**TOQUES, LINED**

Solicitation Amendment No. 003 is raised to provide answers to questions raised by bidders as follows:

**Question 1**

**On page 6, paragraph 4.1.7 Embroidery Crest - is the crest supplied by the RCMP or is it a direct embroidery on the toque?**

**Answer 1:**

The crest is a direct embroidery on the toque.

**If so are we supplied with the DST file?**

**Answer:** There is no available DST file. The manufacturer will have to create their own based on the artwork and viewing sample.

**If it is direct embroidery do you have the stitch count for the 2 embroidery design.**

**Answer:** We do not have a stitch count.

**Question 2:**

**I contacted Polartec LLC and they have no style number called "Alaska Fleece #2000". Is it sufficient to use a micro fleece from Polartec LLC that meets the specs for fiber content and mass and would a certificate of compliance relieve the bidder from testing the micro fleece?**

**Answer 2:**

We have confirmed the style number with Polartec LLC and the actual style number is 7366. We will not accept alternates without testing.

**Question 3:**

**I would like to know if we can get hold of the markers for this tender. We need to calculate how much of the materials is needed to come with a costing for this toque. We need the sizing for the inner membrane and polar fleece for each of the sizes in the toques requested. Can the RCMP supply this information?**

**Answer 3:**

We are unable to provide the patterns at this time but we can give some basic measurements for the overall length and width of the patterns. These measurements taken are at the longest points in the length and width and includes a 1 cm seam allowance. The actual patterns are shaped and seamed which is not identified in these measurements. Patterns for all sizes will be provided for the pre-contract award sample and for the production. The measurements for each component and size is listed below.
