This Addendum is raised to provide the following answers to questions provided by bidders.

The following changes in the tender documents are effective immediately. This addendum will form part of the contract documents.

QUESTION

Can you clarify the actual start date of the job? There is reference to 35 weeks to complete the job, however it also states that the wharf face would only be available as of October 1, 2014.

ANSWER

As noted in the tender documents, there are 35 weeks available to complete the work, commencing from the date of an Award letter being received by a successful bidder. Within this 35 week period, however, the Contractor may not have access to the wharf faces and backlands of the involved work areas until October 1, 2014; given fishing activity in the work area prior to that time. It is anticipated that the successful bidder will use any time between contract award and October 1 for such activity as the procurement and storage of materials, the execution of any possible prefabrications or other activity suited to their individually-considered work methods and schedule approach. This clarification also necessarily involves the following Specification change:

Section 01 10 10; Par 1.9.5

Delete in its entirety and **replace** with:

“Wharf face at area of work is not available until October 1, 2014” .
