Amendment 001

This amendment is issued to answer a question from a potential bidder and make revisions to RFP as follows.

Question

Q1: It is indicated in the RFP documents, Annex D - Section 3.1.1 that the Proponent should be a Structural Engineer (Dam Engineer). However, the Structural Aspect of the dam is not the main issue as the dam is an earthfill and the spillway problem constitutes a small component.

Is it possible that the Project Manager of the Proponent would be other than a structural Engineer such as a Hydrotechnical/Dam Engineer or even Geotechnical Engineer with experience in dam design and rehabilitation without affecting the technical score?

A1: The principal should be an engineer with dam design experience. For both dams, the main issues are geotechnical and structural was inserted in error. The key is that it must be a firm that has experience in earthfill dam construction and design.

Revisions

In: **Annex A – Team Identification Format**
Delete: **I. Prime Consultant (Proponent - Structural Engineer - Dam Engineering):**
Replace with:

I. Prime Consultant (Proponent - Dam Engineering):

Firm or Joint Venture Name:
.....
.....

Key Individuals and provincial professional licensing status and/or professional accreditation:

.....
.....
.....
.....
.....

In: **Annex D – Submission Requirements and Evaluation (SRE)**

Delete: **3.1.1 Licensing, Certification or Authorization**

3.1.2 Consultant Team Identification

Replace with:

3.1.1 Licensing, Certification or Authorization

The proponent shall be a Dam Engineer licensed, or eligible to be licensed, certified or otherwise authorized to provide the necessary professional services to the full extent that may be required by provincial law in the provinces of British Columbia.

3.1.2 Consultant Team Identification

The consultant team to be identified must include the following:

- a) Proponent (Prime Consultant)
 - Dam Engineering
- b) Key Sub-Consultants and/or Specialists
 - Civil Engineer (Hydrology and hydraulics specialist)
 - Geotechnical Engineer
 - Environmental assessment and monitoring specialist

Information required - name of firm, key personnel to be assigned to the project. For the prime consultant, indicate current license and/or how you intend to meet the provincial or territorial licensing requirements.

In the case of a joint venture identify the existing or proposed legal form of the joint venture (refer to R1410T General Instructions to Proponents, G19 Limitation of Submissions).

An example of an acceptable format (typical) for submission of the team identification information is provided in Annex A.
