

Question A	<p>Clarification on the Annex "A" Statement of Work, paragraph A4-Software Applications:</p> <p><i>Entrust Public Trusted SMIME certificate or Entrust Entelligence Security Provider with a Shared Service Canada (Integer Counter Mode) issued Digital ID. The Offeror must purchase a valid X509 certificate from the Entrust group, and require a once annual exchange of trusted certificates between the Offeror and the IRB Linguistic Services Directorate. This tool will allow for the secure, encrypted transfer of documents electronically, up to and including Protected B security level. The Offeror is responsible for all associated costs.</i></p>
Answer A	<p>The IRB is adding a procedure to the paragraph A4-Software Applications to clarify how it will proceed for how the Offeror to obtain a valid X509(PKI) certificate from the Entrust group.</p> <p>See RFSO amendment No.5.</p>
