This amendment is raised to address the following questions:

Q1: Where are the tender samples to be sent?

A1: Tender samples are to be sent, at bid closing with your bid, to bid receiving.

Q2: On page 11/19 annex G technical specifications under vacuum pack the spec calls for the package to be back flushed with nitrogen/carbon dioxide to ease the sides and the packet must be tight around the beef jerky. We can't do both, if we back flush to de-stress the package it is not going to be tight.

Would DND accept a backflush only (as it maintains packet integrity more easily)?

A2: Yes, that is fine. Bidder must always ensure however that it does not compromise the 3 year shelf life. We still expect the oxygen scavenger to be in the package as well.

Q3: In the packaging spec annex G/material the top non forming film is referred to as the top print film, does this mean that they are requiring the film to be printed or are the usual pressure sensitive labels still OK?

A3: Labels are still ok.

Q4: The delivery date for this RFP is Sept 12, 2014, if the award is in the usual time frame of approximately 35-45 days after the closing date July 18, 2014 it would not allow enough time to procure the necessary materials and process the product.

ie: special film lead time is 6-8 weeks

ie: processing 90,000 packages 4-6 weeks

Would you accept that the delivery date be moved forward to 10 weeks after the RFP is awarded?

A4: Delivery date can be moved to Dec 12, 2014 which should give much more than the 10 weeks.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
