

1.9 MEASUREMENT
FOR PAYMENT
(Cont'd)

- .16 Contractor is to install new navigation light at the head of the new breakwater at completion of the project. The new navigation light will be supplied by the crown but the contractor will have to pick up in St. John's and deliver to Harbour Breton at his cost. The contractor is to clearly light and mark the new breakwater everynight during construction with flashing yellow lights. There will be no separate payment.
- .17 Contractor is to construct the concrete base for navigation light and the helicopter pad as per shown on the drawings. There will be no separate payment.
