PURCHASE DESCRIPTION DEFENSIVE SPRAY SECURABLE HOLDER

1. SCOPE

This purchase description describes the requirement for defensive spray securable holder for use by Border Services Officers within the Canada Border Services Agency (CBSA).

2. GENERAL DESIGN REQUIREMENTS

- 2.1 Defensive spray securable holder shall be used by uniformed operational personnel to hold Oleoresin Capsicum (Aerosol Irritant Projector) and Inert Spray and shall fit into securable holder on the officer's equipment belt.
- 2.2 All articles or materials covered by this purchase description shall be free from imperfections that may affect its appearance or serviceability.
- 2.3 In the event of any inconsistency in the contract documents, purchase descriptions or sealed samples, the aforementioned shall prevail in the following order:
 - Contract
 - Purchase Description
 - Sealed Sample

3. DETAILED DESCRIPTION

The securable holder shall be made of thermal formed nylon or cordura nylon. The holder shall secure the canister (dimensions specified below).

Canister Dimensions:

Height: 11cm \pm 3mm

Diameter: 3.8 \pm 3mm

The holder shall retain its shape when the canister is un-holstered and allow for easy re-holstering. The holder shall have a flap with a rustproof, no-glare, no-wear snap closure to secure the canister in place. The holder shall attach securely to a 50 mm standard police type web belt system. The holder shall be black in colour.

4. SEALED SAMPLES

A sealed sample, identified by the purchase description number noted in the contract, will be supplied to the contractor when available. This will constitute the standard in

regards to any properties not identified within. Variation from the purchase description may appear in the sample in which case the purchase description shall govern unless otherwise identified on the sealed sample tag.

5. TECHNICAL INSPECTION

The contractor shall be responsible for the inspections necessary to demonstrate that the goods being supplied conform to the requirements of this purchase description.

The CBSA Technical Authority reserves the right to perform any inspection considered necessary to ensure the goods conform to the specified requirements. For the purpose of inspection, a portion of each delivery not exceeding two percent or two out of any number delivered fewer than 100 may be inspected that could destroy the goods. If found to be inferior or not in accordance with this specification, all goods so destroyed shall be replaced by others of proper quality at the expense of the contractor. The entire delivery may also be rejected if it is found that goods previously rejected due to non-repairable defects are redelivered for inspection.

6. DELIVERY, PACKING AND MARKING OF CONTAINERS

- 6.1 It is the responsibility of the contractor to ensure that goods are packaged in a suitable manner to be delivered in an undamaged condition. Any goods received in a damaged condition will be returned to the contractor for replacement at his full cost.
- 6.2 The contractor will package the goods in accordance with the industry standards and best commercial packaging.
- 6.3 The contractor will also identify clearly on the outside of each package (box) the following items:
 - Material Master Number
 - Quantity of each size contained in the box
 - Contract Number
