

Solicitation 5P404-13181

Clear Lake Campground Asphalt Paving
Riding Mountain National Park of Canada

Question and Answers April 15, 2014

Q1 As per list of proposed work, are we to include 8" depth of excavation and the supply and placement of 6" depth gravel A base, or will this work be done by another contract prior to paving contractor arrival.

A1 This contract is for the excavation and filling of A base gravel and asphalt.

Q2 Then insurance section that is referred to in the insurance terms documents is R2910D. I have found these documents but they are in the archived files, so I am wondering if they are still the valid insurance requirements for this project?

A2 The Invitation to Tender document (ITT) now contains a link to Certificate of Insurance (form PWGSC-TPSGC 357); R2910D has been removed from SACC as this is provided for in the ITT. The insurance requirement remains the same.

Q3 I cannot find any penalties or liquidated damages referred to in these documents, are there any?

A3 There are no performance incentives or penalties associated with this requirement.

Q4 What is the warranty period for this project?

A4 There is a 1 year warranty period for this requirement.

Q5 There are 2 areas where the completion date is conflicting **BA06** states **September 30, 2014** **1.10** states **October 31, 2014**, which one would it be?

A5 October 31, 2014 is the correct completion date

Q6 Bid validity is specified in various places and for different lengths of time...will it be the **30** day as specified in **BA04**?

A6 The Validity period is as defined in the Solicitation document - 30 days
