2. Summary

The Department of National Defence (DND) requires the following Non Human Model Training courses and course topics at DND/Canadian Forces (CF) site(s) or at the Offeror's facility, as and when requested: Train the Trainer Course, Operator Course, Instructor Non Human Model Table Top, Instructor Non Human Model Scenarios, Non Human Model Table Top Training, Non Human Model Scenario Based Training, Mass Casualty Discussions, Ballistic Session.

Any work performed in Canada involving the care and use of experimental animals must be carried out in compliance with the Canadian Council on Animal Care (CCAC) programs and only by an institution holding a CCAC Certificate of Good Animal Practice. If the work is performed outside of Canada, the work must be done in a facility and under animal use protocols that meet or exceed the standards set out in the policies and guidelines of the CCAC.

The RFSO is intended to result in the issuance of a National Individual Standing Offer (NISO). A NISO is a SO generally issued for the use of a single client.

This requirement contains two streams: Stream 1 is when training must be provided at a DND/CF site and Stream 2 contains a minimum monthly average temperature of 32°F/0°C for each month of the year. The intent is to issue up to two NISOs, one per stream; a NISO for Stream 1 was issued to Canadian Tactical and Operational Medical Solutions (CTOMS) Inc. on January 20, 2014.

The period for making call-ups against the SO is from date of issuance to February 16, 2016 with an irrevocable option to extend the term of the SO by up to two additional one-year periods.

For services requirements, Offerors in receipt of a pension or a lump sum payment must provide the required information as detailed in article 3 of Part 2 of the RFSO.

There is no security requirement associated with this requirement.

The requirement is subject to the provisions of the North American Free Trade Agreement (NAFTA) and the Agreement on Internal Trade (AIT).

The SO is not to be used for deliveries within a Comprehensive Land Claims Settlement Area (CLCSA). All requirements for delivery within a CLCSA are to be processed individually.

3. Debriefings

After issuance of a SO, offerors may request a debriefing on the results of the RFSO process. Offerors should make the request to the SO Authority within 15 working days of receipt of the results of the RFSO process. The debriefing may be in writing, by telephone or in person at the sole discretion of the SO Authority.

PART 2 - OFFEROR INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the RFSO by number, date and title are set out in the *Standard Acquisition Clauses and Conditions (SACC) Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada (PWGSC).

Offerors who submit an offer agree to be bound by the instructions, clauses and conditions of the RFSO and accept the clauses and conditions of the SO and resulting contract(s).

The 2006 (2013-06-01) Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the RFSO.

Subsection 5.4 of 2006, Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) days
Insert: 180 calendar days

2. Submission of Offers

Offers must be submitted only to PWGSC Bid Receiving Unit by the date, time and place indicated on page 1 of the RFSO.

Due to the nature of the RFSO, transmission of offers by facsimile to PWGSC will not be accepted.

3. Former Public Servant

SO issued to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny and reflect fairness in spending public funds. In order to comply with Treasury Board policies and directives on SO with FPS, offerors must provide the information required in the Attachment 2 to Part 3 - Certifications and Additional Information form before SO issuance.

4. Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the SO Authority no later than ten calendar days before the RFSO closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that offerors do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all offerors. Enquiries not submitted in a form that can be distributed to all offerors may not be answered by Canada.

5. Applicable Laws

The SO and any contract resulting from the SO must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Ontario, Canada.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the offerors.

PART 3 - OFFER PREPARATION INSTRUCTIONS

1. Offer Preparation Instructions

Canada requests that offerors provide their offer in separately bound sections as follows:

Section I: Technical Offer (four hard copies);
Section II: Financial Offer (two hard copies); and
Section III: Certifications and Additional Information (one hard copy).

This RFSO uses Portable Document Format (PDF) technology. To access the PDF form, offerors must have a PDF reader installed. If offerors do not already have such a reader, there are several PDF readers available on the Internet. It is recommended to use the latest version of PDF reader to benefit all features of the interactive forms.

Rates and prices must appear in the financial offer only. No prices must be indicated in any other section of the offer.

Canada requests that offerors follow the format instructions described below in the preparation of their offer:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the RFSO.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>).

To assist Canada in reaching its objectives, offerors should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Offer

In their technical offer, offerors should demonstrate their understanding of the requirements contained in the RFSO and explain how they will meet these requirements. Offerors should demonstrate their capability and describe their approach in a thorough, concise and clear manner for carrying out the work.

The technical offer should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the offer will be evaluated. Simply repeating the statement contained in the RFSO is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that offerors address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, offerors may refer to different sections of their offers by identifying the specific paragraph and page number where the subject topic has already been addressed.

Part 4, Evaluation Procedures, contains additional instructions that offerors should consider when preparing their technical offer.

Section II: Financial Offer

- 1.1 Offerors must submit their financial offer in Canadian funds and in accordance with the pricing schedule detailed in Attachment 1 to Part 3. The total amount of applicable taxes must be shown separately.
- 1.2 Offerors must submit their rates and prices FOB destination; Canadian customs duties and excise taxes included, as applicable; and applicable taxes excluded.
- 1.3 When preparing their financial offer, offerors should review clause 1.2, Financial Evaluation, of Part 4.
- 1.4 The rates and prices included in the pricing schedule detailed in Attachment 1 to Part 3 exclude the total estimated cost of all travel and living expenses that may need to be incurred for Work described in Part 7, Standing Offer and Resulting Contract Clauses, of the RFSO.
- 1.5 Offerors should include the following information in their financial offer:
 - (i) Their legal name;
 - (ii) Their Procurement Business Number (PBN); and
 - (iii) The name of the contact person (including this person's mailing address, phone and facsimile numbers and e-mail address) authorized by the Offeror to enter into communications with Canada with regards to:
 - 1) their offer; and
 - 2) any SO that may result from their offer.
- 1.6 *SACC Manual Clauses*

C3011T (2010-01-11), Exchange Rate Fluctuation

Section III: Certifications and Additional Information

In Section III of their offer, Offerors should provide the certifications required under Part 5 and, as applicable, any related documentation and Additional Information.

- (a) Offerors must complete their Certifications and Additional Information by using the PDF fillable form in Attachment 2 to Part 3 - Certifications and Additional Information.
- (b) Offerors should complete the interactive form electronically before printing the document for submission. Offerors should note that simply printing the document prior to completing it electronically may omit certain fields that would appear when filling out the form electronically, resulting in incomplete Certifications.
- (c) The form should be signed.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Offers will be assessed in accordance with the entire requirement of the RFSO including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the offers.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

Refer to Attachment 1 to Part 4.

1.2 Financial Evaluation

- 1.2.1 The volumetric data included in the pricing schedule detailed in Attachment 1 to Part 3 are provided for offer evaluated price determination purposes only. They are not to be considered as a SO guarantee.
- 1.2.2 For offer evaluation and offeror(s) selection purposes only, the evaluated price of an offer will be determined in accordance with the Pricing Schedule detailed in Attachment 1 to Part 3.

1.3 Optional Offeror's Facility Assessment Visit

- (a) It is within Canada's sole discretion to determine if a Facility Assessment Visit (FAV) is required to validate the technical offer. If Canada determines that a FAV is required, Canada may visit any or all facilities proposed in the offer to confirm both that it is as described in the offer and that it meets the technical requirements described in the Statement of Work and in the Attachment 1 to Part 4. Canada will use the Facility Checklist in Attachment 2 to Part 4 to perform the FAV. Canada will pay its own costs associated with any FAV.
- (b) If Canada determines that a FAV is required, the SO Authority will give the Offeror five working days notification prior to a FAV. Canada will then visit the facility and perform the assessment. Up to two representatives of the Offeror should participate in the visit. Efforts will be made to complete the FAV within one working day.
- (c) In connection with the FAV, the Offeror grants to Canada the right to access any site and facilities included in the Offeror's offer for assessment and evaluation purposes.
- (d) Canada will document the results of the FAV. If Canada determines that the Offeror's facility does not meet any of the mandatory facility criteria in Attachment 2 to Part 4, the Offeror's offer will fail the FAV and will be declared non-responsive.

2. Basis of Selection

For Stream 2, an offer must comply with the requirements of the RFSO and meet all mandatory technical evaluation criteria to be declared responsive. For Stream 2, responsive offers will be ranked in ascending order of evaluated prices; the responsive offer with the lowest evaluated price will be recommended for issuance of a SO.

PART 5 - CERTIFICATIONS

The certifications in Attachment 2 to Part 3 should be completed and submitted with the offer, however, may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the SO Authority will so inform the Offeror and provide the Offeror with a time frame within which to meet the requirement. Failure to comply with the request of the SO Authority and meet the requirement within that time period will render the offer non-responsive.

The certifications provided by offerors to Canada are subject to verification by Canada at all times. Canada will declare an offer non-responsive, will have the right to set-aside a SO, or will declare an offeror in default, if any certification is found to be untrue whether during the offer evaluation period or during the SO period.

The SO Authority will have the right to ask for additional information to verify the Offeror's certifications. Failure to comply with this request will also render the Offer non-responsive or may result in the setting aside of the SO or will constitute a default under the SO.

Offerors must complete their certifications required under Part 5 by using the Attachment 2 to Part 3.

If the information is not provided in the offer, the SO Authority will so inform the Offeror and provide the Offeror with a time frame within which to meet the requirement.
