The debriefing may be in writing, by telephone or in person.

You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at [boa-opo@boa.opo.gc.ca](mailto:boa-opo@boa.opo.gc.ca). ## **PART 2 - BIDDER INSTRUCTIONS**

### **1. Standard Instructions, Clauses and Conditions**

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) Manual issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, certifications, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2014-06-26) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

**Subsection 1.4 and 1.5 of 2003, Standard Instructions - Goods or Services - Competitive Requirements, does not form part of and not apply to the bid solicitation. All other subsections of '01 Integrity Provisions – Bid', form part of and apply to the bid solicitation.**

Delete: sixty (60) days

Insert: \_\_\_\_\_ (\_\_) days

### **2. Submission of Bids**

Bids must be submitted only to Correctional Service Canada (CSC) by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile or email to CSC will not be accepted.

### **3. Communications – Solicitation Period**

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) business days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

### **4. Applicable Laws**

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Alberta.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their

Correctional Service  
Canada

Service correctionnel  
Canada

choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

## **PART 3 - BID PREPARATION INSTRUCTIONS**

### **1. Bid Preparation Instructions**

CSC requests that bidders provide their bid in separately bound sections as follows:

Section I:        Technical Bid: **three (3) hard copies**  
Section II:       Financial Bid: **one (1) hard copy**  
Section III:      Certifications: **one (1) hard copy**

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

**Bidders are requested to submit their Financial Bid in an envelope separate from their technical proposal.**

CSC requests that bidders follow the format instructions described below in the preparation of their bid:

- i. use 8.5 x 11 inch (216 mm x 279 mm) paper;
- ii. use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders are encouraged to:

- i. use paper containing fibre certified as originating from a sustainably-managed forest and/or containing minimum 30% recycled content; and
- ii. use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

### **2. Section I: Technical Bid**

In their technical bid, bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability in a thorough, concise and clear manner for carrying out the work.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

### **3. Section II: Financial Bid**

Section II: Financial Bid

- 1.1 Bidders must submit their financial bid in Canadian funds and in accordance with the pricing schedule detailed in Annex B - Proposed Basis of Payment. The total amount of

- 1.5 When preparing their financial bid, bidders should review clause 1.2, Financial Evaluation, of Part 4.

#### **1.1 Technical Evaluation**

##### **1.1.1 Mandatory Technical Criteria**

#### **1.2 Financial Evaluation**

Three year average markup % per procedure total ÷ 3 = Average procedure markup rate for three years of contract. **Lowest total average will be awarded the contract.**

- 3.2 If the information is not provided in the bid, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

## PART 5 - CERTIFICATIONS

Bidders must provide the required certifications to be awarded a contract. Canada will declare a bid non-responsive if the required certifications are not completed and submitted as requested.

Compliance with the certifications bidders provided to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after award of a contract. The Contracting Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. If the answers to the questions and, as applicable, the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. ## 1. Background / Contexte

Correctional Service Canada (CSC) is mandated, under the Corrections and Conditional Release Act (CCRA), to “provide every inmate with essential health care and reasonable access to non essential mental health care”

The Commissioner’s Directives 800 series are the key references on essential health services (Clinical services, mental health and public health services).

The mission of Health Services is to provide offenders with efficient and effective health services that **encourages individual responsibility, promotes healthy reintegration and contributes to safe communities.**

Health care services must respect gender, cultural, religious and linguistic differences, and be responsive to the special needs of women, Aboriginal peoples, persons requiring mental health care and other groups.

In order to support inmates in taking responsibility for proactively safeguarding their health, CSC provides:

- information and education on health promotion and disease prevention
- direct health care services

Le Service correctionnel Canada (SCC) est tenu, aux termes de la *Loi sur le système correctionnel et la mise en liberté sous condition*, de veiller « à ce que chaque détenu reçoive les soins de santé essentiels et qu’il ait accès, dans la mesure du possible aux soins qui peuvent faciliter sa réadaptation et sa réinsertion sociale ».

Les directives du commissaire de la série 800 constituent les principaux documents de référence sur les services de santé essentiels (services cliniques, santé mentale et santé publique).

La mission des Services de santé est de fournir aux délinquants des services de santé efficaces et efficaces **qui permettent de promouvoir la responsabilité individuelle, favoriser la saine réinsertion sociale et contribuer à la sécurité des collectivités.**

Les Services de santé doivent respecter les différences entre les sexes, les cultures et les groupes linguistiques et tenir compte des besoins propres aux femmes, aux personnes Autochtones, aux personnes nécessitant des soins en santé mentale et d’autres groupes.

Pour aider les détenus à assumer leurs responsabilités afin qu’ils prennent des mesures proactives pour protéger leur santé, le SCC fournit :

- de l’information et de la formation sur la promotion de la santé et la prévention des maladies;
- des soins de santé directs.

Health Services are provided in ambulatory Health Service Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Inmates may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC's regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.

In broad terms, health care means medical, dental, mental health care and public health services. During the period of incarceration, inmates are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.

Within CSC the comprehensive health services provided to inmates are administratively managed in three categories: clinical services, mental health and public health. Clinical Services refers to assessment, diagnosis and treatment of acute and chronic physical illnesses. Mental health care includes assessment, intervention, treatment and support services and discharge planning provided to inmates with significant mental health needs in the areas of emotion, thinking and/or behaviour.

Les services de santé sont fournis dans les centres de soins ambulatoires à l'intérieur des établissements, dans les hôpitaux régionaux et dans les centres de traitement / psychiatriques régionaux. Il est possible que les détenus doivent se rendre dans la collectivité pour y recevoir des soins d'urgence, des soins spécialisés ou pour y être hospitalisés, lorsque cela est impossible dans un hôpital régional du SCC. Au SCC, les soins de santé sont dispensés par des professionnels de la santé réglementés et non réglementés.

En termes généraux, les soins de santé comprennent les soins médicaux, dentaires, les soins de santé mentale et les services de santé publique. Pendant la durée de leur incarcération, les détenus ont droit à tout un éventail de services de santé coordonnés qui sont accessibles, abordables et adaptés au milieu correctionnel.

Au sein du SCC, les services de santé complets offerts aux détenus sont administrés selon trois catégories : les services cliniques, la santé mentale et la santé publique. Les services cliniques visent le dépistage, le diagnostic et le traitement des maladies aiguës ou chroniques. Les soins de santé mentale comprennent le dépistage, l'intervention, le traitement et les services de soutien ainsi que la planification de la continuité des soins offerts aux détenus qui ont des besoins importants en santé mentale pour ce qui touche les émotions, la pensée ou le comportement.

Public health consists of the services and resources provided to inmates related to health promotion and education; prevention, control and management of infectious diseases; epidemiology and surveillance; and discharge planning for community reintegration.

La santé publique consiste en les services et ressources fournis aux détenus en ce qui concerne la promotion et l'éducation en matière de santé; la prévention, le contrôle et la gestion des maladies infectieuses; l'épidémiologie et la surveillance ainsi que la planification de la continuité des soins en vue de la réinsertion sociale dans la collectivité.

One of the key priorities for Health Services is to maintain the quality and consistency of essential health service delivery. As highlighted in the Audit of Physical Health Care Delivery to Inmates (April 2008), in the past CSC defined essential services in general terms. This left room for interpretation by site health services personnel as to which health services are essential and provided by CSC, and which are non-essential and may be provided if paid for by the inmate. This led to inconsistency in the provision of health care services from site to site.

L'une des principales priorités des Services de santé est de maintenir la qualité et l'uniformité des soins de santé essentiels dispensés. Comme en témoigne le rapport sur la vérification des soins de santé physique dispensés aux détenus (avril 2008), le SCC définissait par le passé les services essentiels en termes généraux, ce qui laissait une marge au personnel des soins de santé de chaque établissement pour déterminer les soins de santé qui sont essentiels et dispensés par le SCC et ceux qui ne sont pas essentiels et qui peuvent être prodigués sous réserve que le détenu en règle la note. Cela se traduisait par un manque d'uniformité d'un établissement à l'autre dans la prestation des soins de santé.

The purpose of this Framework and the [National Formulary](#) is the promotion of quality and consistency in health services across the country, and allows CSC to make decisions based on monitoring and analyzing the effectiveness and efficiency of essential health services.

Le but de ce Cadre et le [Formulaire national](#) est de promouvoir la qualité et l'uniformité des services de soins de santé à travers le pays et il permet au SCC de prendre des décisions fondées sur la surveillance et l'analyse de l'efficacité et de l'efficience des services de santé essentiels.

## 2. CSC National Advisory Committee on Essential Health Services / Comité consultatif national sur les services de santé essentiels du SCC

---

In order to move forward with the development of a comprehensive framework a National Advisory Committee on Essential Health Services was established in 2009 to provide an effective ongoing oversight mechanism to ensure accountability, consistency, cost effectiveness and best practices specific to the needs of CSC's population. The Committee has adopted a phased approach to clarify/define essential health services in the areas of clinical services, mental health and public health.

The Committee is responsible for making recommendations on new and emerging services and technologies and enhances national consistency through revision and updates to the Framework.

In the first phase (2009-2010) CSC, under the leadership of the Committee, addressed the recommendation of the Audit of Physical Health Care Delivery to Inmates (April 2008) and focused on services in Health Service Centres in institutions, namely, clinical services.

Pour faire avancer l'élaboration d'un cadre global, un Comité consultatif national sur les services de santé essentiels a été mis sur pied en 2009 afin de fournir un mécanisme de surveillance continue pour assurer la responsabilisation, l'uniformité, la rentabilité et l'établissement de pratiques exemplaires propres aux besoins de la population du SCC. Le Comité a adopté une approche progressive pour cerner et définir les services de soins de santé essentiels dans les domaines des services cliniques, de la santé mentale et de la santé publique.

Le Comité formule des recommandations sur les nouveaux services et technologies et accroît l'uniformité à l'échelle nationale grâce à des révisions et des mises à jour du cadre.

Au cours de la première étape (2009-2010), le SCC, sous la gouverne du Comité, a donné suite à la recommandation issue de la vérification des soins de santé physique dispensés aux détenus (avril 2008) et s'est concentré sur les services offerts dans les centres de santé en établissement, notamment les services cliniques.

In the second phase (2010-2011), the Committee focused on mental health services. Annex D – Mental Health Services outlines a framework for decision making on the provision of essential mental health services along the continuum of care from intake through to warrant expiry, including mental health screening at intake, primary mental health care, intermediate mental health care, intensive care at the regional treatment centres, and transitional care for release to the community.

Durant la deuxième étape (2010-2011), le Comité s'est penché sur les services de santé mentale. L'Annexe D – Services de santé mentale présente un cadre pour la prise de décisions relatives à la prestation de services de santé mentale essentiels tout au long du continuum des soins. Ce continuum comprend : le dépistage des troubles mentaux à l'évaluation initiale, les soins de santé mentale primaires, les soins de santé mentale intermédiaires, les soins intensifs dans les centres régionaux de traitement et les soins de transition en vue de la remise en liberté dans la collectivité.

In the third phase (2011-2012), the Committee focused on public health services. Annex E Public Health Services provides a framework for the provision of public health services to inmates.

Durant la troisième étape (2011-2012), le Comité a examiné les services de santé publique. Un cadre pour la prestation de ces services aux détenus est présenté à l'Annexe E (Services de santé publique).

---

### **3. Access to essential services / Accès aux services essentiels**

---

There are several ways that health services may be accessed. Inmates may initiate access by submitting, in confidence, a request for health services (clinical services, mental health, public health), and indicating the reason for the request. Inmate requests are reviewed, prioritized according to urgency, and services are provided by a health care provider.

Il y a plusieurs voies d'accès aux services de santé. Les détenus peuvent présenter, à titre confidentiel, une demande de services de santé (services cliniques, santé mentale, santé publique) en précisant le motif de leur demande. Ces demandes sont examinées et classées par ordre de priorité en fonction de leur niveau d'urgence. Un fournisseur de soins de santé dispense ensuite des services au détenu.

An inmate may also be referred to Health Services by any staff in the institution.

Un détenu peut aussi être aiguillé vers les Services de santé à la demande d'un membre du personnel de l'établissement.

Some Health Service Centers have “drop in hours” where inmates can be seen by showing up at the Centre. Visits with Physicians/Specialists (including Psychiatrists) and other health care professionals are pre-booked according to need and institutional operational requirements. When inmates are referred to community medical/psychiatric services they are subject to the same waiting period as community members. The use of private clinics for the provision of essential health services is not permitted in CSC. Accessing community services is also subject to the operational requirements of the institution.

Certains centres de services de santé ont des heures de cliniques sans rendez-vous durant lesquelles les détenus peuvent être vus lorsqu'ils se présentent au centre de santé. Les rendez-vous avec des médecins ou des spécialistes (y compris des psychiatres) sont pris à l'avance en fonction des besoins et des exigences opérationnelles de l'établissement. Lorsque des détenus sont aiguillés vers des services médicaux/psychiatriques à l'extérieur des établissements, ils sont assujettis au même délai d'attente que les membres de la collectivité. Le recours aux cliniques privées pour l'obtention de services de santé essentiels n'est pas permis au SCC. L'accès aux services offerts dans la collectivité est également en fonction des exigences opérationnelles de l'établissement.

---

#### 4. Access to non-essential services / Accès aux services non essentiels

---

According to [CD 800](#), “inmate requested services deemed non-essential will be at the inmate’s complete expense including consultation fees; and at the discretion of the Institutional Heads, any associated escort costs. Health Services shall be responsible for the coordination of arrangements for inmate requested services.”<sup>a</sup>

Selon la [DC 800](#), « Lorsque le détenu demande des services qui ne sont pas jugés essentiels par le médecin de l'établissement, il doit en assumer tous les frais; y compris les frais de consultation et, à la discrétion du directeur, les coûts connexes associés aux fonctions d'escorte. Les services de santé sont responsables de la coordination des dispositions relatives aux services demandés par des détenus. »<sup>b</sup>

---

<sup>a</sup> Form 532 (Inmate Request to Encumber/Disburse Funds) is completed by the inmate with the assistance of health services staff

<sup>b</sup> Le formulaire 532 (Demande du détenu pour charger/déboursier des fonds) doit être complété par le détenu avec l'aide du personnel des Services de santé

## 5. Guiding Principles for decisions about essential and non-essential services / Principes directeurs relatifs aux décisions sur les services essentiels et non essentiels

---

The following guiding principles were considered in the development of the list (and exclusions) of funded services and are in accordance with relevant legislation, CSC Policy and CSC Health Services' Mission:

Les principes directeurs suivants ont servi de référence pour l'élaboration de la liste des services financés (et des exclusions) et est en conformité avec législation pertinente, la politique du SCC et la mission des Services de santé.

The goal is the provision of essential health services to CSC's inmate population;

L'objectif est la prestation de services de santé essentiels à la population carcérale du SCC;

CSC recognizes that health outcomes are a shared responsibility between service providers and inmates. Inmates will be expected to take responsibility and be proactive in safeguarding their health;

Le SCC reconnaît que les résultats en matière de santé sont une responsabilité partagée entre les prestataires de services et les détenus. On s'attend à ce que les détenus assument cette responsabilité et soient proactifs pour protéger leur santé;

In meeting its mandate to provide essential services, CSC should not normally exceed the level of health services that are available through provincially public-funded health and social service programs;

Dans le mandat qui lui est confié de fournir des services essentiels, le SCC ne doit normalement pas excéder le niveau des services de santé disponibles dans les réseaux de santé publics et de services sociaux provinciaux;

Provincially public-funded services vary across provinces and CSC is responsible for establishing national standards that promote effectiveness and efficiency;

Les services financés par les réseaux publics provinciaux varient d'une province à l'autre et le SCC est responsable d'établir des normes nationales qui favorisent l'efficacité et l'efficience;

Medical, dental and mental health care services will be provided by health care professionals conforming to professionally accepted standards; and

Les soins médicaux, dentaires et de santé mentale seront dispensés par des professionnels de la santé autorisés conformément aux normes professionnelles reconnues; et

Health services will be provided consistent with the unique requirements of the correctional environment emphasizing safety, security and in support of the correctional plan.

Les services de santé seront dispensés dans le contexte des exigences uniques à l'environnement correctionnel, la protection et la sécurité demeurant toujours des priorités de même que l'appui au plan correctionnel.

Incarceration presents an important public health opportunity to promote and protect the health of a population with a high co-morbidity of diseases at high risk of contracting and spreading infectious diseases.

Sur le plan de la santé publique, l'incarcération est une occasion de favoriser et de protéger la santé d'une population ayant un taux de comorbidité élevé, ainsi qu'un risque élevé de contracter et de propager des maladies infectieuses.

Public health services are tied to epidemiology and surveillance which are the on-going processes of collecting, analyzing and sharing information about risks and disease trends and distributions occurring in a population so that the appropriate prevention, education and treatment requirements can be identified.

Les services de santé publique doivent effectuer des études d'épidémiologie et de la surveillance, ce qui englobe la collecte, l'analyse et la communication continue de renseignements sur les risques et sur les tendances relatives aux maladies contractées au sein d'une population et elle vise à déterminer les mesures appropriées en matière de prévention, de sensibilisation et de traitement.

Essential health services are provided to inmates throughout their incarceration including assessment and screening at intake, the provision of acute, intermediate and chronic care during incarceration and the planning for health care services upon release into the community.

Les services de santé essentiels sont offerts aux détenus tout au long de leur incarcération, ce qui comprend l'évaluation et le dépistage à l'admission, la prestation de soins actifs et intermédiaire et de soins aux malades chroniques pendant l'incarcération et la planification des soins de santé en prévision de la mise en liberté dans la collectivité.

These principles recognize that the determination about which service is required for an inmate at a specific time remains the function of the health care professionals, based on a sound clinical assessment.

Ces principes reconnaissent qu'il appartient aux professionnels de la santé de décider des services à dispenser au détenant à un moment précis, en fonction de l'évaluation clinique effectuée.
