

Question 1:

Please provide information on the volume of work this may involve, either the average number of listings per year in Saskatchewan or the value of same.

Response:

Please refer to Section 3.3 Statement of Work of the Request for Proposal in which it is stated that "The proponents can anticipate that properties marketed will be dispersed throughout the Province. CMHC does not guarantee a minimum or maximum number of units that will be marketed under the contract, as volumes are subject to fluctuation. However, the approximate number of properties sold from January 1, 2013 to December 31, 2013 for Saskatchewan was 17, with an average selling price of ±\$86,353".
