The purpose of this amendment is to answer the following question:

Q1. Some clarification is required on the security lighting. It is our understanding that the two yard lights are working but are not sure if more are required. Also, there are two gates into the property but it looks like only one is used. Are we to place and compact gravel at the south end of the lot and made it a driveway?

A1. *No extra lighting required. Ensure existing lights are working properly. Ensure ramp to gae in use is properly compacted, graded, and sloped with gates in good working order. No work required on second site access.*
