Solicitation Amendment N° 002/b is raised to answer a question received as follows:

September 23rd, 2014

Question:

"In this solicitation, under section 3.0 performance requirements – 3.0 C.8. states “not a convertible seat” can you please clarify? Also for this same section would the end user accept a 50 lb rear rack capacity?"

Answer:

“A convertible seat is a modified or removable seat that changes the machines person capacity from a single person to a multiple (two) person seat.

The multiple person capacity seat must not take away or diminish the rear rack weight capacity at a minimum of 150 lbs. Anything less than minimum will not be acceptable.”
