Question	Answer
<p>#49- Regarding Amendment 1 Question and Answer #7: "For the purposes of this RFP, SSC will accept CPSA contract call ups as one contract in order to substantiate M1 and R1, provided that at least \$5M was billed within the last 5 years as per the requirement."</p> <p>Unfortunately since CPSA is now under TBIPS there is currently no Government of Canada contract authority available for reference for the entire supply arrangement. The email below confirms that no PWGSC representative can attest to the volume of call ups. Therefore can SSC please confirm that a GoC departmental reference for a relevant CPSA call up will be an acceptable reference. The individual call ups are less than the \$1M requirement however this would be submitted in conjunction with written and signed attestation (by providing call up numbers and contract values) from the bidder that the total sum of all call ups is greater than \$5M as per the above amendment. Please confirm that a CPSA departmental call up reference can be used for R1 & M1.</p>	<p>Confirmed that a department CPSA call up reference is acceptable for the purposes of M1 and R2 with the understanding that sum total of contracts submitted will amount or exceed the \$5M minimum.</p>
<p>#50- In regards to R2 and R3 of the Point-Rated Technical Criteria on page 75 of the RFP, please confirm that it is acceptable to reference a client contract that is currently on-going (with an end date that has not yet been reached).</p>	<p>Bidders may use an ongoing contract to substantiate their response providing that all billable days claimed for Category substantiation have already been billed by the Bidder, and that the contract's total valued billed is currently at least \$1M. Where CPSA is being used as a reference contract, the total valued billed must be \$5M.</p>

ALL OTHER TERMS AND CONDITIONS OF THIS INVITATION TO QUALIFY
REMAIN UNCHANGED.
