The purpose of this amendment is to revise the answer to Q6 on Amendment #03, and answer additional questions, as follow:

Questions and Answers:

Q6. Existing materials for millwork do not satisfy requirements for total project. Would an alternate product be considered should more than 40 units require completion by the end of March?

Revised A6. *If, during the project, there are not enough materials available to complete the number of units requested to be completed by March 31st, an alternate may be considered. The approval of an alternate would be based on the same requirements as during the tender period, and that is that a sample or technical data would need to be provided to the Project Manager, and the alternate material would need to be approved/considered acceptable by them.*

Q13. How many blocks will be able to take over at a time?

A13. *One.*

Q14. Will we have to take a break between blocks in order to move occupants from current space into newly renovated space?

A14. *No.*

Q15. Would the Toto LT501.4 Self rimming lavatory - ADA K3998 be accepted as an equal?

A15. *No alternates will be accepted for plumbing fixtures.*

Q16. Reference – Annex A Specifications, Item 1, General Conditions. Will awards be granted to individual contractors in individual option areas? Or does “lowest total bid” mean the sum of all options?

A16. *Evaluation and award will be based on lowest total bid, as per Note at the end of Section BA03, Page 17 of IT, as follows: “ **NOTE: As referenced in the Specifications, any or all of the foregoing options may be chosen to be completed by the RCMP. The tenders will be evaluated based on lowest total bid for all Options.**”*
