Amendment No. 002 is raised to address questions from bidders and to clarify the requirement.

1. New and used equipment can be supplied to the client. The implies that all used equipment is fully operational and meets all safety requirements.
2. The “spark arrest” feature is required for the equipment supplied to the Ammo Bay.

The “DS” is “Diesel Safety”. These have extra safety features ie. Sealed components and electrical connections such as starter motor and alternator to reduce the possibility of an electrical arc.

3. R & T stands for Reach & Tier

Reach - horizontal reach forward from the machine

Tier - maximum height or telescopic tier lift

4. Due to the security requirement, it is going to be at least two months prior to awarding the contract to the successful bidder. This should provide sufficient time for the successful bidder to arrange for any specialized equipment to be ready for delivery at time of the award of the contract.
