Public Works and Government Services Canada		Page 1 of 1
Project No. R.043854.007	EMSI Generator Upgrade Edmonton Maximum Security Institution	September 10, 2014
Solicitation No.		Addendum No.1

The following change(s) to the tender documents are effective immediately, and will form part of the contract documents:

1. GENERAL

1.1	The Bidding Documents are amended as noted in this Addendum, which consists of one (1) page and the following attachments: 1. New architectural drawing #A1.1 – Site Plan & Details 2. Revised architectural drawing #A0.0 – Cover Sheet
1.2	This Addendum is issued prior to bid closing to incorporate revisions noted herein. Include in the Bid price all such revisions which will become part of the Work. Perform all such Work in accordance with the Contract Documents.
1.3	All affected drawings, schedules and panel changes shall be reflected in final as-built and manual submissions.

2. CHANGES TO PREVIOUS ADDENDA

2.1	N/A
-----	-----

3. CLARIFICATIONS

3.1	N/A
-----	-----

4. SPECIFICATIONS

4.1	Refer to Section 01 11 00 – Summary of Work: New article 1.9 “CHANGE OVER SCHEDULING AND PROVISIONS” to read as follows: “It is imperative that generator backup be maintained with a bare minimal amount of down time. Generator down time will have to be scheduled and the Institution will need to know a minimum 48 hours in advance. The contractor will have to have a plan in place for temporary fuel supply while the day tank is being re-plumbed and switched over. As well the exterior fuel tank may need to be drained to be relocated and a plan will need to be in place to ensure that the generators are not down for an extended period of time during that process as well.”
