Amendment 002 is raised to provide clarification and answers to questions from potential suppliers.

Question 1:

1) We are wondering if we could get further clarification on Mandatory Technical Criteria MT1.1. In specific items (e) and (f).

Question 1a:

1a) (e) separate and distinct financial controls systems.

What does this really mean from a Government perspective? What are you looking for?

For example, we have a contractual relationship with Company A and Company B requiring both companies to register their household goods moving business with us over 150 miles. This registration is then use to distribute revenue to all parties involved in the move, and invoice the company responsible for collecting the charges. We are not sure how this contractual relationship is affected by term (e), if at all.

Answer 1a:

Separate and distinct is defined as one bidder not having any reliance whatsoever on any other bidder to meet the requirements of the RFP. That is, as a bidder, must be able to independently provide the services stated in the clause.

Question 1b:

1b) (f) separate and distinct communications systems.

Again, what does this really mean from a Government perspective?

Does this refer only to direct communication with the Government and its employees. If so, how would the Government view a leased communication system from an existing supplier.

Answer 1b:

Please see definition of "separate and distinct" in question 1a.

Under Under Attachment 1 to Part 4 - Technical Criteria; 1 - Mandatory Technical Criteria (Table 1)

Question 2:

2) The RFP issuance date shows March 28, 2014, however did not actually post on the Canada's BuyandSell web site till Monday Morning March 31, 2014. This eliminated at least two days of valuable response time down to 38 days considering it has to be delivered in Ottawa May 8, 2014 by 2:00 PM. As this is an extensive and sizeable RFP to respond to in such a shortened response period, our question is, would Canada consider to give industry the extra time back and extend the closing to Thursday May 15, 2014 @ 2:00 PM?

Answer 2:

An extension is not being considered at this time.

Question 3:

3) MT 1.1 – Bidder Independence: Canada has issued the terms and conditions a Bidder must demonstrate to be considered independent and compliant. Our questions regarding Bidder "eligibility" are:

a. Are there in the opinion of Canada any restrictions of a Bidder whether totally standalone and/or joint venture, providing the fulfill the requirements of "independence", to submit a bid if that entity/joint venture had direct ownership in another Bidder providing that Bidder can demonstrate and fulfill the requirements of "independence"?

b. Are there in the opinion of Canada any restrictions and/or threshold (in % of ownership) of one Bidder having direct ownership i.e. shares in another Bidder providing that both entities are capable of fulfilling the requirements of "independence"?

Answer 3:

As per 2003 - Standard Instructions - Goods or Services - Competitive Requirements; 04 - Definition of a Bidder:

" 'Bidder' means the person or entity (or, in the case of a joint venture, the persons or entities) submitting

a bid to perform a contract for goods, services or both. It does not include the parent, subsidiaries or other affiliates of the Bidder, or its subcontractors."

Question 4:

4) MT 3.1 Core Centres + RT 6.1 Geographic Coverage: Can an Agent who is located in any of the required centres provide origin/destination and/or subcontract services to more than one (01) Bidder?

Answer 4:

Yes, any agent may represent more than one Bidder (no exclusivity agreements).

Note that RT6.1 was amended to RT1.1 in amendment 001.

Question 5:

5) RT 7.1 Claims Process: Providing a Bidder has an in-house customer service/claims department that fully meets the "independence" requirements and clearly demonstrates full 100% accountability for the quality and proficiency in processing the claims, can such a Bidder outsource the administration and processing of claims through a Third Party Provider that would be approved by Canada?

Answer 5:

As per Annex E - 1.6 and 2.5, claims settlement must be in-house; all communication with regard to a claim must be between the Contractor and Shipper and any forms or documents must be on the Contractor's letterhead. Processing of claims can be done by an outside party, as long as the Contractor is ultimately accountable and is the only point of contact with the Shipper.

Note that RT7.1 was amended to RT2.1 in amendment 001.
