Part 2. Questions and Answers

The following question(s) have been asked in response to the RFP and Elections Canada hereby answers as follows:

2.1 Question No.4

Question:

Can you confirm the type of seals you require?

We are a distributor and supplier of all different types of security seals, security labels and tamper evident products.

Just wanted to make sure you are not looking for a tamper evident label.

The description and wording you have refers to the products as "Seal 15" x 3" Black Ink, Permanent Glue"

Are you looking for stickers or labels that don't leave tamper evident or void messages when removed?

Answer:

The ballot box seal is a paper label that has permanent glue and serial numbers printed on the long seal, they are affixed to a cardboard ballot box. When affixed to the ballot box it should not curl and must adhere properly. If it is removed or tampered with before the close of the polls it must be visible that the paper ballot box seal short and long has been tampered with, there must be visible sign on the cardboard ballot box that it was removed.
