

**This Amendment #005 is raised to amend Request for Proposal 84084-130192/A, dated 2014-03-27 as follows:**

**Part A: Questions and Answers**

**Part B: Revisions**

**Part A: Questions and Answers**

Q1: When is the expected delivery/ installation date, I don't see that noted.

A1: Delivery is requested to initiate within three weeks of contract award. The term of the resulting contract will be from contract award to December 31, 2014.

Q2: "Laminate - Finish to match Tafisa: Copa Cabana L489(S)" - This finish comes in HPL and TFL from Tafisa. Is it either one of these, or a close match?

A2: The finishes provided must be High Pressure Laminate, regardless of their provider. Please note that all references to Tafisa Copa Cabana L489(s) have been removed.

Q3: Is it a mix of laminates? IE HPL on the faces and tops, TFL for the chassis?

A3: It is HPL (High Pressure Laminate) is to be used for all surfaces faces and tops, sides and backs.

Q4: What is the reveal frame?

A4: Bidders should provide storage fronts, drawers, cabinet doors, and modesty panels that appear to be "floating", in that it appears to offset the front/modesty from the case.

Q5: On page #14 there are 38 desks but you are requesting 58 task lights. Please clarify?

A5: The quantity in the RFP is correct; NEB requires an additional 20 task lights.

Q6: Under General Requirements 4.9, can you clarify what you are requesting for the edges, corners?

A6: The edges and corners must follow general industry standard s (i.e.: 1 ¼" thick by 1/8" edge band).

Q7: How many finish swatches would you like submitted with the bid?

A7: Please include at least 5 finish swatches with your bid.

Q8: I have been unable to find an installation/delivery date on this RFP. If there is one indicated could you please direct me to it and if not could you please provide?

A8: See A.1

Q9: Can you please clarify if the requirement: "Reveal frame to be ½" x ¼" anodized aluminum extrusion and attached to the unit's case with plastic inserts. Cabinet doors and drawers are offset by the reveal frame by ½" to provide clearance for finger pull access." --is an absolute requirement? Can we submit alternates to this requirement?

A9: This requirement is the preferred design, however Bidders can submit furniture that is similar and as close to meeting the above requirement as their product line allows.

## **Part B: Revisions**

**1. At page 6 of 25, Part 4: Evaluation Procedures and Basis of Selection:**

**DELETE: MTC 2.3**

**INSERT: MTC 2.3** The Bidder must submit one (1) full colour card, showing complete range of colour and finish options available for metal finishes.

**MTC 2.3.1** The Bidder must be able to provide each and any of the provided color and finish option at no additional cost to the Crown. Should customization of finish colour be required, final costs will be determined between the Contractor and Contracting Authority.

**2. At page 9, Part 6: Resulting Contract Clauses, 2.0 Statement of Work**

**INSERT: 2. As on page 9 of 21, at 2. Statement of Work:**

The Contractor grants to Canada the irrevocable option to acquire the goods, services or both described at 20% of the Contract value under the same conditions and at the prices and/or rates stated in the Contract. The option may only be exercised by the Contracting Authority and will be evidenced, for administrative purposes only, through a contract amendment.

The Contracting Authority may exercise the option within 12 months after contract award by sending a written notice to the Contractor.

**3. At Annex A – Statement of Work:**

**DELETE:** Annex A in its Entirety.

**INSERT:**

### **ANNEX"A" STATEMENT OF WORK**

- 1.1 This purchase description applies to Executive office product components available for use by the National Energy Board.
- 1.2 Executive office product components meeting this purchase description must meet all of the mandatory requirements of the latest version of CAN/CGSB-44.227 "Canadian General Standards Board Freestanding Office Products and Components", as well as the mandatory options and features detailed herein.
- 1.3 The requirements contained in this purchase description are the minimum required features and components to be accepted under this solicitation.

## **2 APPLICABLE PUBLICATIONS**

The following publications are applicable:

The latest version of CAN/CGSB-44.227 "Canadian General Standards Board Freestanding Office Products and Components

## **3 TERMINOLOGY**

For the purposes of this purchase description the following definitions shall apply.

- 3.1 Exposed surfaces – Surfaces that are clearly visible during normal use of the furniture e.g. tops, sides, and drawer fronts..
- 3.2 Less exposed surfaces – Surfaces that are visible but less conspicuous during normal use of the furniture e.g. inside of leg panels, pedestal sides.
- 3.3 Pedestals – Work surface Supporting – A pedestal without a top, which is used to support a work surface. The four sides are finished.
- 3.4 Pedestal – Suspended – A pedestal, which is attached to the underside of the work surface. There is an open space between the bottom of the pedestal and the floor.
- 3.5 Product Changes - changes to the construction/design. Changes in material and hardware (except drawer suspensions) are acceptable without additional testing provided they continue to meet the same specifications as those used on the unit that was tested.
- 3.6 Pedestal – Mobile – A pedestal, which is on casters and can be moved easily by the user. The top and all four sides are finished.

#### **4 GENERAL REQUIREMENTS**

- 4.1 Workmanship – Wood and wood veneer surfaces and edges shall be smoothly sanded and free of blemishes or defects such as tool or machine marks, sanding marks, surplus glue, raised grain, delamination or water marks.
- 4.2 Face veneers shall be tightly joined and properly matched as specified and shall be similar in grain pattern or colour throughout any given area. The natural characteristics of wood and veneer shall be acceptable.
- 4.3 Gaps around drawer fronts shall be uniform. Drawer faces shall be even and parallel with each other. Drawers shall operate smoothly, shall not interfere with each other or have excessive side play. Slides shall not have excessive drop.
- 4.4 Exposed joints shall be neatly executed, rigid, tight and flush with no tool, machine or cross-sanding marks.
- 4.5 The factory finish shall be smooth and free of sags, runs, orange peel and overspray
- 4.6 Doors and drawers must fit squarely and evenly into the openings on all sides
- 4.7 All drawers must be equipped with stops to prevent accidental removal, but still permit easy removal of the drawers when required. Resilient bumpers must be provided on all drawer assemblies to minimize impact noise when drawers reach the end of inward or outward travel and to protect the structural integrity of the drawers against impact.
- 4.8 When assembled in all possible configurations there must be no visible unfinished edges or surfaces.
- 4.9 All edges, corners and parts with which the user, public or persons maintaining the cabinets may come in contact with, must have all rounded corners or be covered with protective caps.

- 4.10 The color specification for the finish is to match Walnut, or equivalent color laminate. Color finish swatches are to be submitted with the bids. The final color selection is to be made before contract award.

\*If upon delivery and acceptance, the product is found to not meet the Minimum Specifications, the product will be returned at the supplier's expense and the Contract will be terminated.

## 6 DETAILED REQUIREMENTS FOR MATERIALS

- 6.1. Wood - Only woods, either in solid or veneer form that have been harvested or traded in accordance with the Convention on International Trade in Endangered Species (CITES) shall be used.:
- 6.2. Particleboard - If particleboard is used as substrate, it shall conform to ANSI A208.1, grade M2 or greater.

## 7. Delivery and Installation

7.1 The Delivery and Installation of the requirement will be on four floors (2, 3, 4 and 5th floor) as follows:

### **Executive office's:**

11 in total  
3 - 3<sup>rd</sup> floor  
7 - 4<sup>th</sup> floor  
1 - 5<sup>th</sup> floor

### **Directors office's:**

36 in total  
1 - 2<sup>nd</sup> floor  
20 - 3<sup>rd</sup> floor  
6 - 4<sup>th</sup> floor  
9 - 5<sup>th</sup> floor

### **Lawyer's etc:**

58 in total  
18 - 3<sup>rd</sup> floor  
28 - 4<sup>th</sup> floor  
12 - 5<sup>th</sup> floor

- 7.2 Delivery and Installation must be completed outside regular hours, after 5pm on week days or during the weekends..
- 7.3 The building is a completely restricted area requiring on-site staff to be present during delivery and installation. Please note that all contractor/personnel will be escorted and supervised during delivery and installation.
- 7.4 Loading dock location: 517 10'h Street, SW Calgary, AB.
- 7.5 Loading dock size limitation: 5 tons truck maximum
- 7.6 Facilities available for transporting product from loading dock to 4th floor:
- One large freight elevator (measures around 8' wide x 9'-6") must be taken down from dock level to B1;
  - Secondary freight elevator (measures: 81" wide, 58.5" deep x 101" high) goes up directly to all floors.
  - Distance from first freight elevator to secondary freight elevator is approximately 30'.

**3. At Annex B – Basis of Payment**

**DELETE:** Annex B in its entirety.

**INSERT:**

**ANNEX B - Basis of Payment**

- Bidders must provide bids as per unit of issue requested. Bidders must submit firm all inclusive prices.
- The price of the bid will be evaluated in Canadian dollars, applicable taxes excluded, Delivered Duty Paid (DDP) and the contractor is responsible for all delivery charges, administration costs, and risks of transport and customs clearances, including the payment of customs duties and taxes.
- GST, if applicable, is not included and is to be shown as a separate item on any resulting invoice. Payment will be made in accordance with the following pricing.
