Dear Mr. Paradis:

**Issuance of Type A Land Use Permit
Drilling & Soils Testing, Giant Mine Site, NT**

Attached is Land Use Permit MV2012S0019 granted by the Mackenzie Valley Land and Water Board (MVLWB) in accordance with the *Mackenzie Valley Resource Management Act*. This Permit has been approved for a period of five years commencing September 13, 2012 and expiring September 12, 2017.

A copy of all related correspondence and documents has been filed on the Public Registry at the office of the MVLWB. Please be advised that this letter, with its attached procedures, inspection reports, and related correspondence is part of the Public Registry and is intended to keep all interested parties informed of the manner in which the Permit's requirements are being met. All Public Registry material will be considered if an amendment to the Permit is requested.

The full cooperation of AANDC is anticipated and appreciated. If you have any questions or concerns, please contact Lynn Boettger at (867) 766-7461 or email lboettger@mvlwb.com.

Yours sincerely,

Reasons for Decision

Issued pursuant to paragraph 40(2)(c) of the *Mackenzie Valley Land Use Regulations* (MVLUR) and section 121 of the *Mackenzie Valley Resource Management Act* (MVRMA)

Land Use Permit Application	
Preliminary Screener	MVLWB
Reference/File Number	MV2012S0019
Applicant	Aboriginal Affairs and Northern Development Canada – Contaminants and Remediation Directorate (AANDC-CARD)
Project	Drilling and Soils Testing Program, Giant Mine, NT

Decision from Mackenzie Valley Land and Water Board Meeting of

September 13, 2012

With respect to this application, notice was given in accordance with sections 63 and 64 of the MVRMA. There was no public hearing held in association with this application.

Background

This application is for a land-based drilling program at the Giant Mine site in Yellowknife, NT. The proposed work consists of drilling up to 135 holes using mud rotary, diamond drilling and down-the-hole drilling methodologies, boring up to 45 holes using an auger, excavating 100 soil test pits, and associated activities for four programs (Freeze optimization study, design support drilling and soils testing, A1, B1 and C1 pit stability, and underground stability).

The application was submitted on July 25, 2012 and then sent for review and comment. No significant issues were raised with the proposed activities.

Decision

The Board is satisfied that:

- The development has been screened pursuant to the MVRMA
- Any potential adverse environmental effects are insignificant or mitigable with known technology; and

- There is no likelihood that the proposed development might be a cause of public concern.

After reviewing the submission of the Applicant, the written comments received by the Board and the Staff Report prepared for the Board, the Board, having due regard to the facts and circumstances, the merits of the submissions made to it, and to the purpose, scope, and intent of the MVRMA and Regulations made thereunder, has determined that:

Land Use Permit MV2012S0019 be issued subject to the terms and conditions contained therein.

The Board's reasons for this decision are as follows:

- The Board is satisfied that adequate consultation has been conducted, and that advice has been sought and considered, in accordance with sections 63 and 64 of the MVRMA.
- It is the opinion of the Board that the terms and conditions attached to MV2012S0019, pursuant to the MVRMA, will reduce the potential environmental impacts resulting from the project.
- The use of land proposed by the Applicant is of a nature contemplated by the MVRMA.
- The Board has notified the Applicant, through a statement included in the scope of this Permit, that compliance with the terms and conditions of this Permit does not absolve the Permittee from responsibility for compliance with the requirements of any other legislation.
- The operation will likely contribute to the socio-economic well-being and economic development of the region.
- The Board has reviewed the information contained in the Staff Report dated September 13, 2012 regarding environmental impacts and/or public concerns.

Land Use Permit MV2012S0019 contains provisions that the Board feels necessary to ensure and monitor compliance with the MVRMA and the Regulations made thereunder and to provide appropriate safeguards in respect of the Applicant's use of the land affected by the Permit. The Board will provide additional referenced material or documents if requested in writing to do so.
