♦ Performing design drafting ♦ Preparing specifications ♦ Assisting in the operation of pilot projects ♦ Performing quality control functions ♦ Interpreting and evaluating situations and data ♦ Researching problems and developing solutions ♦ Assisting in the planning, scheduling and co-ordination of work ♦ Assisting in the preparation of detailed estimates ♦ Writing reports <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC) is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required

Classification: Engineer, Sub-Classification - Architectural	
An Architectural Engineer applies scientific and engineering principles to the design and construction of buildings and building systems. This type of engineer has an interdisciplinary background, encompassing the areas of structural, building mechanical, electrical, lighting, fire protection and construction.	
Senior	<p>Typical duties include:</p> <ul style="list-style-type: none"> ♦ Designing of buildings or building sections, preparation of specifications ♦ Developing of models of buildings and building systems ♦ Performing studies ♦ Coordinating the operation of pilot projects ♦ Coordinating quality control functions ♦ Interpreting and evaluating situations and data ♦ Resolving problems ♦ Preparing detailed estimates ♦ Providing input into the preparation of tender documents, evaluation of tenders and preparation of contractual documents ♦ Coordinating and administering a wide range of technical endeavors including the planning and scheduling of work <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC) <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of ten (10) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Licensing as a Professional Engineer from a Provincial or territorial association of professional engineers may be considered desirable

Classification: Engineer, Sub-Classification - Biological	
The Biological Engineer is concerned with the study of living organisms and is often involved in product design, mimicking biological systems in order to create new products and modifying and controlling biological systems in order to replace, augment or sustain chemical and mechanical processes.	
Junior	<p>Typical duties include:</p> <ul style="list-style-type: none"> ♦ Assisting in the design of equipment or processes, prototypes ♦ Assisting in the resolution of problems ♦ Assisting in the troubleshooting of complex equipment ♦ Assisting in the execution of studies ♦ Writing reports ♦ Performing design drafting <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent {as determined by one of the agencies referred by the Canadian Information Centre for International Credentials (CICIC)} from a foreign institution, is required

Classification: Engineer, Sub-Classification - Chemical

Chemical Engineers apply and use principles primarily with respect to the study of the design, manufacture, and operation of plant and machinery in chemical, pharmaceutical, petroleum, pulp and paper, food and other processing industries. In addition they perform duties related to chemical quality control, environmental protection and biochemical or biotechnical engineering.

Senior**Typical duties may include:**

- ♦ Conducting economic and technical feasibility studies
- ♦ Coordinating the research into the development or improvement of chemical engineering processes, reactions and materials
- ♦ Coordinating the evaluating chemical process, technology and equipment
- ♦ Coordinating the designing and testing of chemical processes, equipment and plants
- ♦ Coordinating the construction, modification, operation and maintenance of pilot plants, processing units or processing plants
- ♦ Coordinating the establishment operating procedures and quality control strategies and the operation of quality control programs, to ensure consistency and adherence to standards for raw materials, products and waste products or emissions
- ♦ Developing guidelines and specifications for the handling of dangerous chemicals, environmental protection
- ♦ Developing standards for foods, materials or consumer goods
- ♦ Providing input into the preparation of tender documents, evaluation of tenders and preparation of contractual documents
- ♦ Coordinating and administering a wide range of technical endeavors including the planning and scheduling of work

Minimum Mandatory Qualifications:**Education:**

- ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC)

Experience

- ♦ Minimum of ten (10) years of relevant experience is required

Asset Qualifications:

- ♦ Licensing as a Professional Engineer from a Provincial or territorial association of professional engineers may be considered desirable

Classification: Engineer, Sub-Classification - Electrical	
The Electrical Engineer's work is based on the behaviour and effects of electrons (as in electron tubes and transistors) and electronic devices, systems, or equipment.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the research of design, operation and performance of electrical generation and distribution networks, equipment and components; electrical machinery, components and circuits; and electronic equipment, components and circuits used in communication, instrumentation and control systems ♦ Assisting in the investigation of electrical or electronic failures <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent {as determined by one of the agencies referred by the Canadian Information Centre for International Credentials (CICIC)} from a foreign institution, is required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Carrying out research into the design, operation and performance of electrical generation and distribution equipment and components; electrical machinery, components and circuits; and electronic equipment, components and circuits used in communication, instrumentation and control systems ♦ Assisting in the research of design, operation and performance of electrical generation and distribution networks ♦ Assisting in the preparation of material cost and timing estimates, reports and design specifications for electrical and electronic systems and equipment ♦ Assist in the coordination and inspection of the installation, modification, testing and operation of electrical and electronic systems and equipment ♦ Assisting in the development of maintenance and operating standards for electrical and electronic systems and equipment ♦ Assisting in the planning, scheduling and co-ordination of work ♦ Investigating electrical or electronic failures <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred- by the CICIC) is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required

Classification: Engineer, Sub-Classification - Electrical	
The Electrical Engineer's work is based on the behaviour and effects of electrons (as in electron tubes and transistors) and electronic devices, systems, or equipment.	
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Coordinating out research into the design, operation and performance of electrical generation and distribution networks, equipment and components; electrical machinery, components and circuits; and electronic equipment, components and circuits used in communication, instrumentation and control systems ♦ Coordinating the preparation of material cost and timing estimates, reports and design specifications for electrical and electronic systems and equipment ♦ Coordinating the inspection of the installation, modification, testing and operation of electrical and electronic systems and equipment ♦ Developing maintenance and operating standards for electrical and electronic systems and equipment ♦ Coordinating the investigation into electrical or electronic failures ♦ Providing input into the preparation of tender documents, evaluation of tenders and preparation of contractual documents ♦ Coordinating and administering a wide range of technical endeavors including the planning and scheduling of work <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC) <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of ten (10) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Licensing as a Professional Engineer from a Provincial or territorial association of professional engineers may be considered desirable

Classification: Engineer, Sub-Classification - Mechanical	
Mechanical engineers research, design and develop machinery and systems for heating, ventilation, air conditioning, power generation, transportation, processing and manufacturing. They also perform duties related to the evaluation, installation, operation and maintenance of mechanical systems.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the research of design, operation and performance of power plants, systems, machines, components, and equipment ♦ Assisting in the investigation of electrical or electronic failures ♦ Assisting in the analysis of dynamics and vibrations of mechanical systems and structures ♦ Assisting in the investigation of mechanical failures or unexpected maintenance problems <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent {as determined by one of the agencies referred by the Canadian Information Centre for International Credentials (CICIC)} from a foreign institution, is required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Conducting research into the design, operation and performance of power systems, machines, components, and equipment ♦ Assisting in the research of the design, operation and performance of power plants ♦ Assisting in the planning of projects including the preparation of material, cost and timing estimates ♦ Analyzing dynamics and vibrations of mechanical systems and structures ♦ Assisting in the inspection of the installation, modification and commissioning of mechanical systems at construction sites or industrial facilities ♦ Assisting in the planning, scheduling and co-ordination of work ♦ Assisting in the development of maintenance standards, schedules and programs ♦ Investigating mechanical failures or unexpected maintenance problems <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC) is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required

Classification: Engineer, Sub-Classification - Mechanical	
Mechanical engineers research, design and develop machinery and systems for heating, ventilation, air conditioning, power generation, transportation, processing and manufacturing. They also perform duties related to the evaluation, installation, operation and maintenance of mechanical systems.	
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Coordinating the research into the design, operation and performance of power plants, systems, machines, components, and equipment ♦ Coordinating the planning of projects including the preparation of material, cost and timing estimates ♦ Analyzing dynamics and vibrations of mechanical systems and structures ♦ Coordinating the inspection of the installation, modification and commissioning of mechanical systems at construction sites or in industrial facilities ♦ Developing maintenance standards, schedules and programs ♦ Providing guidance to industrial maintenance crews ♦ Coordinating the investigation into mechanical failures or unexpected maintenance problems ♦ Providing input into the preparation of tender documents, evaluation of tenders and preparation of contractual documents for industrial construction or maintenance ♦ Providing input into the preparation of tender documents, evaluation of tenders and preparation of contractual documents ♦ Coordinating and administering a wide range of technical endeavors including the planning and scheduling of work <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Undergraduate degree in an engineering program, specializing in a specific relevant field, from a recognized Canadian University or an acceptable equivalent from a foreign institution (as determined by one of the agencies referred by the CICIC) <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of ten (10) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Licensing as a Professional Engineer from a Provincial or territorial association of professional engineers may be considered desirable

Classification: Inspector, Electronics	
Electronic inspectors scrutinize electronic and electromechanical assemblies, subassemblies, parts and components to ensure conformance to prescribed standards.	
Senior	<p>Ensure that products conform to standards and specifications.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Inspecting electronic components and assemblies to specified requirements are met while products are being assembled or fabricated ♦ Checking final assembly for finish, labelling and packaging methods ♦ Checking mechanical dimensions and performing "go-no-go" electrical tests ♦ Identifying and marking assemblies as being either acceptable or defective ♦ Returning faulty assemblies to production for repair ♦ Collecting, recording and summarizing inspection results ♦ Investigating equipment malfunction and instructing proper operation <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Successful completion of relevant courses (e.g. basic electronic theory, testing techniques and testing equipment) from a recognized post secondary institution may be required ♦ Experience as an electronics assembler or fabricator may be required

Classification: Inspector, Mechanical	
Inspectors check and inspect subassemblies and finished products to ensure proper quality and product specifications.	
Senior	<p>Ensure that products conform to standards or specifications.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Inspecting mechanical subassemblies, assemblies and finished products to specified requirements are met while products are being assembled or fabricated ♦ Checking final assembly for finish, labelling and packaging methods ♦ Checking mechanical dimensions ♦ Identifying and marking subassemblies, assemblies or finished products as being either acceptable or defective ♦ Returning faulty assemblies to production for repair ♦ Collecting, recording and summarizing inspection results ♦ Investigating equipment malfunction and instructing proper operation <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma or an acceptable combination of education, training and experience is required <p><u>Experience:</u></p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Experience as a mechanical assembler may be required

Classification: Interior Designer	
Interior Designers design the interior space of buildings and are trained to identify, research and creatively solve problems relating to the function and aesthetic quality of interior space. They are concerned with building systems and structure, furnishings, three-dimensional space planning, colour ,materials and all aspects of environmental design.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the planning two-dimensional space ♦ Assisting in the development of three-dimensional designs ♦ Assisting in the recording of movements (churn) within the space ♦ Assisting senior interior design or architecture staff <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in Interior Design from a Association of Registered Interior Designers of Ontario (ARIDO) or National Council for Interior Design Qualification (NCIDQ) recognized program is required ♦ Current intern membership or registration in the ARIDO <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of 6 months up to one (1) year of relevant experience is required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Planning two-dimensional space ♦ Developing three-dimensional designs ♦ Assisting in the selection and application of colour, light, materials, and electrical and mechanical elements ♦ Recording movements (churn) within the space ♦ Designing space and layout in a building and performing the necessary calculations <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in Interior Design from an ARIDO or NCIDQ recognized programs required or an acceptable combination of education ,training and experience is required ♦ Current and valid registration or membership as a Professional Interior Designer with ARIDO is required for Ontario Interior Designers <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Reviewing data ref movements (churn) within the space ♦ Selecting and applying colour, light, materials, and electrical and mechanical elements ♦ Coordinating the design and layouts of buildings ♦ Coordinating work performed by various trades ♦ Applying relevant laws, codes, standards and regulations ♦ Client Engagement ♦ Dealing directly with client requirements <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in Interior Design from an ARIDO or NCIDQ recognized program is required or an acceptable combination of education, training and experience is required ♦ Current and valid registration or membership as a Professional Interior Designer with ARIDO for Ontario Interior Designers <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required

Classification: Designing Services	
Designing Services include the planning and execution of the layout, decoration, and furnishing of an architectural interior.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in planning dimensional space designs - Assisting in developing and presenting design recommendations - Assisting in the construction of two and three dimensional design models using CAD (computer-assisted design) - Assisting in analyzing usage and function of the space <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required or an acceptable combination of education, training and experience in a relative field is required <p>Experience</p> <ul style="list-style-type: none"> - Minimum of 6 months up to one (1) year of relevant experience is required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Planning and developing dimensional space designs - Assisting in the preparation and designs of CAD (computer -assisted design) drawings and specifications - Assisting in the selection and application of colour, light, materials, and electrical and mechanical elements - Recording movements (churn) within the space - Designing space and layout in a building and performing the necessary calculations <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma or degree in a relevant discipline from a recognized institution or a combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of one (1) year of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Reviewing data ref movements (churn) within the space - Selecting and applying colour, light, materials, and electrical and mechanical elements - Coordinating the design and layouts of buildings - Coordinating work performed by various trades - Preparing cost estimates from drawings and specifications - Applying relevant laws, codes, standards and regulations <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a relevant discipline from a recognized institution or a combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required

Classification: Machinist	
Machinists set up and operate equipment such as lathes, milling machines, saws, grinding machines, drilling and boring machines, shapers, planers, precision measuring tools, hand and power tools, and related attachments and accessories. These cutting tools are used to manufacture and repair parts and products made from metals, plastics, rubber textiles, fiberglass and space age alloys.	
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Studying specifications, drawings or sample parts to determine the machining operation needed ♦ Calculating dimensions and tolerances and preparing working sketches if necessary ♦ Setting up and operating tools, including lathes, drills and milling machines - both manual and computer numerical control (CNC), to perform precision machining operations ♦ Performing precision machining operations such as sawing, turning, milling, boring, etc. ♦ Fitting and assembling machined metal parts and subassemblies ♦ Verifying dimensions of products for accuracy and conformance to specifications using precision measuring instruments <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Current and valid trade certification is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of experience as a certified machinist is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Studying specifications, drawings or sample parts to determine the machining operation needed ♦ Calculating dimensions and tolerances and preparing working sketches if necessary ♦ Setting up and operating tools, including lathes, drills and milling machines - both manual and computer numerical control (CNC), to perform precision machining operations ♦ Performing precision machining operations such as sawing, turning, milling, boring, etc. ♦ Fitting and assembling machined metal parts and subassemblies ♦ Verifying dimensions of products for accuracy and conformance to specifications using precision measuring instruments ♦ Coordinating activities of other machinists <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Current and valid trade certification is required <p>Experience;</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years as a certified machinist is required

Classification: Millwright	
Millwrights install stationary industrial machinery and mechanical equipment.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the installation, alignment and moving stationary industrial machinery and mechanical equipment ♦ Assisting in the inspection and examination machinery and equipment to detect and investigate irregularities and malfunctions ♦ Assisting in the assembling of machinery and equipment prior to installation ♦ Operating machine tools required during set up of machinery <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Current and valid apprenticeship as a millwright is required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Reading diagrams and schematic drawings to determine work procedures ♦ Installing, aligning and moving stationary industrial machinery and mechanical equipment according to layout plans ♦ Operating hoisting and lifting devices as necessary to position machinery and parts during installation ♦ Inspecting and examining machinery and equipment to detect and investigate irregularities and malfunctions ♦ Assembling machinery and equipment prior to installation ♦ Operating machine tools required during set up of machinery ♦ Constructing foundations for machinery <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Current and valid trade certification is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of one (1) year of as a certified millwright is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Reading diagrams and schematic drawings to determine work procedures ♦ Installing, aligning and moving stationary industrial machinery and mechanical equipment according to layout plans ♦ Operating hoisting and lifting devices as necessary to position machinery and parts during installation ♦ Inspecting and examining machinery and equipment to detect and investigate irregularities and malfunctions ♦ Assembling machinery and equipment prior to installation ♦ Operating machine tools required during set up of machinery ♦ Constructing foundations for machinery ♦ Coordinating the work of junior and intermediate millwrights <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Successful completion of two years of secondary school or an acceptable combination of education, training and experience is required ♦ Current and valid Millwright Journeyman Certificate is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years relevant experience is required

Classification: Stationary Engineer and Auxiliary Equipment Operator

A Stationary Engineer and Auxiliary Equipment Operator's main duties involve operating automated or computerized control systems, stationary engines and auxiliary equipment for buildings, industrial plants and other work sites.

The main duties may include:

- ♦ Operating automated or computerized control systems, stationary engines and auxiliary equipment such as boilers, turbines, generators, pumps, compressors, pollution control devices and other equipment to provide heat, ventilation, refrigeration, light and power
- ♦ Monitoring and inspecting plant equipment, computer terminals, switches, valves, gauges, alarms, meters and other instruments to measure temperature, pressure and fuel flow, to detect leaks or other equipment malfunctions and to ensure plant equipment is operating at maximum efficiency
- ♦ Analyzing and recording instrument readings and equipment malfunctions
- ♦ Troubleshooting and performing corrective action and minor repairs to prevent equipment or system failure
- ♦ Cleaning and lubricating generators, turbines, pumps and compressors and performing other routine equipment maintenance duties using appropriate lubricants and hand, power and precision tools
- ♦ Maintaining a daily log of operation, maintenance and safety activities
- ♦ Assisting in the development of operation, maintenance and safety procedures

Junior	<u>Minimum Mandatory Qualifications:</u> <u>Education:</u> <ul style="list-style-type: none">♦ Current and valid provincial or territorial certification or licensing as a 4th Class Stationary (Operating) Engineer is required <u>Asset Qualifications:</u> <ul style="list-style-type: none">♦ Current and valid provincial or territorial certification or licensing as a Class B Refrigeration Operator may be required♦ Successful completion of a Technical Standards & Safety Authority (TSSA) approved training program may be required
Intermediate	<u>Minimum Mandatory Qualifications:</u> <u>Education:</u> <ul style="list-style-type: none">- Current and valid provincial or territorial certification or licensing as a 3rd Class Stationary (Operating) Engineer is required <u>Experience:</u> <ul style="list-style-type: none">- Minimum of one (1) year of relevant experience is required <u>Asset Qualifications:</u> <ul style="list-style-type: none">- Current and valid provincial or territorial certification or licensing as a Class A or B Refrigeration Operator may be required- Successful completion of a Technical Standards & Safety Authority (TSSA) approved training program may be required
Senior	<u>Minimum Mandatory Qualifications:</u> <u>Education:</u> <ul style="list-style-type: none">♦ Current and valid provincial or territorial certification or licensing as a 2nd Class Stationary (Operating) Engineer is required <u>Experience:</u> <ul style="list-style-type: none">♦ Minimum of three (3) years of relevant experience is required <u>Asset Qualifications:</u> <ul style="list-style-type: none">♦ Current and valid provincial or territorial certification or licensing as a Class A or B Refrigeration Operator may be required♦ Successful completion of a Technical Standards & Safety Authority (TSSA) approved training program may be required

Advanced	<p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Current and valid provincial or territorial certification or licensing as a 1st Class Stationary (Operating) Engineer is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Current and valid provincial or territorial certification or licensing as a Class A or B Refrigeration Operator may be required ♦ Successful completion of a Technical Standards & Safety Authority (TSSA) approved training program may be required
----------	---

Classification: Technician
Technicians are individuals who, through academic training and experience in the application of mathematics and engineering or scientific principles, are capable of assuming responsibility and exercising independent judgement in the specialized portion of the field of field of engineering or applied science technology in which training has been received.

Classification: Technician, Sub-Classification - Architectural	
The Architectural Technologist supports the efforts of professional architects and civil design engineers by conducting research, preparing drawings, architectural models, and specifications.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Preparing basic manual and CAD (computer-assisted design) drawings and specifications ♦ Assisting in the construction of architectural and display models, and three dimensional virtual models of architectural designs <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Preparing more complex manual and CAD (computer-assisted design) drawings and specifications ♦ Constructing basic architectural and display models, and three dimensional virtual models of architectural designs ♦ Assisting in the development of architectural designs <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the development of architectural designs ♦ Preparing of manual and CAD (computer-assisted design) drawings and specifications ♦ Constructing architectural and display models, and three dimensional virtual models of architectural designs ♦ Coordinating and inspecting the activities of drafters and more junior technicians <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years relevant experience is required

Classification: Technician, Sub-Classification - Biological	
The Biological Technologist supports the efforts of scientists, engineers and other professionals by conducting biological, microbiological and biochemical tests and laboratory analyses, performing field research, conducting experimental procedures and preparing reports to detail findings.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing basic biological, microbiological and biochemical tests ♦ Collecting data and samples of water, soil, plant and animal populations <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing more complex biological, microbiological and biochemical tests ♦ Collecting data and samples of water, soil, plant and animal populations ♦ Assisting in the operation of programs (e.g. fish hatchery, greenhouse and livestock production programs) <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing complex biological, microbiological and biochemical tests ♦ Collecting data and samples of water, soil, plant and animal populations ♦ Conducting environmental monitoring and compliance activities for the protection of natural resources ♦ Conducting operational programs (e.g. fish hatchery, greenhouse and livestock production programs) ♦ Coordinating the activities of more junior technicians <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Chemical	
The Chemical Technologist supports the efforts of scientists, engineers and other professionals by conducting chemical testing, conducting experiments, assisting in studies, etc.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Conducting simple chemical tests ♦ Operating laboratory equipment and apparatus ♦ Preparing solutions of gas, liquid, or reagents ♦ Compiling records of test results <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Setting up and conducting more complex chemical tests ♦ Operating laboratory equipment and apparatus ♦ Preparing solutions of gas, liquid, or reagents ♦ Conducting sampling and testing of raw materials, chemical intermediates and products ♦ Conducting air and water quality testing ♦ Compiling records of test results <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Setting up and conducting chemical experiments and tests ♦ Operating and maintaining laboratory equipment and apparatus ♦ Preparing solutions of gas, liquid, or reagents ♦ Compiling records of experimental or analytical results ♦ Coordinating programs of sampling and testing of raw materials, chemical intermediates and products ♦ Coordinating air and water quality testing, chemical tests, etc. ♦ Fabricating experimental apparatus ♦ Coordinating the work of more junior technicians <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Civil Engineering	
The Civil Engineering Technologist supports the efforts of scientists, engineers and other professionals by conducting testing, preparing drawings, conducting field surveys, inspections or technical investigations.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the performance of field surveys ♦ Assisting in the performance of inspections ♦ Conducting basic testing of construction materials ♦ Assisting in the inspection of construction materials <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Performing field surveys ♦ Performing basic inspections ♦ Conducting more complex testing of construction materials ♦ Inspecting construction materials <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Coordinating field surveys ♦ Assisting in inspections or technical investigations that provide data for engineering projects ♦ Coordinating the inspection and testing of construction materials ♦ Coordinating the work of more junior technicians <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Drafting	
Drafting technicians prepare engineering designs, drawings and related technical information, while working in multi-disciplinary engineering teams or in support of engineers, architects or industrial designers, or independently.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the development and preparation of engineering drawings, plans, diagrams or layouts ♦ Operating computer-assisted design (CAD) and drafting workstations <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Developing, preparing and editing engineering drawings, plans, diagrams or layouts from design sketches ♦ Operating computer-assisted design (CAD) and drafting workstations <p>Minimum Mandatory Qualifications:</p> <p>Education;</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Developing, preparing and editing more complex engineering drawings, plans, diagrams or layouts from design sketches ♦ Operating computer-assisted design (CAD) and drafting workstations ♦ Coordinating the work of more junior technicians <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience;</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Electrical and Electronics Engineering

The Electrical and Electronics Engineering Technologist supports the efforts of scientists, engineers and other professionals in support of the design, development, testing, production and operation of electrical and electronic equipment and systems.

Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Testing of basic equipment and systems, industrial process-control systems, micro-electronic systems, etc. ♦ Assisting in the installation and operation of electrical and electronic equipment and systems (other than aircraft electronics or instruments) ♦ Setting-up standard test equipment to diagnose, test and analyze the performance of electrical and electronic components, assemblies and systems <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> - Certificate, diploma, or degree in the related disciplines from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Testing of more complex power equipment and systems, industrial process-control systems, micro-electronic systems, etc. ♦ Assisting in the building and testing of prototypes according to general instructions and established standards ♦ Installing and operating basic electrical and electronic equipment and systems (other than aircraft electronics or instruments) ♦ Operating standard test equipment to diagnose, test and analyze the performance of electrical and electronic components, assemblies and systems <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Coordinating and conducting the testing of power equipment and systems, industrial process-control systems, micro-electronic systems, etc. ♦ Building and testing of prototypes according to general instructions and established standards ♦ Performing the installation and operation of complex electrical and electronic equipment and systems (other than aircraft electronics or instruments) ♦ Setting-up and operation of specialized test equipment to diagnose, test and analyze the performance of electrical and electronic components, assemblies and systems <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Geomatics	
Geomatics technologist gather, analyze, interpret and use geospatial information for applications in natural resources, geology, environment, and land use planning.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Compile data from aerial photographs, survey notes, records, reports and other maps ♦ Assisting in the operation of digitized stereoscopic plotting and computer graphics equipment to provide three-dimensional optical models of terrain, to trace maps, and to prepare charts and tables ♦ Monitoring recording quality ♦ Performing data entry and editing activities <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Compile data from aerial photographs, survey notes, records, reports and other maps ♦ Generating maps and related graphs and charts using digital mapping techniques, computer interactive graphics, etc. ♦ Preparing topographic maps, aerial-photograph mosaics and related charts ♦ Operating digitized stereoscopic plotting and computer graphics equipment to provide three-dimensional optical models of terrain, to trace maps, and to prepare charts and tables ♦ Adjusting monitoring recording quality ♦ Operating analog or computer-based remote sensing, interpretive equipment to prepare images, graphic and alphanumeric reports, maps and charts from airborne or satellite data ♦ Performing maintenance operations to systems following pre-determined calibration procedures <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required

Classification: Technician, Sub-Classification - Geomatics

Geomatics technologist gather, analyze, interpret and use geospatial information for applications in natural resources, geology, environment, and land use planning.

Senior**Typical duties may include:**

- ♦ Compile data from aerial photographs, survey notes, records, reports and other maps
- ♦ Coordinating the generation of maps and related graphs and charts using digital mapping techniques, computer interactive graphics, etc.
- ♦ Inspecting final compositions for accuracy and completeness
- ♦ Preparing topographic maps, aerial-photograph mosaics and related charts
- ♦ Operating digitized stereoscopic plotting and computer graphics equipment to provide three-dimensional optical models of terrain, to trace maps, and to prepare charts and tables
- ♦ Operating airborne remote sensing equipment which produce images of large areas of the earth, coastline or of the atmosphere
- ♦ Monitoring recording quality and adjusting equipment as required
- ♦ Operating analog or computer-based remote sensing, interpretive equipment to prepare images, graphic and alphanumeric reports, maps and charts from airborne or satellite data
- ♦ Operating specialized computer hardware and software and peripheral equipment to model, manage, analyze and display geospatial data
- ♦ Coordinating data entry and editing activities
- ♦ Coordinating maintenance operations to systems following pre-determined calibration procedures
- ♦ Coordinating the activities of more junior technicians

Minimum Mandatory Qualifications:**Education:**

- Secondary school diploma is required
- Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required

Experience;

- Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Industrial Instrument	
The Industrial Instrument Technologist repairs, maintains, calibrates, adjusts and installs industrial measuring and controlling instrumentation by consulting manufacturer's manuals, circuit diagrams and blueprints.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Inspecting and testing the operation of basic instruments and systems to diagnose faults ♦ Repairing and adjusting basic system components ♦ Removing and replacing defective parts ♦ Performing the calibration of basic components and instruments according to manufacturers specifications <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Inspecting and testing the operation of more complex instruments and systems to diagnose faults ♦ Repairing and adjusting more complex system components ♦ Removing and replacing defective parts ♦ Performing the calibration of more complex components and instruments according to manufacturers specifications <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Inspecting and testing the operation of complex instruments and systems to diagnose faults ♦ Repairing and adjusting complex system components ♦ Removing and replacing defective parts ♦ Performing the calibration of complex components and instruments according to manufacturers specifications ♦ Coordinating the activities of more junior technicians <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Mechanical Engineering	
The Mechanical Engineering Technologist supports the efforts of scientists, engineers and other professionals in the design, development, maintenance and testing of machines, components, tools, heating and ventilation systems, power generation and power conversion plants, manufacturing plants and equipment.	
Junior	<ul style="list-style-type: none"> ♦ Typical duties may include: ♦ Assisting in the preparation of conventional and computer-assisted design (CAD) engineering designs, drawings and specifications for machines and components, power transmission systems, process piping, heating, ventilating and air-conditioning systems ♦ Assisting in the testing of machines, components and materials to determine performance, strength, response to stress, etc. ♦ Assisting in the design of moulds, tools dies, jigs and fixtures <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Preparing conventional and computer-assisted design (CAD) engineering designs, drawings and specifications for machines and components, power transmission systems, process piping, heating, ventilating and air-conditioning systems ♦ Conducting tests of machines, components and materials to determine performance, strength, response to stress, etc. ♦ Designing basic moulds, tools dies, jigs and fixtures ♦ Preparing schedules for mechanical maintenance programs <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Preparing conventional and computer-assisted design (CAD) engineering designs, drawings and specifications for more complex machines and components, power transmission systems, process piping, heating, ventilating and air-conditioning systems ♦ Conducting more complex tests of machines, components and materials to determine performance, strength, response to stress, etc. ♦ Designing more complex moulds, tools dies, jigs and fixtures ♦ Preparing standards for mechanical maintenance programs and the operations of mechanical plants ♦ Co-ordinating schedules for mechanical maintenance programs ♦ Co-ordinating activities of more junior technicians <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required

Classification: Technician, Sub-Classification - Military Vehicle	
The Military Vehicle Technician works as a member of a team responsible for a comprehensive range of servicing, maintenance, repair and overhaul of all land vehicle and related equipment used by the Canadian Forces.	
Junior	<p>Typical duties include:</p> <ul style="list-style-type: none"> ♦ Performing routine repairs and maintenance ♦ Performing routine installation of equipment, components, etc. ♦ Conducting routine testing of basic parts or components ♦ Processing work orders <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties include:</p> <ul style="list-style-type: none"> ♦ Performing more complex repairs and maintenance ♦ Performing installation of more complex equipment, components, etc. ♦ Conducting more complex testing of basic parts or components ♦ Processing work orders <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties include:</p> <ul style="list-style-type: none"> ♦ Performing inspections of land equipment and related equipment ♦ Co-ordinating the performance of repairs and maintenance ♦ Co-ordinating the installation of equipment, components, etc. ♦ Co-ordinating the testing of parts, components, equipment or systems ♦ Preparing work orders, part request forms, etc. ♦ Preparing reports ♦ Preparing estimates of maintenance, and repair and overhaul requirements ♦ Co-ordinating activities of more junior technicians <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in the related discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of five (5) years of relevant experience is required

Classification: Technologist
Technologists are professionals who, through academic training and experience in the application of mathematics and engineering or scientific principles, are capable of assuming responsibility and exercising independent judgement in the specialized portion in the field of engineering or applied science technology in which training has been received.

Classification: Technologist, Sub-Classification - Architectural	
The Architectural Technologist supports the efforts of professional architects and civil design engineers by conducting research, preparing drawings, architectural models, and specifications.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the development of basic architectural designs ♦ Assisting in the analysis of building codes, by-laws, space requirements, site requirements and other technical documents and reports ♦ Assisting in the preparation of manual and CAD (computer-assisted design) drawings and specifications ♦ Assisting in the construction of basic architectural and display models, and three dimensional virtual models of architectural designs <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required <p>Asset Qualifications:</p> <ul style="list-style-type: none"> ♦ Certificate, diploma, or degree in the related discipline from a post secondary institution accredited by the Canadian Council of Technicians and Technologists (CCTT) or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the development of more complex architectural designs ♦ Analyzing building codes, by-laws, space requirements, site requirements and other technical documents and reports ♦ Preparing manual and CAD (computer-assisted design) drawings and specifications ♦ Assisting in the preparation of cost estimates and listings from conceptual drawings and instructions ♦ Constructing more complex architectural and display models, and three dimensional virtual models of architectural designs ♦ Overseeing specific phases of construction projects <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> ♦ Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the development of architectural designs - Reviewing the analysis of building codes, by-laws, space requirements, site requirements and other technical documents and reports - Preparing cost estimates and listings from conceptual drawings and instructions - Constructing architectural and display models, and three dimensional virtual models of architectural designs - Co-ordinating and inspecting the activities of drafters, technicians and more junior technologists - Overseeing construction projects <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required

	Experience: <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required
--	--

Classification: Technologist, Sub-Classification - Biological	
The Biological Technologist supports the efforts of scientists, engineers and other professionals by conducting biological, microbiological and biochemical tests and laboratory analyses, performing field research, conducting experimental procedures and preparing reports to detail findings.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Performing biological, microbiological and biochemical tests in support of quality control in various fields - Assisting in field research and surveys - Assisting in the conducting of operational programs (e.g. fish hatchery, greenhouse and livestock production programs) <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required ♦ Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Performing biological, microbiological and biochemical laboratory testing and analyses in support of quality control in various fields - Assisting in the performance of experimental procedures required as part of research projects in areas such as agriculture, plant breeding, animal husbandry, biology, etc. - Performing field research and surveys - Assisting in the environmental monitoring and compliance activities for the protection of natural resources - Conducting operational programs (e.g. fish hatchery, greenhouse and livestock production programs) <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Conducting more complex biological, microbiological and biochemical laboratory tests and analyses in support of quality control in various fields - Performing experimental procedures required as part of research projects in areas such as agriculture, plant breeding, animal husbandry, biology, etc. - Co-ordinating field research and surveys required to collect data and samples - Conducting environmental monitoring and compliance activities for the protection of natural resources - Co-ordinating operational programs (e.g. fish hatchery, greenhouse and livestock production programs) - Analyzing data and preparing reports - Co-ordinating the activities of technicians and more junior technologists <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p>

- Minimum of five (5) years relevant experience is required

Classification: Technologist, Sub-Classification - Chemical	
The Chemical Technologist supports the efforts of scientists, engineers and other professionals by conducting chemical testing and analysis, conducting experiments, assist in studies, perform environmental monitoring, etc.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the analysis of results from chemical tests - Compiling records of experimental or analytical results - Assisting in the conducting programs of sampling of raw materials, chemical intermediates and products - Assisting in the analysis of samplings of raw materials, chemical intermediates and products <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Performing the analysis of results from chemical experiments and tests - Interpreting compiled records of experimental or analytical results - Conducting programs of sampling of raw materials, chemical intermediates and products - Performing the analysis of samplings of raw materials, chemical intermediates and products - Assisting in the operation of experimental chemical or petrochemical pilot plants - Assisting in air and water quality assessments - Assisting in environmental monitoring and protection activities <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Performing the analysis of results from more complex chemical experiments and tests - Interpreting compiled records of experimental or analytical results - Developing and coordinating programs of sampling and analysis to maintain quality standards of raw materials, chemical intermediates and products - Assisting in the development of chemical engineering processes - Assisting in studies of chemical engineering construction, inspection, and maintenance - Operating experimental chemical or petrochemical pilot plants - Co-ordinating air and water quality testing and assessments, environmental monitoring and protection activities - Assisting in the development of standards - Assisting in the design and fabrication of experimental apparatus - Co-ordinating the activities of technicians and more junior technologists <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required

Classification: Technologist, Sub-Classification - Civil Engineering	
The Civil Engineering Technologist supports the efforts of scientists, engineers and other professionals by conducting testing, preparing drawings, conducting field surveys, inspections or technical investigations.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the development of engineering designs and drawings from preliminary concepts and sketches - Assisting in inspections that provide data for engineering projects <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Developing engineering designs and drawings from preliminary concepts and sketches - Assisting in the preparation of construction specifications, cost and material estimates, project schedules and reports - Performing inspections or technical investigations that provide data for engineering projects - Performing analysis of results from the inspection and testing of construction materials - Assisting in the monitoring and inspection of construction projects <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Developing engineering designs and drawings from preliminary concepts and sketches - Preparing construction specifications, cost and material estimates, project schedules and reports - Coordinating field surveys, inspections or technical investigations that provide data for engineering projects - Coordinating the inspection and testing of construction materials and performing the required analysis - Coordinating, monitoring and inspecting construction projects - Coordinating the activities of technicians and more junior technologists <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required

Classification: Technologist, Sub-Classification - Drafting	
Drafting technologists prepare engineering designs, drawings and related technical information, while working in multidisciplinary engineering teams or in support of engineers, architects or industrial designers, or independently.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Preparing engineering designs and drawings from data supplied by various sources - Operating computer-assisted design (CAD) and drafting workstations - Producing drawing sets <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Developing, preparing and editing engineering designs and drawings from data supplied by various sources - Operating computer-assisted design (CAD) and drafting workstations - Producing drawing sets - <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required -
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Developing, preparing and editing engineering designs and drawings from data supplied by various sources - Operating computer-assisted design (CAD) and drafting workstations - Producing design sketches, drawing sets and document packages - Verifying design drawings to ensure conformance to specifications and drawing sets - Writing technical reports - Assisting in the preparation of construction specifications, costs and material estimates - Producing 3D solid models - Coordinating the work of technicians and junior technologists <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required

Classification: Technologist, Sub-Classification - Electrical and Electronics Engineering

The Electrical and Electronics Engineering Technologist supports the efforts of scientists, engineers and other professionals in support of the design, development, testing, production and operation of electrical and electronic equipment and systems.

Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the design and development of power equipment and systems, industrial process-control systems, micro-electronic systems, etc. - Assisting in the commissioning and operation of electrical and electronic equipment and systems (other than aircraft electronics or instruments) <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the design and development of power equipment and systems, industrial process-control systems, micro-electronic systems, etc. - Assisting in the commissioning and operation of electrical and electronic equipment and systems (other than aircraft electronics or instruments) - Assisting in applied research in fields of electrical and electronic engineering and physics - Assisting in the writing of specifications, schedules and technical reports <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Coordinating the design, development and testing of power equipment and systems, industrial process-control systems, micro-electronic systems, etc. - Coordinating the building and testing of prototypes according to general instructions and established standards - Coordinating the installation, commissioning and operation of electrical and electronic equipment and systems (other than aircraft electronics or instruments) - Conducting applied research in fields of electrical and electronic engineering and physics - Coordinating the set-up and operation of specialized test equipment to diagnose, test and analyze the performance of electrical and electronic components, assemblies and systems - Writing specifications, schedules and technical reports - Coordinating the work of technicians and junior technologists <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required

Classification: Technologist, Sub-Classification - Geomatics	
Geomatics technologist gather, analyze, interpret and use geospatial information for applications in natural resources, geology, environment, and land use planning.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> ♦ Assisting in the examination and interpretation of topographic maps, aerial-photograph mosaics and related charts ♦ Assisting in the inspection of recorded images ♦ Assisting in the verification of the integrity and accuracy of data contained in remote sensing image analysis systems <p>Minimum Mandatory Qualifications:</p> <p>Education</p> <ul style="list-style-type: none"> ♦ Secondary school diploma is required ♦ Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the planning of map content, format and design - Examining and interpreting of topographic maps, aerial-photograph mosaics and related charts - Inspecting the quality of recorded images - Assisting in the development of specialized analog and computer software specific routines to customize and integrate image analysis - Assisting in the verification of the integrity and accuracy of data contained in remote sensing image analysis systems - Assisting in the development of specialized computer software routines, Internet based GIS, database, and business applications to customize geographic information <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years relevant experience is required

<p>Senior</p>	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Planning map content, format and design - Coordinating the generation of maps and related graphs and charts using digital mapping techniques, computer interactive graphics, etc - Inspecting final compositions for accuracy and completeness - Examining and interpreting topographic maps, aerial-photograph mosaics and related charts - Coordinating the inspection of the quality of recorded images - Developing specialized analog and computer software specific routines to customize and integrate image analysis - Verifying the integrity and accuracy of data contained in remote sensing image analysis systems - Developing specialized computer software routines, internet based GIS, database, and business applications to customize geographic information - Working with external organizations on data transfer and system compatibility issues - Coordinating the work of technicians and junior technologists <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required
----------------------	---

Classification: Technologist, Sub-Classification - Industrial Instrument	
The Industrial Instrument Technologist repairs, maintains, calibrates, adjusts and installs industrial measuring and controlling instrumentation by consulting manufacturer's manuals, circuit diagrams and blueprints.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the inspection and test operations of instruments and systems - Assisting in the calibration of components and instruments <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the determination of tests and maintenance procedures for instruments used in the measuring and control of different variables in manufacturing and processing - Performing inspection and test operations of instruments and systems - Performing in the calibration of components and instruments <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Determining test and maintenance procedures for instruments used in the measuring and control of different variables in manufacturing and processing - Coordinating of inspection and test operations of instruments and systems - Coordinating the calibration of components and instruments <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required

Classification: Technologist, Sub-Classification - Mechanical Engineering	
The Mechanical Engineering Technologist supports the efforts of scientists, engineers and other professionals in the design, development, maintenance and testing of machines, components, tools, heating and ventilation systems, power generation and power conversion plants, manufacturing plants and equipment.	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Assisting in the interpretation of conventional and computer-assisted design (CAD) engineering designs, drawings and specifications for machines and components, power transmission systems, process piping, heating, ventilating and air-conditioning systems - Assisting in the analysis of results from the testing of machines, components and materials to determine performance, strength, response to stress, etc. - Assisting in the inspection of mechanical installations and construction projects <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience may be required
Intermediate	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Interpreting conventional and computer-assisted design (CAD) engineering designs, drawings and specifications for machines and components, power transmission systems, process piping, heating, ventilating and air-conditioning systems - Assisting in the preparation of cost and material estimates, project schedules and reports - Performing the analysis of results from the testing of machines, components and materials to determine performance, strength, response to stress, etc. - Inspecting mechanical installations and construction projects <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years of relevant experience is required
Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Coordinating the preparation of and interpreting conventional and computer-assisted design (CAD) engineering designs, drawings and specifications for machines and components, power transmission systems, process piping, heating, ventilating and air-conditioning systems - Preparing cost and material estimates, project schedules and reports - Coordinating the testing of and conducting the analysis of the results from the testing of machines, components and materials to determine performance, strength, response to stress, etc. - Inspecting mechanical installations and construction projects - Coordinating the inspecting mechanical installations and construction projects - Coordinating the preparation of standards for mechanical maintenance programs and the operations of mechanical plants <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Certificate, diploma, or degree in a specific relevant discipline from a post secondary Canadian institution or an acceptable combination of education, training and experience is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years relevant experience is required

Classification: Telecommunications Analyst (TCA)

The Telecommunications Analyst is responsible for the design, support and maintenance of telecommunications systems (computer, video systems or telephone). These responsibilities include maintaining and enhancing hardware, software and other components of a telecommunications system and analysis of user requirements including the identification of administrative, operational, economic and technical merits of information technology alternative solutions. In addition, the incumbent is also responsible for the development of formal recommendations and the preparation of specifications.

Junior**Typical duties may include:**

- Monitoring the design, implementation and operations start-up of proposed telecommunication systems in accordance with instructions
- Assisting in the maintenance and monitoring of existing telecommunication, audiovisual and information control systems to ensure ongoing connectivity and functionality
- Assisting in the evaluation of the robustness of telecommunication systems at the server level or higher
- Assisting in the evaluation system compatibility of technical requirements for content streaming, audio and video conferencing, Web conferencing, etc
- Assisting in the analysis of user requirements
- Participating in researching of alternative solutions
- Assisting in the preparation of specifications related to the functional requirements
- Assisting in the development of recommendations
- Assisting in the writing of technical specifications, schedules and technical reports

Minimum Mandatory Qualifications:**Education:**

- Secondary school diploma is required
- Successful completion of additional courses in telecommunications, information technology or computer science from a recognized post secondary institution is required
- Certificate, diploma, or degree in telecommunications, information technology or computer science or other relevant field from a recognized post secondary institution or an acceptable combination of education, training and experience may be required

Classification: Telecommunications Analyst (TCA)

The Telecommunications Analyst is responsible for the design, support and maintenance of telecommunications systems (computer, video systems or telephone). These responsibilities include maintaining and enhancing hardware, software and other components of a telecommunications system and analysis of user requirements including the identification of administrative, operational, economic and technical merits of information technology alternative solutions. In addition, the incumbent is also responsible for the development of formal recommendations and the preparation of specifications.

Intermediate**Typical duties may include:**

- Maintaining and monitoring existing telecommunication systems to ensure ongoing connectivity and functionality
- Evaluating and ensuring robustness of systems at the server level or higher
- Analyzing system compatibility for technical requirements such as WAN or wireless systems compatibility for content streaming, audio and video conferencing, Web conferencing, etc.
- Analyzing user requirements
- Reviewing general specifications for telecommunication systems
- Developing broad system alternatives
- Identifying the administrative, operational, economic and technical feasibility of alternative solutions
- Assisting in the preparation of technical specifications, schedules and technical reports related to the functional requirements of the client department's application
- Assisting in the development and presentation of recommendations
- Assisting in the development of current, long range and strategic information technology and information management plans
- Setting up and operation of standard test equipment to diagnose, test and analyze the performance of basic electrical components, assemblies and systems
- Analyzing electrical specifications, network architecture and engineering changes
- Assisting in maintaining audio visual, information technology control systems and network inter connectivity

Minimum Mandatory Qualifications:**Education:**

- Secondary school diploma is required
- Certificate, diploma, or degree in telecommunications, information technology or computer science or other relevant field from a recognized post secondary institution may be required

Experience:

- Minimum of three (3) years of telecommunications, informatics experience, computer science or other relevant experience is required

Classification: Telecommunications Analyst (TCA)

The Telecommunications Analyst is responsible for the design, support and maintenance of telecommunications systems (computer, video systems or telephone). These responsibilities include maintaining and enhancing hardware, software and other components of a telecommunications system and analysis of user requirements including the identification of administrative, operational, economic and technical merits of information technology alternative solutions. In addition, the incumbent is also responsible for the development of formal recommendations and the preparation of specifications.

Senior**Typical duties may include:**

- Analyzing user requirements
- Reviewing general specifications for telecommunication systems
- Developing comprehensive telecommunication system alternatives
- Coordinating the development of alternative solutions and determining associated policy and organizational change requirements
- Analyzing, evaluating and determining implementation costs of telecommunication alternatives based on impact and cost/benefit considerations
- Developing and presenting formal recommendations
- Coordinating the preparation of specifications related to the functional requirements of the client department's application
- Monitoring the design, implementation and operation start-up of the proposed system to ensure compliance with established goals, objectives and milestones
- Assisting in the development of current, long range and strategic information technology and information management plans
- Setting up and operating standard test equipment to diagnose, test and analyze the performance of more complex electrical components, assemblies and systems

Minimum Mandatory Qualifications:**Education:**

- Secondary school diploma is required
- Certificate, diploma, or degree in telecommunications, information technology or computer science or other relevant field from a recognized post secondary institution is required

Experience:

- Minimum of five (5) years of telecommunications, informatics experience, computer science or other relevant experience is required

Advanced**Typical duties may include:**

- Coordinating the analysis of telecommunications alternatives
- Coordinating the development of comprehensive telecommunication system alternatives
- Developing and presenting formal recommendations to senior levels
- Coordinating the preparation of specifications related to the functional requirements of the client department's application
- Coordinating the development of information and implementation programs and materials for telecommunications systems and services
- Developing current, long range and strategic information technology and information management plans
- Coordinating and monitoring telecommunication projects
- Conducting cost-benefit analysis of telecommunications alternatives

Minimum Mandatory Qualifications:**Education:**

- Secondary school diploma is required
- Certificate, diploma, or degree in telecommunications, information technology or computer science or other relevant field from a recognized post secondary institution is required

Experience:

- Minimum of ten (10) years of telecommunications, informatics experience, computer science or other relevant experience is required

Stream 5 ~ Professional Services

Sub-Stream 5a. Finance

Classification: Auditor

Auditors maintain a wide variety of capabilities complimented by varying degrees of education and experience, related directly to financial, program or IM/IT governance audit tasks. The auditor must be able to work under tight timelines and with sensitive data, possesses appropriate accounting skills and be able to communicate and interact with all levels within an organization. A strong commitment to quality, people, processes, policies and confidentiality is also required.

Audit tasks relate to the daily internal operations of the government's departments and agencies. These tasks require experience using audit tools and methodologies, strong accounting acumen, and may require experience with government audit practices and procedures.

Junior

Duties include the performance of routine audit tasks of relatively low complexity involving a limited number of clearly defined procedures and instructions. Assignments may involve the use of standard methodologies or procedures.

Typical duties may include:

- Providing support to senior auditing staff
- Performing data retrieval and compilation functions
- Reviewing financial management and accounting transactions
- Performing financial systems information extraction
- Providing audit process analysis
- Assisting with preparations and requirements for program review and program audit related tasks and functions

Minimum Mandatory Qualifications:

Education:

- Must be in the process of obtaining a degree/diploma in a relevant field

Experience:

- Minimum of six (6) months of experience performing financial audits is required

Intermediate	<p>Duties include the performance of repetitive tasks of moderate complexity involving a number of clearly defined procedures and instructions.</p> <p>Typical duties may include:</p> <ul style="list-style-type: none"> - Providing substantive support and analysis of auditing functions - Performing data retrieval and compilation including integrity checks - Providing, reporting, provisioning and analysis functions - Delivering preliminary audit plans - Performing financial audits - Performing financial systems interaction and data manipulation and analysis - Performing research and collecting input to contribute to program review and program audit related tasks and functions - Providing strategic audit process analysis and restructuring advice <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Must have either a Degree/Diploma in a relevant field or a Professional Audit/Accounting Designation, i.e. CA, CMA, CGA, CIA or CFE <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of three (3) years experience performing financial audits is required
---------------------	--

Classification: Auditor

Auditors maintain a wide variety of capabilities complimented by varying degrees of education and experience, related directly to financial audit tasks. The auditor must be able to work under tight timelines and with sensitive data, possesses appropriate accounting skills and be able to communicate and interact with all levels within an organization. A strong commitment to quality, people, processes, policies and confidentiality is also required.

Audit tasks relate to the daily internal operations of the government's departments and agencies. These tasks require experience using audit tools and methodologies, strong accounting acumen, and may require experience with government audit practices and procedures.

Senior**Typical duties may include:**

- Providing advice and guidance to clients concerning audit initiatives (including audit principles, objectives and scope), and relevant audit policies

Senior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Performing complex tests required by studies, experiments or research projects - Coordinating environmental sampling and data collection - Performing the analysis to identify and quantify environmental toxic agents - Conducting fundamental and applied research - Planning and conducting a specific study, experiment or research projects - Analyzing the data resulting from a specific study, experiment or research project <p>Minimum Mandatory Qualifications:</p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Undergraduate degree in chemistry, biochemistry or other relevant field, from a recognized post secondary institution, is required - Graduate degree in chemistry, biochemistry or other relevant field, from a recognized post secondary institution, is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of five (5) years of relevant experience is required

Classification: Scientific, Chemist

Chemists study the reactions, transformations and the collecting together of parts of matter as well as accompanying changes during such processes. In addition, chemists investigate the physical and chemical properties of substances.

Advanced**Typical duties may include:**

- Planning and conducting a specific study, experiment or research projects
- Coordinating the performance of specific studies, experiments and research projects required as part of a broader project
- Coordinating activities required to identify and quantify environmental toxic agents
- Coordinating the activities being conducted in various studies, experiments or research projects
- Performing strategic planning and development of studies, experiments or research projects
- Advising senior officials on the potential impact of studies, experiments or research projects on current and proposed programs and policies

Minimum Mandatory Qualifications:**Education:**

- Secondary school diploma is required
- Undergraduate degree in chemistry, biochemistry or other relevant field, from a recognized post secondary institution, is required
- Graduate degree in chemistry, biochemistry or other relevant field, from a recognized post secondary institution, is required
- Doctoral degree in chemistry, biochemistry or other relevant field may be required

Experience:

- Minimum of ten (10) years of relevant experience is required

Classification: Scientific, Toxicologist	
<p>Toxicologists study the relationship between dose and its effects on living organisms including the symptoms, mechanisms, treatments and detection of poisoning.</p>	
Junior	<p>Typical duties may include:</p> <ul style="list-style-type: none"> - Performing basic tests in support of studies, experiments or research projects - Assisting in the environmental sampling and data collection - Performing basic research - Compiling data resulting from studies, experiments or research projects <p><u>Minimum Mandatory Qualifications:</u></p> <p>Education:</p> <ul style="list-style-type: none"> - Secondary school diploma is required - Undergraduate degree in life sciences such as biology, biochemistry, or other relevant field, from a recognized post secondary institution, is required <p>Experience:</p> <ul style="list-style-type: none"> - Minimum of six (6) months of relevant experience is required

Special comments:

Commentaires spéciaux :

NOTE: If multiple levels of screening are identified, a Security Classification Guide must be provided.

REMARQUE : Si plusieurs niveaux de contrôle de sécurité sont requis, un guide de classification de la sécurité doit être fourni.

10. b) May unscreened personnel be used for portions of the work?
Du personnel sans autorisation sécuritaire peut-il se voir confier des parties du travail? ☒ No ☐ Yes
Non Oui

If Yes, will unscreened personnel be escorted?

Dans l'affirmative, le personnel en question sera-t-il escorté? ☒ No ☐ Yes
Non Oui

PART C - SAFEGUARDS (SUPPLIER) / PARTIE C - MESURES DE PROTECTION (FOURNISSEUR)

INFORMATION / ASSETS / RENSEIGNEMENTS / BIENS

11. a) Will the supplier be required to receive and store PROTECTED and/or CLASSIFIED information or assets on its site or premises?
Le fournisseur sera-t-il tenu de recevoir et d'entreposer sur place des renseignements ou des biens PROTÉGÉS et/ou CLASSIFIÉS? ☒ No ☐ Yes
Non Oui

11. b) Will the supplier be required to safeguard COMSEC information or assets?
Le fournisseur sera-t-il tenu de protéger des renseignements ou des biens COMSEC? ☒ No ☐ Yes
Non Oui

PRODUCTION

11. c) Will the production (manufacture, and/or repair and/or modification) of PROTECTED and/or CLASSIFIED material or equipment occur at the supplier's site or premises?
Les installations du fournisseur serviront-elles à la production (fabrication et/ou réparation et/ou modification) de matériel PROTÉGÉ et/ou CLASSIFIÉ? ☒ No ☐ Yes
Non Oui

INFORMATION TECHNOLOGY (IT) MEDIA / SUPPORT RELATIF À LA TECHNOLOGIE DE L'INFORMATION (TI)

11. d) Will the supplier be required to use its IT systems to electronically process, produce or store PROTECTED and/or CLASSIFIED information or data?
Le fournisseur sera-t-il tenu d'utiliser ses propres systèmes informatiques pour traiter, produire ou stocker électroniquement des renseignements ou des données PROTÉGÉS et/ou CLASSIFIÉS? ☒ No ☐ Yes
Non Oui

11. e) Will there be an electronic link between the supplier's IT systems and the government department or agency?
Disposera-t-on d'un lien électronique entre le système informatique du fournisseur et celui du ministère ou de l'agence gouvernementale? ☒ No ☐ Yes
Non Oui

For users completing the form manually use the summary chart below to indicate the category(ies) and level(s) of safeguarding required at the supplier's site(s) or premises.

Les utilisateurs qui remplissent le formulaire manuellement doivent utiliser le tableau récapitulatif ci-dessous pour indiquer, pour chaque catégorie, les niveaux de sauvegarde requis aux installations du fournisseur.

For users completing the form online (via the Internet), the summary chart is automatically populated by your responses to previous questions.

Dans le cas des utilisateurs qui remplissent le formulaire en ligne (par Internet), les réponses aux questions précédentes sont automatiquement saisies dans le tableau récapitulatif.

12. a) Is the description of the work contained within this SRCL PROTECTED and/or CLASSIFIED?

La description du travail visé par la présente LVERS est-elle de nature PROTÉGÉE et/ou CLASSIFIÉE?

☒ No
Non ☐ Yes
Oui

If Yes, classify this form by annotating the top and bottom in the area entitled "Security Classification".

Dans l'affirmative, classifiez le présent formulaire en indiquant le niveau de sécurité dans la case intitulée « Classification de sécurité » au haut et au bas du formulaire.

12. b) Will the documentation attached to this SRCL be PROTECTED and/or CLASSIFIED?

La documentation associée à la présente LVERS sera-t-elle PROTÉGÉE et/ou CLASSIFIÉE?

☒ No
Non ☐ Yes
Oui

If Yes, classify this form by annotating the top and bottom in the area entitled "Security Classification" and indicate with attachments (e.g. SECRET with Attachments).

Dans l'affirmative, classifiez le présent formulaire en indiquant le niveau de sécurité dans la case intitulée « Classification de sécurité » au haut et au bas du formulaire et indiquez qu'il y a des pièces jointes (p. ex. SECRET avec des pièces jointes).
