All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Revision to Departmental Name: As this solicitation is issued by Royal Canadian Mounted Police (RCMP), any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this solicitation, including any individual SACC clauses incorporated by reference, will be interpreted as reference to RCMP or its Minister.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

Section I: Technical Bid (1 hard copy)
Section II: Financial Bid (1 hard copy)

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-on-green-procurement) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats->

procurement/politique-policy-eng.html). To assist Canada in reaching its objectives, bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the work (reference pre-award sample, Part 4, Evaluation Procedures, 1.1.1 Mandatory Technical Criteria).

Section II: Financial Bid

C3011T (2013-11-06), Exchange Rate Fluctuation

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.
- (c) The evaluation team will determine first if there are three (3) or more bids with a valid Canadian Content certification. In that event, the evaluation process will be limited to the bids with the certification; otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than three responsive bids with a valid certification remain, the evaluation will continue among those bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

As part of the technical evaluation, to confirm a Bidder's capability of meeting the technical requirements, one (1) pre-award sample of the following item will be required:

1. Gloves, Brown, Leather, Unlined, Male, Size 10

Stock#: 3675-300

The **pre-award sample** along with **Certificates of Compliance and Component Sample swatches** will be required after the bid closing date, upon a written request from the Contracting Authority, from the four (4) lowest bidders. Should the four (4) lowest bidders not be technically compliant, the next four (4) lowest bidders will be requested to submit pre-award samples, and so on until a technically compliant bid is found.

The Bidder must ensure that the required pre-award sample is manufactured in accordance with the technical requirement and are fully representative of the bid submitted. Rejection of the pre-award sample will result in the bid being declared non-responsive.

An RCMP viewing sample will be provided to bidders who are requested to provide a pre-award sample and is to be used for guidance for all factors not covered by the RCMP Specification. The RCMP Specification shall govern.

The viewing sample is not to be damaged or cut, but returned in the same condition as sent to the bidder.

The bidders must deliver the required pre-award sample, certificates of compliance and component sample swatch at no charge to Canada and must ensure that they are received within **30 calendar days** from request. Failure to submit the required pre-award sample, certificates of compliance and component sample swatch within the specified time frame will result in the bid being declared non-responsive. The sample submitted by the bidders will remain the property of Canada.

Certificates of Compliance for the following properties are required as defined herein:

Reference RCMP Specification G.S. 1045-044 dated, 2013-12-17

- 1. The thread, paragraph 4.1.2.1, 4.1.2.2 & 4.1.2.3 of the specification**

Component Sample for the following properties are required as defined herein:

- 1. Leather, 2 swatches, minimum 6" x 6", paragraph 4.1.1 of the specification**

A sample swatch of leather minimum 6" X 6" that was prepared for table cutting and a sample, same size that was not prepared for table cutting, properly identified.

The pre-award sample will be evaluated for quality of workmanship and conformance to specified materials and measurements. Minor observations will not be a reason to reject the sample(s) unless, in the opinion of the technical evaluator(s), they are considered to render the item unserviceable. However, only one deviation will result in the bid being declared non-responsive.

The requirement for a pre-award sample, certificates of compliance and component sample swatch will not relieve the successful bidder from submitting sample(s), certificates of compliance and component sample as required by the contract terms or from strictly adhering to the technical requirement of this Request for Proposal and any resultant contract.

The requirement for a pre-contract award sample may be waived if the bidder has:

a) Submitted pre-contract award sample of the item(s) on a previous requirement or through a separate pre-qualification process by the RCMP Technical Authority, to the latest specification and where the pre-contract award sample was found to be compliant. Bidders may be requested to submit a copy of the evaluation report to validate compliance.

If the above has been met, the bidder must sign this representation and warrants that no significant changes have occurred in their manufacturing processes or their organization since the last award or pre-award qualification, which could affect the manufacturing of the referenced item.

Certificate of Compliance - Definition

A certificate of compliance is defined for this solicitation as a signed and dated certification by an appropriate official of the component manufacturer. (e.g. slide fastener, hook and loop, webbing, etc.) It must specifically address the adherence of the offered component to the specification or manufacturing data of the technical requirement.

A separate certificate of compliance is required for each individual product or component. It must be dated within eighteen (18) months of the solicitation posting date; and must certify that the product for which the Certificate of Compliance was issued is the same product used in the bid submission, or in the pre-award sample or in the pre-production sample, or in the production units as applicable.

The Bidder is to note that copies of invoices, purchase orders and Certificates of Compliance for products or components that are not manufactured by the certifier are not suitable for use as a Certificate.

Refer to page 9 of RCMP Specification G.S. 1045-044 dated 2013-12-17 for further clarification.

1.2 Financial Evaluation

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and documentation to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default, if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply with this request will also render the bid non-responsive or will constitute a default under the Contract.
