Failure to meet any or all of the mandatory requirement(s) will render the bid non-compliant and no other consideration will be given to the bid.
2. Each rated evaluation criterion has a point allotment that reflects its importance in bid submissions. The degree to which the bid satisfies the requirement of each criterion will be assessed and a score will be assigned ranging from 0 to the total point allotment, with 0 meaning the bid completely fails to satisfy the requirements, and the total allotment meaning the bid fully meets the outlined criterion.
3. Section 4.1 of the Technical Portion has a mandatory minimum pass mark of 50%. Each bid must achieve a minimum of 60% overall score for the Technical portion, and a minimum of 60% overall score for the Management and Organizational portion. Bids that fail to achieve the minimum score in either portion will be considered technically unacceptable and will be given no further consideration.
4. The contractor will be selected on the basis of the Assessed Best Value with the highest combined rating of Merit - 60% (Technical, Management and Organizational and Aboriginal Opportunities Consideration) and Cost - 40% (Price)
5. Additional points will be assessed for the Aboriginal Opportunities Consideration (AOC) portion with no minimum pass mark. However, it does add additional points to the maximum total points available overall.

Envelope 2 submittals will be evaluated against the mandatory requirements, failure to comply with any or all of the mandatory requirement(s) will render the bid non-compliant and no other consideration will be given to the bid.

**SI12 SELECTION METHOD - COMBINED MERIT 60%/COST 40%**

1. The contractor will be selected on the basis of the Assessed Best Value with the highest combined rating of Merit - 60% (Technical, Management and Organizational and Aboriginal Opportunities Consideration) and Cost - 40% (Price).
2. The scoring for price will be done by allocating full marks to the lowest price bid, with the other bids being given a prorated score. Based on the results of the evaluations, the bidder with the highest combined total points, given that the price of the bid does not exceed the maximum premium of 15% of the lowest priced compliant bid, will be recommended for award of the contract. If the bidder with the highest combined total points exceeds the maximum premium of 15% of the lowest priced compliant bid, their bid will be considered non compliant and given no further consideration.
3. Calculation of Combined Merit/Cost Selection (Example Only)

Total Points Available = 200

Pass Mark = 60 % or 120 Points Minimum for Price to be considered.

Ratio of Importance = Tech/Mgt = 60 % - Price = 40 %

Maximum Premium Paid = 15% of Lowest Compliant Bid.

Summary of the Results of the Evaluation (Example Only)

Firm Name	Tech/MGT Bid (Pass = 120 Min)	Evaluated Price Bid (GST Included)	Weighted Score Merit = 60%	Weighted Score Cost = 40%	Total Score
