Signature		Date

This solicitation amendment number one (01) is issued to answer questions received during the solicitation process.

Questions and Answers

Q1. Photo 131.557c indicates that the lower portion of rock is to be scaled per Photo 131.557d and the upper portion is future work. Photo 131.557d then shows both of these areas as future work, with no scaling mentioned for the lower portion. Is the lower portion of the rock to be scaled under this contract? If so, what would the quantity be? A take-off of the other 4 areas adds up to the tender quantity of 375 hrs already.

A1. The location shown for scaling in Photo 131.557c, will indeed require scaling. The note on 131.557d (lower annotation) can be ignored. It is considered that since this area is relatively small it can be incorporated into the noted total amount of scaling hours, without changing the estimate.

Q2. Is there a contact person for the Glacier Skywalk?

A2. The Contractor will receive contact details for the Glacier Skywalk (Brewster and others) following contract award.

All other Terms and Conditions remain unchanged
