AMENDMENT 005

You will find below questions that were asked by potential bidders. You must take into account this information upon submitting a proposal.

Question 4

Regarding the sub criterion 1 of criterion B.2.5- Qualifications of the proposed resources, it is specified in the evaluation scale that the proposed resource should have completed at least two certifications (depending of the number of points) from the following : RH CE, RH CDS, RH 401et RH 318 from Red Hat.

Would a similar or equivalent training such as a

- Certified Engineer (CE),
- Certified Datacenter Specialist (CDS),
- Enterprise Deployment and System Management (401) et/ou
- Enterprise Virtualization (318)

not specific to Red Hat/Linux system would also be considered acceptable? If so, would the certification CompTIA Security+ (<http://certification.comptia.org/getCertified/certifications/security.aspx>) be acceptable?

Answer 4

Similar or equivalent non Red Hat-specific training, as proposed, is not acceptable because it does not show that the resource has experience with Red Hat.

Question 5

DRDC asks to install the latest version of RHEL. Then, they specify RHEL version 6. However, the latest version of RHEL is version 7. Can the Contractor choose between RHEL6 or the "latest version" RHEL7.

Answer 5

When the Statement of Work was written, the latest version was RHEL 6. Now it is RHEL 7. The Contractor will have to install RHEL 7.

Question 6

DRDC requires that the CL nodes implement the RS-232, RS-422 and RS-485 protocols with the C2-2 machine. These protocols potentially require the purchase of additional material (eg transceivers). Must the Contractor include the cost of the equipment in its bid. Or will the equipment be made available to the Contractor by DRDC?

Answer 6

All necessary equipment will be made available to the contractor by the Canada.

Question 7

There are two types of embedded platforms: Gumstix Overo and Beaglebone Black that will have to be chosen. Who will make the choice about the platform? DRDC or the Contractor?
