This amendment is raised to publish all questions and answers received as of February 19, 2014

Q.1 There is a requirement for option to use various filters, but no description of that. I suspect this is a warm filter wheel, but it doesn't say. Can you clarify for us, is this required for both the long (Large) and Mid (medium) IR cameras?

A.1 Yes, the option to use a filter wheel is what's required for both cameras.

Q.2 Additionally, can you confirm that the user is requesting the Tri Field of View lens be able to work with both the new camera system and the legacy (Phoenix) camera? In this case I need to confirm that the Teledyne lens was indeed a Bayonet mount?

A.2 New TFOV lens will not be used with Phoenix camera. Phoenix camera indeed has a bayonet mount.

All other terms and conditions remain unchanged
