This amendment is raised to answer questions from potential respondents to this LOI.

1. Questions and Answers:

Question 1: In order to calculate pricing for the integration and support, it would be good to have an overall system description with performance data of the existing AN/MWG 505 RWS, and also a description and pictures/drawings of the current integrations on the Tracked Light Armoured Vehicle and the Wheeled Light Armoured Vehicle. Is this something that can be provided?

Answer 1: Canada does not possess the requested information.
The system description is available through Google at the following links:
<http://www.casr.ca/101-army-armour-tlav-m113a3.htm> and
<http://www.army-guide.com/eng/product313.html>.

Question 2: Are we expecting a bidder's conference?

Answer 2: No.

Question 3: What are the Industrial Regional Benefits (IRB) requirements for that program?

Answer 3: There is no IRB requirement for this program.

Question 4: Could you clarify the request for breakdown of major sub-assemblies, what exactly are you expecting to get.

Answer 4: This should be considered the same as Line Repairable Unit (LRU). As DND is not privy to a parts breakdown of any new system, the comparison to a systems LRU's will have to be used.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
