Title : MONTRÉAL - ST-ANTOINE DREDGING

Included in the present amendment :

1. Question and answer 10
2. Amendment no 2

QUESTION AND ANSWER :

Question 10 : Est-ce que le cautionnement est sur le montant annuel (renouvelable) ou sur le montant total des 3 ans ?

Answer 10 : Le cautionnement doit couvrir le montant total des 3 ans.

AMENDMENT no 2

1. In section Important Notice To Bidders :

ADD "The « Code of Conduct » is replaced with « Integrity Provision » and some modifications to the clause where done. See GI01 of R2710T."

2. In reference to the date of the des General Instructions R2710T in the Table of Contents and the Special Instructions to Bidders SI01 et SI02 :

DELETE "2013-06-27"
INSERT "2014-03-03"

3. Supplementary Conditions :

ADD the following Supplementary Conditions SC04 :

SC02 FUEL PRICE ADJUSTMENT

1. The Contract will be amended at the end of each dredging year to reflect an increase or a decrease, compared with the benchmark price, in the cost of the fuel used for the work in the Contract.
2. The fuel price adjustment will be based on the volume of dredged material for which payment has been made. PWGSC will apply a factor of 14% to the unit cost per m³pm for the cost of fuel needed to perform the dredging work.
3. There will be no fuel price adjustment for mobilization or demobilization.
4. Price variation will be determined according to the average price for Quebec City posted in the "Furn No.2" category under the heading "Canadian Unbranded Rack Price" on the Bloomberg Oil Buyers Guide Web site. For the purposes of this contract, the benchmark price is the one published on February 28, 2014.

5. Price adjustment formula:

a) Legend:

PA: price adjustment

DF: price on the date work starts at the beginning of a given dredging period in compliance with Article 4 of this clause

BEN: benchmark price in compliance with Article 4 of this clause

UP: unit price per m³pm according to the item featured in the unit price table

PV: paid volume according to the item featured in the unit price table

b) Calculation of price variation:

$$PA = (DF - BEN) / BEN \times UP \times PV \times 14\%$$

Note 1: The fuel price adjustment formula will be calculated separately for each dredging period and for each item for which a unit cost per m³pm is featured in the unit price table.

Note 2: PA could be positive or negative. As a result, the annual portion of the contract will be adjusted upwards or downwards as required.

6. Although the price variation is calculated for each dredging period and for items with a unit cost per m³pm, only one annual adjustment shall be made. It should appear on the final Request for Payment form for the dredging year and will be considered to be an amendment to the contract.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
