## PURCHASE DESCRIPTION COLLAPSIBLE SIDEBREAK BATON SCABBARD

### 1. SCOPE

This purchase description describes the requirement for a collapsible baton sidebreak scabbard for use by Border Services Officers within the Canada Border Services Agency (CBSA).

### 2. DETAILED DESCRIPTION

The collapsible baton sidebreak scabbard must meet the following specified construction/material requirements and performance tests and construction/material requirements.

The sidebreak baton scabbard must be made of durable polycarbonate. The sidebreak scabbard must be custom designed to secure the CBSA issued baton (purchase description dimensions specified below) in open or closed position and allow for easy re-holstering. The scabbard must be no-glare black in colour and must attach securely to a 50 mm standard police type web belt system. The scabbard must be minimally intrusive when affixed to the web belt system. The scabbard must have 360° swivel capability with several locking positions.

#### CBSA Collapsible Baton Dimensions:

Extended Length	53 cm (plus or minus 1 cm)
Maximum Retracted Length	20 cm (plus or minus 1.5 cm)
Handle Diameter (including grip)	2.7 cm (plus or minus 0.5 cm)
Tip Size	1 cm x 1.5 cm (plus or minus .25 cm)

### 3. SEALED SAMPLES

A sealed sample, identified by the purchase description number noted in the contract, will be supplied to the contractor when available. This will constitute the standard in regards to any properties not identified within. Variation from the purchase description may appear in the sample in which case the purchase description shall govern unless otherwise identified on the sealed sample tag.

#### 4. TECHNICAL INSPECTION

The contractor shall be responsible for the inspections necessary to demonstrate that the goods being supplied conform to the requirements of this purchase description.

The CBSA Technical Authority reserves the right to perform any inspection considered necessary to ensure the goods conform to the specified requirements. For the purpose of inspection, a portion of each delivery not exceeding two percent or two out of any number delivered fewer than 100 may be inspected that could destroy the goods. If found to be inferior or not in accordance with this specification, all goods so destroyed shall be replaced by others of proper quality at the expense of the contractor. The entire delivery may also be rejected if it is found that goods previously rejected due to non-repairable defects are redelivered for inspection.

#### 5. DELIVERY, PACKING AND MARKING OF CONTAINERS

It is the responsibility of the contractor to ensure that goods are packaged in a suitable manner to be delivered in an undamaged condition. Any goods received in a damaged container will be returned to the contractor for replacement at full cost.

Packing and marking of shipping containers shall be as specified in the invitation to tender.

A packing slip shall be enclosed showing the contents of each shipment.

The contractor shall also identify clearly on the outside of each package (box) the following items:

- Item name and description
- Material Master Number
- Quantity of each size contained in the box
- Contract Number

#### 6. INSTRUCTIONS

The sidebreak scabbard must come with clear and precise utilization instructions in both English and French.

#### 7. WARRANTY

The scabbard must have a one (1) year warranty, which will ensure that scabbards that are defective and have not been subjected to abuse are replaced at no cost to the buyer.
