

PART 1 - GENERAL

1.1 DEFINITIONS

- .1 Information Documents means information of any type and in any form, related to the Project and identified in this Section as such. Contractor is synonymous with Bidder.

1.2 STATUS OF INFORMATION DOCUMENTS

- .1 Information Documents, or any part thereof, are not part of the Contract. Information documents have been appended to the Project Specifications for information purposes only.

1.3 USE OF AND RELIANCE UPON INFORMATION DOCUMENTS

- .1 Information Documents are made available to Bidder for the purpose of providing Bidder with access to information available to Departmental Representative and Consultant.
- .2 Information Documents shall not be considered a representation or warranty that information contained therein is accurate, complete or appropriate.
- .3 Bidder shall interpret and draw its own conclusions about Information Documents and is advised to obtain specialist advice with respect thereto. Departmental Representative and Consultant assume no responsibility for such interpretations and conclusions.
- .4 Information contained in Information Documents may be time sensitive and dates shall be considered when interpreting Information Documents.

1.4 INFORMATION DOCUMENTS PROVIDED

- .1 Geotechnical Report prepared by P. Machibroda Engineering Ltd. titled: "Geotechnical Investigation, Joussard Climate Station, within NW-1/4-23-73-13-W5M, Municipal District of Big Lakes, Alberta" dated "February 7, 2014". (30 pages)
- .2 Elevation Survey G08450MLL1 prepared by Stewart Weir, dated June 6, 2012, included with the project drawings.
