 - 7.3.1. Should an ITB Transaction involve the purchase of goods or services from an existing Canadian supplier to the Contractor or its Eligible Party, the incremental method of calculating the ITB Credits will apply, as follows:
 - 7.3.1.1. A three-year average of previous purchases is calculated, based on the three years immediately preceding the date of identification of the ITB Transaction to the ITB Authority;
 - 7.3.1.2. ITB Credit will be awarded only on those purchase amounts which exceed the three year average, in each of the Reporting Periods.
 - 7.3.2. The incremental method of calculation outlined in 7.3.1 does **not** apply in cases where the product or service being purchased in the ITB Transaction:
 - 7.3.2.1. involves Direct Work;

As Contractors plan, negotiate and conclude proposed ITB activities, they are encouraged to retain and submit all of the records and documentation necessary to demonstrate eligibility.

7.5.2. The ITB Authority reserves the right to validate, within one calendar year of the Effective Date of the Contract, the criteria associated with ITB Transaction eligibility, Global Value Chain Platform eligibility and Enhanced Priority Technology List eligibility.

8.3. Small and Medium Business (SMB) Transactions

- 8.3.1. An ITB Transaction where an SMB is the ITB Recipient, and the SMB's product or service has a CCV of at least seventy (70) percent, will have its ITB Credit credited as follows:
 - 8.3.1.1. the portion of the Transaction's CCV value that is equal to or less than \$1,000,000 will be deemed to have 100 percent CCV for reporting and verification purposes;

 - 8.5.2.6. In cases where an existing Eligible Party to the Contract participates in the same Consortium as the Contractor, separate ITB Transaction Sheets shall be submitted that describes both the Contractor's and the Eligible Party's involvement in the Consortium. Both the Contractor and the Eligible Party may only claim the ITB Credits associated with the contributions that each has leveraged into the Consortium. At no time shall the Contractor and Eligible Party be able to claim for the same contribution(s).
 - 8.5.2.7. Contributions to the Consortium may take the form of cash or in-kind contributions. In the case of in-kind contributions, the value of these shall be determined by an assessment to be undertaken by a Third Party to this Contract solely at the cost of the Contractor.
 - 8.5.2.8. The future sales that may arise from the Consortium will not be counted for ITB Credit within the Consortium Transaction. Should the Contractor procure goods and services from the Consortium, the purchase will be considered as a separate ITB Transaction and no multiplier will be applied.

- 8.5.2.9. When a Consortium ITB Transaction is submitted, the Contractor must identify the manner that it proposes to calculate the regional distribution. The Contractor may opt to make regional commitments based on where funding for the Consortia originates as a proportion of the total Canadian funding. Alternatively, the Contractor may opt to make regional commitments based on where the work associated with the Consortium is taking place. In either situation, once a Contractor selects a regional calculation, the Contractor will be held to this selection.
- 8.5.2.10. The Contractor will not receive any ITB Credit for contributions already existing in the Consortium prior to their participation.
- 8.5.2.11. The Contractor will not receive any ITB Credit on any contributions leveraged by other parties and applied to other ITB obligations. In cases where multiple Contractors with ITB obligations are involved in the same Consortium, each of these Contractors may be eligible to receive ITB credit for their own contribution and that of the members they can demonstrate they attracted to the Consortium.
- 8.5.3. Valuation for ITB Credit Purposes:
- 8.5.3.1. An initial value will first be calculated, and shall be the sum of the following:
- 8.5.3.1.1. the value of cash contributions from the Contractor to the Consortium; and,

- 8.5.3.2. Once the initial value is established, the Contractor shall receive a five (5x) times multiplier on it.
- 8.5.3.3. The value of any in-kind contributions would then be added. In-kind contributions are not eligible for a multiplier.

This multiplied value is part of the Contractor=s total ITB Commitment, and as such is subject to the performance guarantees stipulated in this Contract.

8.9.6.2. If the Contractor fails to achieve an Accepted ITB Transaction involving a VCF, the full (multiplied) value of its ITB Commitment shall be made up with other ITB activities that meet the ITB Eligibility Criteria. Substitute transactions will not be subject to the multiplier.

TABLE OF CONTENTS

- 1.0 INTRODUCTION
- 2.0 ITB MANDATORY REQUIREMENTS
- 3.0 MINIMUM POINTS ACHIEVEMENT
- 4.0 ITB EVALUATION PROCESS

1. INTRODUCTION

- 1.1. The purpose of the ITB Evaluation Plan is to describe the methodology that will be used to evaluate the ITB Proposal submitted by the Bidder.
- 1.2. Bidders' ITB Proposals will be evaluated as either acceptable or not acceptable. A Bidder's ITB Proposal will be deemed acceptable if it: i) meets all of the ITB Mandatory Requirements outlined in Clause 5 of the ITB Bidder Instructions; and, ii) achieves during ITB Evaluation no less than 32 points (out of a possible 64) for the ITB Plans and no less than 240 points (out of a possible 480) for the ITB Transactions.
- 1.3. The results of the ITB Evaluation will be conveyed to the Contracting Authority at Public Works and Government Services Canada (PWGSC). The results will then be integrated into the overall bid evaluation results on a pass/fail basis, as outlined in part 4 of the Medium Range Radar Acquisition RFP.
- 1.4. Bidders are strongly encouraged to closely review the entire ITB Bidder Instructions document.
- 1.5. Each ITB Proposal will be evaluated to determine if it meets the requirements for acceptability as outlined in Clause 1.2
- 1.6. All ITB Proposals will be evaluated based on the factual information as presented in the ITB Proposal.

2. ITB MANDATORY REQUIREMENTS

- 2.1. The chart below details each Mandatory ITB Requirement and how the ITB Authority will confirm whether each has been met.

ITB Mandatory Requirement	Method to Confirm	Failure to Meet Requirement
1. Bidder commits to achieving ITB activities valued at 100% of the contract value.	Mandatory ITB Requirements Certificate, duly signed and submitted.	ITB Proposal deemed not acceptable

2b. Bidder has identified eligible ITB Transactions equal in total to not less than 30% of the bid price, measured in CCV.	CCV value of each eligible ITB Transaction in the Bidder's ITB Proposal is totalled, then compared against the bid price.	ITB Proposal deemed not acceptable
2c. Bidder commits to identifying, two years after the Effective Date of the contract, additional eligible ITB Transactions which bring the cumulative total of eligible ITB Transactions to not less than 60% of the Contract value, measured in CCV.	Mandatory ITB Requirements Certificate, duly signed and submitted.	ITB Proposal deemed not acceptable

Table 2-1, Mandatory ITB Requirement Evaluation Chart		

3. MINIMUM POINTS ACHIEVEMENT

3.1. Each ITB Proposal will be evaluated to determine if it achieves the minimum points required for the ITB Plans and ITB Transactions.

3.2. Evaluation of ITB Plans

3.2.1. The Executive Summary is assessed to ensure that it is present in the ITB Proposal. It is not scored.

3.2.2. ITB Plans:

3.2.2.1. Each ITB Plan is evaluated to confirm that it is present in the ITB Proposal. Each plan is then given a score for Quality and a score for Risk, using the ratings in Tables 3-1 and 3-2.

3.2.2.1.1. Quality will be assessed as to whether the plan responds to all the requested components outlined in the Statement of ITB Work, the level of detail in the component, and how well the content of the plan meets the ITB Objectives.

3.2.2.1.2. Quality will be rated on a scale of one (1) to four (4), using the ratings below in Table 3-1;

VALUE	ITB PLAN – QUALITY RATINGS
4	SUPERIOR Plan contains most of the requested items in the Statement of ITB Work. Items are very well developed. The plan demonstrates that most of Canada's ITB Objectives will be met.
3	GOOD Plan contains many of the requested items in the Statement of ITB Work. Items are generally well developed. The plan demonstrates that many of Canada's ITB Objectives will be met.
2	POOR Plan contains some of the requested items in the Statement of ITB Work. Items are somewhat developed. The plan demonstrates that some of Canada's ITB Objectives will be met.

1	VERY WEAK Plan contains very few of the requested items in the Statement of ITB Work. Items are not well developed. The plan does not demonstrate that Canada's ITB Objectives will be met.
---	---

Table 3- 1, ITB Plan Quality Ratings

3.2.2.1.3. Risk will be assessed as to the levels demonstrated in the plan of previous experience, ITB capability, and ITB planning, resources and engagement.

3.2.2.1.4. Risk will be rated on a scale of one (1) to four (4), using the ratings below in Table 3-2

VALUE	ITB PLAN - RISK RATINGS
4	SUPERIOR Plan demonstrates a comprehensive level of experience, capability and planning, resources and engagement such that the probability of failure to achieve is extremely low.
3	GOOD Plan demonstrates a good level of experience, capability and planning, resources and engagement such that the probability of failure to achieve is low.
2	POOR Plan demonstrates some level of experience, capability and planning, resources and engagement such that the probability of failure to achieve is moderate.
1	VERY WEAK Plan demonstrates a very limited level of experience, capability and planning, resources and engagement such that the probability of failure to achieve is significant.

Table 3- 2, ITB Plan Risk Ratings

3.2.2.2. The average Quality and Risk scores for each plan will be multiplied together and the sums added together to determine the Final Plans Score for each ITB Proposal;

3.2.2.3. The Bidder must achieve or exceed a Final Plans Score score of thirty two (32) points (out of a possible sixty-four (64) points).

EXAMPLE:

Plan	Quality Score (A)	Risk Score (B)	Plan Score (C) (C) = (A) x (B)
Company Business Plan	4	3	12
ITB Management Plan	2	3	6
Regional Development Plan	4	4	16
SMB Development Plan	4	2	8
Final Plans Score			42

3.3. Evaluation of ITB Transactions

- 3.3.1. Each ITB Transaction will be evaluated to determine whether it aligns with the ITB Bidder Instructions and with the ITB Terms and Conditions, with respect to ITB Eligibility and transaction types.
- 3.3.2. If a proposed ITB Transaction is found to not meet the criteria outlined in 3.3.1, it will be rejected during the ITB evaluation. For further clarity, a rejected ITB Transaction:
 - 3.3.2.1. will be counted as zero when calculating the final ITB Transaction evaluation score; and,
 - 3.3.2.2. will be counted as zero when calculating whether the Bidder has identified ITB Transactions totalling not less than 30% of the Bid Price.
- 3.3.3. If a Proposed ITB Transaction is found to meet the criteria outlined in 3.3.1, it will be given a score for Quality and a score for Risk, using the ratings in Tables 3-3 and 3-4.
 - 3.3.3.1. Quality will be assessed as to whether the Transaction responds to the requested components outlined in the Statement of ITB Work, the level of detail in the component, and how well the ITB Transaction meets the ITB Objectives.
 - 3.3.3.2. Quality will be rated on a scale of one (1) to four (4), using the ratings below in Table 3-3;

VALUE	ITB TRANSACTION - QUALITY Ratings
4	SUPERIOR The ITB Transaction is very well described. Most items contain a very good level of detail. The ITB Transaction demonstrates that most of Canada's ITB Objectives will be met.
3	GOOD The ITB Transaction is well described. Items are detailed. The ITB Transaction demonstrates that many of Canada's ITB Objectives will be met.
2	POOR The ITB Transaction is somewhat described. Several items are not detailed. The ITB Transaction demonstrates that some of Canada's ITB Objectives would be met.
1	VERY WEAK The ITB Transaction has minimal description. Most items are not detailed in any way. The ITB Transaction demonstrates that very few of Canada's ITB Objectives would be met.

Table 3-3, ITB Transaction Quality Ratings

- 3.3.3.3. Risk will be assessed as to the levels demonstrated in the Transaction of previous experience, ITB capability, and ITB planning, resources and engagement.
- 3.3.3.4. Risk will be rated on a scale of one (1) to four (4), using the ratings below in Table 3-4;

VALUE	ITB TRANSACTION - RISK FACTORS
4	SUPERIOR The ITB Transaction demonstrates a comprehensive level of experience, capability and committed planning, resources and engagement such that the probability of failure to achieve is extremely low.
3	GOOD The ITB Transaction demonstrates a good level of experience, capability and committed planning, resources and engagement, such that the probability of failure to achieve is low.
2	POOR The ITB Transaction demonstrates some level of experience, capability and committed planning, resources and engagement, such that the probability of failure to achieve is moderate.

VALUE	ITB TRANSACTION - RISK FACTORS
1	VERY WEAK The ITB Transaction demonstrates a very limited level of experience, capability and committed planning, resources and engagement, such that the probability of failure to achieve is significant.

Table 3-4, ITB Transaction Risk Ratings

- 3.3.4. The score for each ITB Transaction will be determined by multiplying together the following three items: i) the applicable CCV value (rounded to the closest million Canadian dollars); ii) the average Quality score; and iii) the average Risk score;
- 3.3.5. The resulting scores for each ITB Transaction will then be totalled, divided by the total ITB Commitment (or the total of the Bidder's identified ITB Transactions, whichever is greater) and multiplied by one hundred (100) to obtain the Final Transactions Score;
- 3.3.6. For the first tranche of ITB Transactions due at bid closing, the Bidder must achieve or exceed a Final Transactions Score of two-hundred and forty (240) points (out of a possible four hundred and eighty [480] points).

EXAMPLE:

In this example the Bidder makes an ITB Commitment of \$250M and has identified eligible ITB Transactions valued at \$80M in its ITB proposal at bid closing.

ITB Transaction #	CCV \$ (A)	Avg Quality score (B)	Avg Risk score (C)	Transaction Score (D)=(A) x (B) x (C)
001	\$20M	3	2	120
002	\$15M	4	3	180
003	\$45M	4	3	540
Total of Transaction scores				840
Final Transactions Score – (840/250) x 100				336

- 3.3.7. For the second tranche of ITB Transactions due from the winning contractor one year after contract award, the point score for these Transactions will be combined with the point score from the first tranche, and taken together, the minimum acceptable ITB Transaction assessment score is four hundred and eighty (480) points (out of a possible nine hundred and sixty [960]).

4.3.3. Once discussion and scoring are completed for all ITB Proposals, the results will be calculated and endorsed by all participants, and the pass/fail status of each Bidder will be conveyed to the PWGSC Contract Authority.

4.3.4. The ITB evaluation team will make every effort to ensure that the same officials participate throughout the entire evaluation, so as to ensure maximum fairness and consistency for all bidders.
