Amendment is being raised to answer questions to date.

Q1) Item 3: Can the walk-in panel lengths be more than 7'? Your item 3, states "not to exceed 7' width." Assume the length of the panel can exceed 7', can they be up to 15'5", as long as the width does not exceed 7'?

A1) Item 3: The panel must not exceed 7 feet in width to ensure the panel fits through the kitchen entrance doors. The panel could be 15 feet 6 inches in length but no wider than 7 feet.

Q2) Item 6: "Ramp 24" depth." Our ramps are designed conform to the ADA guidelines for slope and must be 30". Is that acceptable?

A2) Item 6: A 30"ramp is acceptable.

Q3) Item 12: "Lights pre-wired to junction box on top of walk-in freezer." The walk-in's are assembled on site so the lights come shipped loose. The installers normally mount the light fixtures on site. Is that acceptable?

A3) Item 12: Wiring for each light must be concealed in ceiling and pre wired to a junction box on top of walk-in freezer ready for final electrical connection by others.
