**Question and Answer #1**

Q1. M7 indicates a letter of good standing with the Pharmacists's Association of Saskatchewan is required. Since service is being provided in Manitoba would a letter from the Manitoba College of Pharmacists suffice?

A1. Yes, a letter from the Manitoba College will suffice

Q2. The document requires delivery to Dauphin, Manitoba. Would you be able to provide a detailed address?

A2. Delivery is not required. Offenders are escorted to the doctor and subsequently to the pharmacy to pick up their medications.

Q3. Is the Healing Lodge set up in a way that a stat box could be provided for urgent medications?

A3. No, there is no stat box on site but a locked filing cabinet on site to hold the medications until the offenders require them (staff have 24 hour access)

Q4. Are there any restrictions on the types of medications allowed at the healing lodge? For example methadone, narcotics, sleeping pills or other psychotropic medications.

A4. Yes, according to the Lodge methadone and narcotics are not kept on site and other alternatives are requested should a medication not be kept at the Lodge.

Q5. What is the general length of stay at the Healing Lodge?

A5. 6 months minimum with some staying for up to two years.

Q6. Are you requiring daily delivery?

A6. No, as noted in #1, delivery is not required. If this is in the RFP, I am suggesting that it be removed from the RFP.
