This amendment n° 001 is raised to answer questions from potential suppliers.

Q1. The part# A8-1125-169 is not actually John Crane Part Number. It is a seal head assembly drawing Number. We would need John Crane Layout drawing Number because your request is for head assembly and seat.

A1. John Crane Drawing no. CFSP-95450 for Complete Shaft Seal

Q2. The part number A8-1125-169XFMDM is for the seal head & mating ring only. Are these the only parts your require? If the Complete cartridge assembly is required a Reference drawing number is required or the equipment ref. Pump & model number are required.

A2. John Crane Drawing no. CFSP-95450 for Complete Shaft Seal for ""John Crane" Type 8-1 1 1/8" Shaft seal for Ingersoll Rand Pump."

Q3. Please note that we believe the packaging requested on the bid is wrong. These items are shelf life items (120 Months) and the packaging should be D-LM-008-026/SF-000 and not D-LM-008-036/SF-000.

A3. Though these are shelf lifed items, packaging specification D-LM-008-026/SF-000 refers to "Packaging of Preformed Packings, Gaskets or Seals". We request packaging specifications D-LM-008-036/SF-000. Shelf life and markings must also comply to specifications DLM-008-002-SF-001 and D-05-001-001-SF-000 as per RFP. Ultimately, the items should be packaged individually in a manner that protects against damage.

ALL TERMS AND CONDITIONS OF THIS SOLICITATION REMAIN UNCHANGED.
