This solicitation amendment is issued to provide the following information:

Q1. Quality Control - Phase I refers to 10% of the photographs - should this be 10% the area for each ecoregion?

A1. It should be 10% of the area for each ecoregion.

Q2. Quality Control - Does the process refer to the project as a whole or to each payment milestone as defined in the RFP?

A2. Quality Control refers to each payment milestone.

Q3. Quality Control - Is there a timeframe for the completion of the quality control in the event that milestone payment is contingent on completion of the quality control process? Or is only the Stage 3 payment contingent on the Quality Control process?

A3. Parks Canada will make every effort to complete the quality control assessment within 2 weeks of receipt of information received by the contractor. All stages of the payment are contingent on the quality control process.

Q4. Terms of Payment - Stage 1 refers to 10% of type photographs - should this be 10% of the area of each ecoregion?

A4. It should be 10% of the area for each ecoregion.

Q5. I want to confirm the deadline for this project as February 27, 2015, as it reads on page 17 (section 4.1) of the RFP. The reason that I question this is because it is a really tight timeline for such a project considering that the polygon size can be as little as 1/2 hectare, and work on the project may not begin for another month or two. Has any consideration been given to a longer time frame for completion?

A5. Contractors should plan to complete the contract within 9 months after the contract is awarded.

Q6. Is the imagery available in GeoTiff format?

A6. No

Q7. We have been taking a look at the data provided on the ftp site, however the folder "Digital_Photos" is empty. When will you be uploading six True Color and six Color Infrared photographs?

A7. Please look under the folder called "Stereo Pairs".

CCC No./N° CCC - FMS No/ N° VME

Q8. We downloaded the sample data but are having problems with the Stereo Pairs.zip file. We downloaded it twice and both downloads were the proper size when compared with the source but it would not unzip. Can you please check to see if there is a problem with the source file.

A8. The file "Stereo Pairs.zip" has been uploaded to the FTP site again. Please download again.

Q9. The three stereo pair model files (*.mod) were not on the FTP site. Can you please arrange for these.

A9. The ".mod" files are on the ftp site under the folder called "Model Files"

All other terms and conditions remain unchanged.
