GENERAL INFORMATION

1.0 PROJECT SUMMARY

AAFC is requesting proposals for the conduct of chemical analyses for pesticide residues in/on crop samples collected from field trials at several Canadian locations, in accordance with the requirements of the Organization for Economic Co-operation and Development (OECD) Principles of Good Laboratory Practices (GLP) (rev 1997), study plans (Appendix B – Annex 11), and Health Canada's Pest Management Regulatory Agency regulatory directive, DIR98-02 "Residue Chemistry Guidelines" (available at <http://www.pmra-arla.gc.ca/english/pdf/dir/dir9802a-e.pdf>).

All bids must be in Canadian dollars. Evaluations for cost per point are calculated on the total cost of the project, excluding GST or HST (if applicable). Only the Canadian currency value for the bid will be used in evaluating a proposal. The Canadian currency value for a bid is fixed at the time of the proposal, irrespective of future changes in currency rate.

GST /HST (if applicable) can only be collected if your company has a GST/HST registration number. For further information please contact Canada Revenue Agency at: <http://www.cra-adrc.gc.ca/sitemap-e.html#tax>.

The failure by US companies to bid in Canadian dollars (a mandatory requirement of the solicitation) is sufficient to make its proposal non-compliant. AAFC will reject a US company's bid made in any currency other than Canadian.

PART 1: BIDDER INSTRUCTIONS, INFORMATION AND CONDITIONS

1.0 CONTRACTUAL CAPACITY

- 1.1 The bidder must have the legal capacity to enter into legally binding contracts. If the bidder is a sole proprietorship, a partnership or a corporate body, the bidder shall provide a statement indicating the laws under which it is registered or incorporated together with the registered or corporate name and place of business and the country where the controlling interest/ownership of the organization is located as per Appendix E of this RFP.

2.0 ACCEPTANCE OF TERMS AND CONDITIONS

- 2.1 Agriculture and Agri-Food Canada will only consider Proposals which accept Agriculture and Agri-Food Canada's terms and conditions.
- 2.2 The General Conditions attached in Appendix A and those set out in Part 3 of this RFP shall form part of any Resulting Contract.

3.0 INCURRING COST

- 3.1 The cost to prepare the Proposal will not be reimbursed by Agriculture and Agri-Food Canada.
- 3.2 No cost incurred before receipt of a signed Contract or specified written authorization from the Contracting Authority can be charged to any Resulting Contract.

4.0 ENQUIRIES - SOLICITATION STAGE

- 4.1 All enquiries or issues concerning this solicitation must be submitted in writing to the Contracting Authority named on the cover page of the RFP. It is the responsibility of the bidder to obtain clarification of the requirements contained herein, if necessary prior to submitting a proposal.
- 4.2 Enquiries and issues must be received by the Contracting Authority no later than ten (10) calendar days prior to the solicitation closing date specified herein to allow sufficient time to provide a response. Enquiries or issues received after that time may not be able to be answered prior to the solicitation closing date.
- 4.3 To ensure consistency and quality of information provided to bidders, the Contracting Authority will provide, simultaneously to all bidders any information with respect to **significant** enquiries received and the replies to such enquiries without revealing the sources of the enquiries.
- 4.4 All enquiries and other communications with government officials throughout the solicitation period are to be directed **ONLY** to the Contracting Authority named below. Noncompliance with this condition during the proposal solicitation period may (for that reason alone) result in disqualification of a Proposal.

- 4.6 Bidders shall not place any conditions or make any assumptions that attempt to limit or otherwise modify the scope of Work pursuant to the Statement of Work (Appendix B)

5.0 RIGHTS OF CANADA

5.1 Canada reserves the right to:

1. Accept any Proposal in whole or in part, without prior negotiation;
2. Reject any or all Proposals received in response to this RFP;
3. Cancel and/or re-issue this RFP at any time;
4. Ask the bidder to substantiate any claim made in the Proposal;
5. Enter into negotiations with one or more bidders on any or all aspects of their Proposals;
6. Award one or more Contracts;
7. Retain all Proposals submitted in response to this RFP.

6.0 SUBSTANTIATION OF PROFESSIONAL SERVICES RATES

6.1 In Canada's experience, bidders will from time to time propose prices at the time of bidding that they later refuse to honour, on the basis that these prices do not allow them to recover their own costs and/or make a profit. When evaluating the prices for professional services bid, Canada may, but will have no obligation to, require price support for any prices proposed. Examples of price support that Canada would consider satisfactory include:

1. documentation (such as billing records) that shows that the bidder has recently provided and invoiced another customer (with whom the bidder deals at arm's length) for services similar to the services that would be provided under a resulting contract, and the fees charged are equal to or less than the price offered to Canada (to protect the privacy of the customer, the bidder may black out the customer's name and personal information on the invoice submitted to Canada);
2. a signed contract between the bidder and an individual qualified (based on the qualifications described in this bid solicitation) to provide services under a resulting contract where the amount payable under that contract by the bidder to the resource is equal to or less than the price bid;
3. a signed contract with a subcontractor who will perform the work under any resulting contract, which provides that the required services will be provided at a price that is equal to or less than the price bid; or
4. details regarding the salary paid to and benefits provided to the individuals employed by the bidder to provide services, where the amount of compensation, when converted to a per diem or hourly rate (as applicable), is equal to or less than the rate bid for that resource category.

Once Canada requests substantiation of the prices bid, it is the sole responsibility of the bidder to submit information (either the information described in the examples above, or other information that demonstrates that it will be able to recover its own costs based on the prices it has proposed) that will allow Canada to determine whether it can rely, with confidence, on the bidder's ability to provide the required services at the prices bid, while, at a minimum, recovering its own costs. Where Canada determines that the information provided by the bidder does not demonstrate the bidder's ability to recover its own costs in providing the prices bid, Canada may, at their sole discretion declare the bid non-compliant.

7.0 MANDATORY CLAUSES

7.1 Where the words "must", "shall" or "will" appear in this RFP, the clause is to be considered as a mandatory requirement.

8.0 DEBRIEFING

- 8.1 After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within the timeframe specified in the contract award notice. The debriefing may be in writing, by telephone or in person at the discretion of the Contracting Authority.

9.0 OFFICE OF THE PROCUREMENT OMBUDSMAN

If you have issues or concerns regarding the solicitation, you have the option of raising them with the department or with the Office of the Procurement Ombudsman (OPO). The Office of the Procurement Ombudsman was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at boa.opo@boa.opo.gc.ca. You can also obtain more information on the OPO services available to you at their website at www.opo-boa.gc.ca.

If no change is made, it is deemed that the applicable law specified above is acceptable to the Bidder.

de toute condition du marché d'acquisition n'empêche pas cette partie d'exiger l'exécution de cette condition lors d'une inexécution subséquente, et n'est pas réputée être une renonciation à exercer en recours pour une inexécution subséquente, ni interprétée comme telle.

GC7. Time of the Essence

It is essential that the Work be performed within or at the time stated in the Contract.

CG7. Délais de rigueur

Il est essentiel que les travaux soient exécutés dans le délai ou au moment fixé dans le marché d'acquisition.

GC8. Excusable delay

8.1 Any delay by the Contractor in performing the Contractor's obligations under the Contract which occurs without any fault or neglect on the part of the Contractor its subcontractors, agents or employees or is caused by an event beyond the control of the Contractor, and which could not have been avoided by the Contractor without incurring unreasonable cost through the use of work-around plans including alternative sources or other means, constitutes an excusable delay.

CG8. Retard excusable

8.1 Tout retard de l'entrepreneur à s'acquitter de ses obligations en vertu du marché d'acquisition, qui survient en l'absence de toute faute ou négligence de la part de l'entrepreneur, de ses sous-traitants, de ses mandataires ou de ses employés, ou qui est causé par un événement indépendant de la volonté de l'entrepreneur, et que l'entrepreneur n'aurait pu empêcher sans assumer des frais exorbitants en recourant, par exemple, à des plans de redressement, incluant d'autres sources, ou à d'autres moyens, constitue un retard excusable.

8.2 The Contractor shall give notice to the Minister immediately after the occurrence of the event that causes the excusable delay. The notice shall state the cause and circumstances of the delay and indicate the portion of the Work affected by the delay. When requested to do so by the Minister, the Contractor shall deliver a description, in a form satisfactory to the Minister, of work-around plans including alternative sources and any other means that the Contractor will utilize to overcome the delay and endeavour to prevent any further delay. Upon approval in writing by the Minister of the work-around plans, the Contractor shall implement the work around plans and use all reasonable means to recover any time lost as a result of the excusable delay.

8.2 L'entrepreneur doit informer le ministre dès que se produit un fait qui entraîne un retard excusable. Il doit préciser, dans son avis, la cause et les circonstances du retard et mentionner la partie du travail qui est touchée. À la demande du ministre, l'entrepreneur fournit une description, sous une forme jugée acceptable par le ministre, des plans de redressement, dans lesquels il mentionne d'autres sources et d'autres moyens qu'il pourrait utiliser pour rattraper le retard et s'efforcer d'en prévenir d'autres. Dès la réception de l'approbation écrite des plans de redressement par le ministre, l'entrepreneur doit mettre ces plans de redressement à exécution et prendre tous les moyens raisonnables pour rattraper le retard excusable.

8.3 Unless the Contractor complies with the notice requirements set forth in the Contract, any delay that might have constituted an excusable delay shall be deemed not to be an excusable delay.

8.3 Si l'entrepreneur ne respecte pas les conditions du marché d'acquisition ayant trait à cet avis, tout retard qui pourrait être excusable n'est pas considéré comme tel.

8.4 If an excusable delay has continued for thirty (30) days or more, Canada may, by giving notice in writing to the Contractor, terminate the Contract. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any other loss arising out of the termination or the event that contributed to the excusable delay. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination.

8.4 Après trente (30) jours ou plus de retard excusable, le Canada peut, par avis écrit à l'entrepreneur, résilier le marché d'acquisition. En l'occurrence, les parties conviennent de renoncer à toute réclamation pour dommages, coûts, profits anticipés ou autres pertes découlant de la résiliation ou de l'événement qui a contribué au retard excusable. L'entrepreneur convient de rembourser immédiatement au Canada la portion de toute avance non liquidée à la date de la résiliation.

8.5 Unless Canada has caused the delay by failing to meet an obligation under the Contract, Canada will not be responsible for any cost incurred by the contractor or any subcontractors or agents as a result of an excusable delay.

8.5 Sauf si le retard excusable est dû au manquement du Canada de s'acquitter d'une obligation en vertu du marché d'acquisition, le Canada n'est pas responsable des coûts additionnels encourus par l'entrepreneur ou l'un de ses sous-traitants ou mandataires par la suite d'un retard excusable.

8.6 If the Contract is terminated under this section, Canada may require the Contractor to deliver to Canada, in the manner and to the extent directed by Canada, any completed parts of the Work not delivered and accepted before the termination and anything that the Contractor has acquired or produced specifically to perform the Contract. Canada will pay the Contractor:

8.6 Si le marché d'acquisition est résilié en vertu du présent article, le Canada peut exiger que l'entrepreneur lui livre, selon les modalités et dans la mesure prescrites par le Canada, toutes les parties achevées des travaux qui n'ont pas été livrées ni acceptées avant la résiliation, de même que tout ce que l'entrepreneur a acquis ou produit expressément pour l'exécution du marché d'acquisition. Le Canada paie alors à l'entrepreneur :

- (a) the value, of all completed parts of the Work delivered to and accepted by Canada, based on the Contract price, including the proportionate part of the Contractor's profit or fee included in the Contract price; and

- a) la valeur, calculée en fonction du prix contractuel, y compris la quote-part du profit ou des honoraires de l'entrepreneur inclus dans le prix contractuel, de toutes les parties des travaux terminées qui sont livrées et acceptées par le Canada;

RFP Reference #01B68-14-0208

(b) the cost to the Contractor that Canada considers reasonable in respect of anything else delivered to and accepted by Canada.

8.7 The total amount paid by Canada under the Contract to the date of termination and any amounts payable under this subsection must not exceed the Contract price.

GC9. Termination of convenience

9.1 Notwithstanding anything in the Contract, the Minister may, by giving notice to the Contractor, terminate or suspend the Contract immediately with respect to all or any part or parts of the Work not completed.

9.2 All Work completed by the Contractor to the satisfaction of Canada before the giving of such notice shall be paid for by Canada in accordance with the provisions of the Contract and, for all Work not completed before the giving of such notice, Canada shall pay the Contractor's costs as determined under the provisions of the Contract in an amount representing a fair and reasonable fee in respect of such Work.

9.3 In addition to the amount which the Contractor shall be paid under section GC9.2, the Contractor shall be reimbursed for the Contractor's cost of and incidental to the cancellation of obligations incurred by the Contractor pursuant to such notice and obligations incurred by or to which the Contractor is subject with respect to the Work.

9.4 The Contractor shall have no claim for damages, compensation, loss of profit, allowance or otherwise by reason of or directly or indirectly arising out of any action taken or notice given by Canada under the provisions of section GC9 except as expressly provided therein.

9.5 Upon termination of the Contract under section GC9.1, Canada may require the Contractor to deliver and transfer title to Canada, in the manner and to the extent directed by Canada, any finished Work which has not been delivered prior to such termination and any material, goods or Work-in-progress which the Contractor specifically acquired or produced for the fulfilment of the Contract.

GC10. Termination due to Default of Contractor

10.1 Canada may by notice to the Contractor, terminate the whole or any part of the Contract:

a) if the Contractor fails to perform any of the Contractor's obligations under the Contract or in Canada's view, so fails to make progress so as to endanger performance of the Contract in accordance with its terms;

b) to the extent permitted under law, if the Contractor becomes bankrupt or insolvent, or a receiving order is made against the Contractor, or an assignment is made for the benefit of creditors, or if an order is made or resolution passed for the winding up of the Contractor, or if the Contractor takes the benefit of a statute relating to bankrupt or insolvent debtors; or

c) if the Contractor makes a false declaration under GC 37 or GC 38 or fails to comply with the terms set out in GC 16.3 or GC 39.

10.2 Upon termination of the Contract under section GC10, the Contractor

b) le coût de l'entrepreneur que le Canada juge raisonnable en ce qui concerne toute autre chose livrée au Canada et acceptée par le Canada.

8.7 Le montant total versé par le Canada en vertu du marché d'acquisition jusqu'à sa résiliation et tous les montants payables en vertu du présent paragraphe ne doivent pas dépasser le prix contractuel.

CG9. Résiliation pour raisons de commodité

9.1 Nonobstant toute autre disposition du marché d'acquisition, le ministre peut, en donnant un avis à l'entrepreneur, résilier ou suspendre le marché d'acquisition sans délai relativement à la totalité ou à toute partie des travaux non terminée.

9.2 Les travaux terminés par l'entrepreneur à la satisfaction du Canada avant l'envoi d'un tel avis sont payés par le Canada conformément aux dispositions du marché d'acquisition; pour les travaux non terminés au moment de la signification de cet avis, le Canada paie à l'entrepreneur les coûts, déterminés de la façon précisée dans le marché d'acquisition, au montant représentant une indemnité juste et raisonnable relativement à ces travaux.

9.3 En plus du montant qui lui est payé en vertu de l'article CG9.2, l'entrepreneur a droit au remboursement des frais liés à la résiliation, consécutivement à cet avis, des engagements qu'il a pris et des frais connexes, ainsi que des engagements qu'il a pris ou des obligations qui lui incombent relativement aux travaux.

9.4 L'entrepreneur ne peut réclamer de dommages-intérêts, d'indemnité, de perte de profits ou d'autre compensation pour aucune raison se rapportant directement ou indirectement à une mesure prise par le Canada ou à un avis donné par lui en vertu des dispositions de l'article CG9, sauf de la façon et dans la mesure qui y sont expressément indiquées.

9.5 Au moment de la résiliation du marché d'acquisition en vertu de l'article CG9.1, le Canada peut exiger que l'entrepreneur lui remette, de la façon et dans la mesure qu'il précise, tout travail complété qui n'a pas été livré avant l'arrêt des travaux ainsi que les matériaux, les biens ou les travaux en cours que l'entrepreneur a acquis ou produits expressément pour l'exécution du marché d'acquisition.

CG10. Résiliation pour manquement de la part de l'entrepreneur

10.1 Le Canada peut, par avis à l'entrepreneur, résilier le marché d'acquisition, en tout ou en partie :

a) si l'entrepreneur ne s'acquitte pas de toutes ses obligations en vertu du marché d'acquisition ou, de l'avis du Canada, ne fait pas avancer les travaux, au point de compromettre l'exécution du marché d'acquisition conformément à ses conditions;

b) dans la mesure permise par la loi, si l'entrepreneur fait faillite ou devient insolvable, fait l'objet d'une ordonnance de séquestre, fait cession de ses biens au profit de ses créanciers, fait l'objet d'une ordonnance ou d'une résolution de liquidation, ou se prévaut de quelque loi concernant les débiteurs faillis ou insolubles; ou

c) si l'entrepreneur fournit une fausse déclaration en contravention des articles GC 37 ou GC 38 ou s'il contrevient à l'une des conditions prévues aux articles GC 16.3 ou GC 39.

APPENDIX B **STATEMENT OF WORK**

1.0 Background:

AAFC is requesting proposals for the conduct of chemical analyses for pesticide residues in/on crop samples collected from field trials at several Canadian locations, in accordance with the requirements of the Organization for Economic Co-operation and Development (OECD) Principles of Good Laboratory Practices (GLP) (rev 1997), study plans (Appendix B – Annex 11), and Health Canada’s Pest Management Regulatory Agency regulatory directive, DIR98-02 “Residue Chemistry Guidelines” (available at <http://www.pmr-arla.gc.ca/english/pdf/dir/dir9802a-e.pdf>).

Only the analytical methods in the list of projects in Annex 1 of this Appendix can be used. The methods are provided in PDF files Appendix B – Annexes 2 - 8 attached to this RFP.

Frozen samples will be shipped to the successful bidder(s) (laboratory) upon harvest from ongoing field trials. Anticipated harvest dates are indicated on the List of Projects (Appendix B, Annex 1). The exact shipping dates will be determined after the contract is awarded. Storage stability data will be required if, at the time of analysis, samples have been stored longer than the storage stability timeframe indicated on the List of Projects.

With the exception of modifications necessary to adapt the methods to different crop fractions, AAFC expects the methods to be followed as written. This applies specifically to the equipment (detector) used to determine the residue definition. If, however, upon review of the method provided, the bidder believes that a different detector can be used, a rationale for the modification must be clearly indicated in the proposal and all impacts or changes in the procedures on the reference method indicated. Upon awarding contracts, all modifications (if approved) will be incorporated into the analytical portion of the study plan.

For the purpose of preparing proposals, it is not a requirement to bid on all Projects. Proposals must be **submitted on the basis of project number** and not by study number. A project consists of all the respective studies specific to a given project number, the active ingredient, the commercial product, the crop(s), the number of trials conducted and the number of samples per trial (treated and untreated). The list of projects for which proposals are being sought is included in Annex 1 of this Statement of Work. The Residue Analysis Application Form (Appendix D – Annexes 1- 7) must be completed for each project for which a bid is being made.

Bidders must also complete the work plan/progress report template (Appendix B - Annex 10) with proposed time frames for the completion of samples.

As field trials are subject to the forces of nature throughout the growing season and possible changes in regulatory requirements, there is a possibility in either the cancelation of trials or a reduction in the number of samples required for residue analysis. This may result in the need to amend this RFP or to adjust contracts to reflect changes.

RFP Reference #01B68-14-0208

Bids must be in Canadian dollars. Evaluations for cost per point are calculated on the total cost of the individual project, excluding HST.

HST can only be collected if your company has a HST registration number. For further information please contact Canada Revenue Agency at:

<http://www.cra-adrc.gc.ca/sitemap-e.html#tax>.

The failure to provide bids in Canadian dollars will make the proposal non-compliant. AAFC will reject any bid not in Canadian currency.

It is expected that AAFC will have to contract with several different companies to complete the identified laboratory analysis for the specified projects. However, the degree of work that will be contracted is dependent upon many factors, including the response level to this RFP.

NOTE: Appendix B, Annex 1 contains the list of projects detailing the sample type, number of samples, the methods, and residues of concern.

Annexes 2 - 8 - Analytical methodologies

Annex 9 - Draft Study Plan Amendment

2.0 Objective:

To carry out laboratory analyses for pesticide residues in/on crop samples collected from field trials conducted at several Canadian locations, in accordance with GLP (rev 1997) and the study plans (draft found in Appendix B – Annex 9).

3.0 Scope of Work:

- Contractors must review study plan, analytical methodology and follow the study plan.
- Contractors must follow their Standard Operating Procedures (SOPs). Any deviation to SOPs related to a study plan must be documented, signed by the principal investigator and test site management, and sent to the study director for approval.
- Contractors must provide a copy (electronic or printed) of their SOPs to the project authority. For returning contractors only those SOPs that have been reviewed since the last contract with AAFC need to be provided.
- Contractors must ensure qualified quality assurance personnel oversee GLP compliance.
- Contractors must provide a copy of the facility master schedule.
- Contractors must notify study directors when crop samples have been delivered by an authorized carrier.
- Contractors must store crop samples in accordance with the study plan and facility SOPs.
- Contractors must adapt/validate the analytical method as per study plan.
- Contractors must accurately record and verify all laboratory data and ensure the final analytical report as described in section 33 of the study plan accurately reflects all raw data when submitted to the study director.

RFP Reference #01B68-14-0208

- Contractors must submit all original raw data, as per study plan, to the study director unless otherwise specified by the study director.
- It may be necessary to retain a sample of the reference standard. This will be determined by the study director after the contracts have been awarded.
- Contractors must ensure that method validation and sample analyses are completed in a timely manner following receipt of samples in order to avoid requirement for freezer storage stability analysis and respect completion of analysis as per proposal. (no later than six months from receipt of the final field sample and appropriate reference standards, unless approved by the study director or project authority).
- Contractors must ensure the steps are taken to address storage stability needs. This includes preparing samples upon arrival for storage stability analysis.
- The completed final analytical report and raw data for each study must be submitted to AAFC no later than six months from receipt of the final field sample and appropriate reference standards, unless approved by the study director or project authority.

The analytical phase portion of each study plan will include the following laboratory analysis requirements:

A) Reference method modification (if required)

Contractors must use methods listed in Appendix B, Annex 1. If modifications are necessary due to test matrix interferences, these must be documented and approved by the study director prior to samples analysis.

B) Method validation

1. To be done for **each Residue Definition on each crop fraction.**
2. The method may be validated prior to receipt of the field samples using store purchased (preferably organic) crop fraction. Documentation of the purchase date and the supply source is required.
3. To validate the method, analyze one control sample, and three fortified replicates, at each of three levels of fortification. The three levels will be: the limit of quantitation (LOQ), 2X LOQ and 10X LOQ (or as specified in the study plan). The minimum number of validation samples will be 10.

C) Sample analysis

1. A solvent blank must be run with each set during the course of the analysis.

2. Adequate concurrent recovery samples that bracket the actual residues must be analysed.
3. The concurrent recovery is conducted with sample analysis and is separate from the method validations.

D) Storage stability analysis

1. The schedule for storage stability analysis must include a 0-day, 30 days and **every 90 days thereafter** until the length of the longest sample storage period, unless otherwise indicated by the study director in the study plan. Upon validation of the method and approval by study director, for each crop fraction, a minimum of three replicates per time frame are to be fortified at 10X LOQ and put in frozen storage. Three samples of each analyte per crop fraction will be analyzed after the appropriate storage period. One control sample and three freshly fortified controls will also be included at each time frame.
2. To avoid delays in storage stability data generation, contractors must provide a schedule listing the steps taken to conduct the storage stability analysis when this data are required.

NOTE: All projects must follow the study plan and meet the appropriate policies and data requirements of the Health Canada's Pest Management Regulatory Agency (PMRA) with respect to residue chemistry as noted in Section 1.0.

4.0 Qualifications:

Provide proof of current GLP recognition: a current copy of the GLP certificate issued by the Standards Council of Canada (SCC). SCC is the organization responsible for accrediting Canadian laboratories to OECD, GLP standards. U.S. laboratories are governed by the Environmental Protection Agency (EPA) GLP regulations. There is a memorandum of understanding (MOU) regarding GLP acceptability, between PMRA in Canada and the EPA in the U.S. Hence, in place of SCC accreditation, proposals will be accepted from laboratories operating in the United States, if they provide a copy of their most recent facility inspection report conducted by the EPA (if available), and the most recent independent quality assurance auditor report for a critical phase and of a final report.

Acceptance of the above information, by Agriculture and Agri-Food Canada (AAFC) is conditional upon its review and assessment of these documents in meeting the requirements of Appendix "E", Section 1.2 and including the following:

RFP Reference #01B68-14-0208

- Document previous pesticide residue analysis experience for each project bid with respect to the active ingredient and/or the sample matrix.
- Provide an equipment listing and laboratory layout.
- Describe in terms of instrumentation and labour, how the proposed bid(s) will result in completed final analytical report(s) within the timelines listed in Section 5 below.
- Provide a copy of the facility master schedule.

5.0 Deliverables & Timelines:

6.0 General Information:

The list of projects is attached (**Annex 1 of Appendix B**)

- For each project, quotations should detail the activities and deliverables to be supplied, including modification of method (if needed), method validation, storage stability study, analysis of samples, Quality Assurance (QA) audit (in-process, raw data, final analytical report) reports and other costs, if any, such as archiving of data, long-term storage of samples, and a total cost for completing the requested statement of work.
- Note: a separate report is required for each active ingredient and crop combination ie. a report for each study number.
- For additional information, please contact the Contracting Authority,

7.0 Contract Duration

The contract period will start at the signing of the contract and continue until the date of completion of all projects as stipulated by the bidder in the work plan /progress report (Appendix B – Annex 10) with specific durations established for each study but may be extended at the discretion of the Project Authority if required. In most cases the crop samples will be harvested between May and December 2014.

8.0 Constraints

Field trials are subject to the forces of nature throughout the growing season and possible changes in regulatory requirements. This may result in either the cancellation of trials or a reduction/elimination in the number of samples required for residue analysis. Additionally, some storage stability data may not be required due to availability of new information, timing of analysis or changes in regulatory requirements. There may be a need to reduce the number of samples analyzed if analysis of the decline samples is not required. Consequently, this RFP may be amended or some chemical analysis contracts may need to be adjusted after being issued.

**APPENDIX D
EVALUATION PROCEDURES & CRITERIA**

TECHNICAL PROPOSAL

It is essential that the elements contained in the Proposal be stated in a clear manner and in sufficient depth to allow for evaluation by the evaluation team.

1.0 METHOD OF SELECTION – HIGHEST COMBINED SCORE OF TECHNICAL MERIT AND PRICE

- 1.1 The evaluation process is designed to identify the most qualified contractor to provide services as stipulated in the Statement of Work (Appendix B).
- 1.2 This section comprises the detailed Proposal requirements that will be used to evaluate Bidder’s responses to the Request for Proposal (RFP).
- 1.3 The mandatory requirements under section 2.0 will be evaluated on a compliant/non-compliant basis. The Proposals must include the necessary documentation to demonstrate this compliance.

Bidders must indicate whether they comply with the mandatory requirements below (section 2.0) and indicate the location (page, paragraph number, etc.) of the information provided in the Technical Proposal to support the requirements.

- 1.4 The selection of the responsive Proposal will be made on the basis of the **HIGHEST OVERALL SCORE** for both the technical and financial proposals. Highest overall score will be determined by adding the technical and financial points obtained.

The bidder’s Technical and Financial proposals will be scored separately. An Overall Proposal Score will be determined by combining a Bidder’s Technical Proposal Score and Financial Proposal Score in accordance with the following weights:

Technical Proposal = 90%

Financial Proposal = 10%

Overall Proposal = 100%

$$\frac{\text{Technical Score} \times \text{Ratio (90)}}{\text{Max Points}} + \frac{\text{Lowest Price} \times \text{Ratio (10)}}{\text{bidder's Price}} = \text{Combined Score}$$

Example of Method of Selection:

Highest Combined Rating Technical Merit (90%) and Price (10%)			
Calculation	Technical Points	Price Points	Total Points
Proposal 1 - Tech = 88/100 - Price = \$200.00	$\frac{88 \times 90}{100} = 79.2$	$\frac{*125 \times 10}{200} = 6.0$	= 85.2

Proposal 2 - Tech = 82/100 - Price = \$130.00	$\frac{82 \times 90}{100} = 73.8$	$\frac{125 \times 10}{130} = 9.62$	= 83.42
Proposal 3 - Tech = 76/100 - Price = \$125.00*	$\frac{76 \times 90}{100} = 68.4$	$\frac{125 \times 10}{125} = 10$	= 78.4
* Represents the lowest priced proposal bidder 1 is successful with the highest combined rating of 85.2			

The responsive Proposal which receives the highest score of the combined points for the **Technical Proposal** rated requirements (**90%**) and the **Financial Proposal** rated requirements (**10%**) will be considered for contract award in the related project.

1.5 **To be considered responsive, a proposal must:**

- 1- Meet all the mandatory requirements specified in section 2.0 below;
- 2- Achieve the overall **minimum scores identified in each criterion.**

1.6 The price of the Proposal will be evaluated in CANADIAN DOLLARS, Goods and Services Tax (GST)/Harmonized Sales Tax (HST) excluded, FOB destination for goods/services, Customs Duties and Excise Taxes included.

1.7 Failure of a Proposal to provide information in sufficient detail and depth to permit evaluation against the identified criteria may render a Proposal non-responsive. **All bidders are advised that only listing experience without providing any supporting data to describe where and how such experience was obtained will not be considered to be “demonstrated” for the purpose of the evaluation. All professional experience must be fully demonstrated in the Proposal (i.e., dates, number of years and months of experience).**

1.8 The Bidder acknowledge and agree that Canada is not responsible to search for, and therefore evaluate, information that is not properly referenced or is not otherwise provided in accordance with the Proposal Preparation Instructions in Part 2, Article 3.0.

1.9 Bidders shall not place any conditions or make any assumptions that attempt to limit or otherwise modify the scope of Work pursuant to the Statement of Work (Appendix B).

1.10 In the event two or more responsive proposals achieve the identical COMBINED SCORE, the proposal with the **highest technical score** will be considered the successful proposal.

2.0 MANDATORY REQUIREMENTS

Failure to comply with any of the mandatory requirements will render the Proposal non-compliant and the Proposal will receive no further consideration. The Bidder must include the necessary documentation to demonstrate this compliance.

Bidders should indicate the location (e.g. page, paragraph number, etc.) of the information provided in the Technical Proposal to support the mandatory requirements.

M1) The bidder must be currently recognized as a GLP compliant laboratory to conduct laboratory analyses on pesticide residues and must provide documentary evidence of this recognition.

M2) Fill in and submit the Residue Analysis Application Form (Appendix D – Annexes 1 to 10) for each project for which a bid is being made.

M3) The bidder must provide evidence at least one letter of reference of having completed a minimum of one GLP laboratory study in a satisfactory manner. Reference letters should demonstrate GLP work experience that is clearly related to the projects described. They must include the name of the organization for which the work was done, the name of the individual who was the project authority or equivalent, their phone number, fax, mailing, and email addresses (valid contact information only).

M4) The bidder must identify Quality Assurance personnel by providing their CV.

3.0 POINT RATED REQUIREMENTS

The Bidder should address the rated requirements in the order in which they are listed and in sufficient detail so that an in-depth evaluation is possible. These criteria will be used by Agriculture and Agri-Food Canada to evaluate each Proposal. The assessment by AAFC will be based solely on the information contained in the Proposal. An item not addressed will be given zero (0) points under the point rated system. AAFC may, but is not obligated to, ask the Bidder for clarifications.

The rated requirements have been selected to provide evaluators the ability to assess the bidder capacity and ability to conduct the trial work for which a proposal has been submitted. The marking scheme reflects a balance between complexities of the criteria evaluated weighted towards the criteria deemed critical to the success of the trial (Each criteria will be marked according to completeness, clarity, and rationales provided).

Refer to Appendix D, Annexes 1 – 10 of the RFP.

Bidders must also complete the work plan/progress report template (Appendix B - Annex 10) with proposed time frames for the completion of samples.

G) JOINT VENTURES

1.0 In the event of a proposal submitted by a contractual joint venture, the proposal shall be signed by either all members of the joint venture or a statement shall be provided to the effect that the signatory represents all parties of the joint venture. The following will be completed if applicable:

1. The Bidder represents that the bidding entity is/is not (delete as applicable) a joint venture in accordance with the definition in paragraph 3.

2. A Bidder that is a joint venture represents the following additional information:

3. Definition of joint venture

A joint venture is an association of two or more parties who combine their money, property, knowledge, skills, time or other resources in a joint business enterprise agreeing to share the profits and the losses and each having some degree of control over the enterprise. Joint ventures may be carried on in a variety of legal forms divided into three categories:

- (a) The incorporated joint venture;
- (b) The partnership venture;
- (c) The contractual joint venture where the parties combine their resources in the furtherance of a single business enterprise without actual partnership or corporate designation.

4. The joint venture team arrangement is to be distinguished from other types of Contractor arrangements, such as:

(a) Prime Contractor, in which, for example, the purchasing agency contracts directly with a Contractor (prime) who acts as the system assembler and integrator, with major components, assemblies and subsystems normally subcontracted;

(b) Associated Contractor, in which for example, the purchasing agency contracts directly with each of the major component suppliers and performs the integration tasks or awards a separate contract for this purpose.

5. If the Contract is awarded to an unincorporated joint venture, all members of the joint venture shall be jointly and severally responsible for the performance of the Contract.

PROGRAM FOR EMPLOYMENT EQUITY - CERTIFICATION

I, the Bidder, by submitting the present information to the Contracting Authority, certify that the information provided is true as of the date indicated below. The certifications provided to Canada are subject to verification at all times. Canada will have the right to ask for additional information to verify the Bidder's certifications.
