## **Amendment 001 – Gymnasium Equipment**

### **Questions from bidders with response back from Public Works and Government Services Canada.**

**Q1.** Can you confirm if installation is required as a part of this solicitation?

**A1.** Installation was not included as part of this solicitation. Only “supply and delivery”

**Q2.** If installation is required, could we receive answers to the following logistical questions please?

- Is there a loading dock available?

**A2.** No loading dock

**Q3.** Is the fitness facility on the main floor?

**A3.** The items will be delivered to a main floor location some items will be moved to satellite locations after delivery.

**Q4.** If not, is there a freight elevator?

**A4.** No freight elevator.

**Q5.** Are there double doors all the way from the outside of the building to the final installation spot?

**A5.** NA

**Q6.** For the Treadmill, the minimum mandatory specification listed for speed is “**Speed: 0 to a minimum 15kph**”. I have a feeling this is supposed to read “**Speed: 0 to a minimum 15MPH**” rather than the currently listed 15kph. 15MPH is a standard speed for a heavy duty commercial treadmill.

**A6.** 15 MPH is correct, the 15KPH is a typo.

**Q7.** For the Spin Bikes, the last specification reads “Max unit weight: 90lbs”. Combined with the other mandatory specifications for the Spin Bikes, this leaves only ONE possible complaint option - KEISER. However, if the max unit weight was amended to “Max unit weight: 120lbs”, it would allow for multiple

compliant options competing for the Spin Bikes. Please see the manufacturer spin bike documentation listed on the following attachment.

**A7.** The max weight of 90lbs is important as our bikes are located up stairs and are used in other locations from time to time. 120lbs bikes are too heavy to safely move.

**Refer:** Annex ``A`` - Requirement, Treadmill

**Delete:** In its Entirety

**Insert:** Annex ``A`` - Requirement, Treadmill

Quick start

Speed: 0 to a minimum 15 MPH

Max user weight: minimum 400 lbs

Display to read: time, pace, calories, distance, heart rate, incline

Heart rate monitor compatible

Incline: minimum 0-15%

Rollers: minimum 2.5" crowned with sealed bearings

Running Surface Length: minimum width of 20", minimum length of 60"

Minimum 4HP AC motor

Reversible Deck (silicone impregnated or equivalent)

Heavy commercial grade

Warranty: minimum 5 years parts, 1 year labour
