

Q & A – RFP # FIN-907102-2014-09-22

Q1: Could you please provide additional information by what is meant by an “incentive and pricing agreement”? Could this be viewed as a complex costing exercise for government services or products?

A1: The Memorandum of Understanding between the Mint and the Government of Canada includes a pricing agreement, whereby we require a costing structure for the supply of Canadian coins by the Mint to the Government, and an incentive structure that incentivizes the Mint to produce high quality domestic coinage while minimizing the associated costs.
