PART 1 - GENERAL INFORMATION

1. Introduction

The bid solicitation is divided into six (6) parts plus attachments and annexes as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Bidder Instructions: provides the instructions, clauses and conditions applicable to the bid solicitation;
- Part 3 Bid Preparation Instructions: provides bidders with instructions on how to prepare their bid;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria that must be addressed in the bid, and the basis of selection;
- Part 5 Certifications: includes the certifications to be provided;
- Part 6 Resulting Contract Clauses: includes the clauses and conditions that will apply to any resulting contract.

The Annexes include the Statement of Work, [the Basis of Payment](#), and the Evaluation Criteria.

2. Summary

This bid solicitation is being issued to satisfy the requirement of Canadian Federal Government Libraries (the "Client") for Subscriptions Acquisition, Subscriptions Management and Delivery of Subscriptions functions for Information Products. It is intended to result in the award of a contract [for 1 year, plus 2](#) one-year irrevocable options allowing Canada to extend the term of the contract.

Bidders must provide a list of names, or other related information as needed, pursuant to section 01 of Standard Instructions 2003.

3. Debriefings

After contract award, Bidders may request a debriefing on the results of the bid solicitation. Bidders should make the request to the Contracting Authority within 15 working days of receipt of notification that their bid was unsuccessful. The debriefing may be provided in writing, by telephone or in person.

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2014-06-26) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.4 of 2003, Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) days
Insert: one hundred eighty (180) days

Add Subsection 5.9 to 2003, Standard Instructions - Goods or Services - Competitive Requirements, Canada also reserves the following rights:

Although bids should be properly signed when submitted at bid closing, for this bid solicitation, if Canada determines that the Bidder has not signed the bid as required, Canada will provide the Bidder with an opportunity to submit a proper signature page. Bidders can sign their bids by copying the front page of this bid solicitation, signing it, and submitting it as part of their bid or by including a signature page in a prominent location in their bids.

2. Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation. Bids sent directly to the Contracting Authority will not be considered.

Due to the nature of the bid solicitation, bids transmitted by facsimile to Public Works and Government Services Canada will not be accepted.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than ten (10) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Ontario.

Bidders may, at their own discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of its choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

5. Withdrawal of Information Product with Third Party Terms and Conditions

Bidder agrees that in the event the Client requests the supply of Online Information Products during the Contract period, that if a Publisher submits their own terms and conditions such as but not limited to; a License Agreement, by which the Client must sign in order to get access to the Online Information Product bought through the Contractor, the Contractor agrees that in such event, the Online Information Product(s) will be removed from any resulting contract and Canada will proceed to procure that Online Information Product directly with the Publisher. The Publisher is considered a Third Party with regards to the contract between Canada and the Contractor. Bidders who do not accept the terms of Canada's contract will be declared non-responsive.

6. Improvement of Requirement During Solicitation Period

Should bidders consider that the specifications or Statement of Work contained in the bid solicitation could be improved technically or technologically, bidders are invited to make suggestions, in writing, to the Contracting Authority named in the bid solicitation. Bidders must clearly outline the suggested improvement as well as the reason for the suggestion. Suggestions that do not restrict the level of competition nor favour a particular bidder will be given consideration provided they are submitted to the Contracting Authority at least 10 days before the bid closing date. Canada will have the right to accept or reject any or all suggestions.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Canada requests that bidders provide their bid in two separately bound sections as follows:

SECTION I - TECHNICAL BID (1 hard copy and 4 soft copies)

SECTION II - FINANCIAL BID (1 hard copy)

SECTION III - CERTIFICATIONS (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>).

To assist Canada in reaching its objectives, bidders are encouraged to:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and/or containing minimum 30% recycled content; and

-
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

SECTION I: TECHNICAL BID

In their technical bid, bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability and describe their approach in a thorough, concise and clear manner for carrying out the work.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

SECTION II: FINANCIAL BID

1.1 Bidders must submit their financial bid in accordance with [Annex C](#).

1.2 SACC Manual Clauses

C3010T ([2013-11-06](#)), Exchange Rate Fluctuation Risk Mitigation

SECTION III: CERTIFICATIONS

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria in accordance with [Annex C, Section I](#).

1.1.2 Point Rated Technical Criteria in accordance with [Annex C, Section II](#).

1.2 Financial Evaluation

The Financial Bid will be evaluated in accordance with [Annex C, Section III](#).

2. Basis of Selection

2.1 To be declared responsive, a bid must:

- a) comply with all the requirements of the bid solicitation; and
- b) meet all mandatory criteria; and
- c) obtain the required minimum of **40 points** overall for the technical evaluation criteria which are subject to point rating.

The rating is performed on a scale of **55 points**.

- 2.2 Bids not meeting a), b) or c) above will be declared non-responsive.
- 2.3 The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be **40 %** for the technical merit and **60 %** for the All-inclusive Fee.
- 2.4 To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of **40 %**.
- 2.5 To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of **60 %**.
- 2.6 For each responsive bid, the technical merit score and the all-inclusive fee score will be added to determine its combined rating.
- 2.7 Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated all-inclusive fee will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and all-inclusive fee will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 40/60 ratio of technical merit and all-inclusive fee, respectively. The total available points equal 55 and the lowest evaluated all-inclusive fee is 0%.

NOTE: Lowest all-inclusive fee will be assigned top rating of 60 points. The calculation for each Bidder's all-inclusive fee will be calculated as per the formula below.

CALCULATION for the All-inclusive fee score: $60 - 10(\text{bidder's fee} - \text{winning fee}) = x$

Basis of Selection - Highest Combined Rating **Technical Merit (40%) and All-inclusive Fee (60%)**

EXAMPLE:

	Bidder 1	Bidder 2	Bidder 3
Overall Technical Score	35/55	40/55	32/55
Bid All-inclusive Fee	0%	-1.0%	1%
Technical Merit Score	$35/55 \times 40 = 25.45$	$40/55 \times 40 = 29.09$	$32/55 \times 40 = 23.27$
Calculation			
All-inclusive Fee Score	$60 - 10(0\% - (-1.0\%)) = 50 \text{ points}$	$60 - 10(-1.0\% - (-1.0\%)) = 60 \text{ points}$	$60 - 10(1\% - (-1.0\%)) = 40 \text{ points}$
Combined Rating	75.45	89.09	63.27
Overall Rating	2nd	1st	3rd

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and associated information to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default in carrying out any of its obligations under the Contract, if any certification made by the Bidder is found to be untrue, whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority may render the bid non-responsive or constitute a default under the Contract.

1. Certifications Required Precedent to Contract Award

1.1 Integrity Provisions - Associated Information

By submitting a bid, the Bidder certifies that the Bidder and its Affiliates are in compliance with the provisions as stated in Section 01 Integrity Provisions - Bid of Standard Instructions 2004. The associated information required within the Integrity Provisions will assist Canada in confirming that the certifications are true.

1.2 All-Inclusive Fee Certification

The Bidder certifies that the **all-inclusive fee** proposed is not in excess of the lowest fee charged anyone else, including the Bidder's most favoured customer, for the like quality and quantity of the goods, services or both; and does not include an element of profit on the sale in excess of that normally obtained by the Bidder on the sale of goods, services or both of like quality and quantity; and does not include any provision for discounts to selling agents.

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

1. Requirement

- a) The Contractor agrees to supply to **each** Library (the "Client"), on an "as a when requested basis", the goods described in the Contract and in accordance with the Statement of Work in Annex A, in accordance with, and at the **all-inclusive fee** set out in the Contract.
- b) **[Initial Client with capacity to grow to a GoC-wide requirement]** **Client:** The initial Client is _____. However, the Contracting Authority can add additional Clients from time to time, which may include any department or Crown corporation as described in the *Financial Administration Act* (as amended from time to time), and any other party for which the Department of Public Works and Government Services may be authorized to act from time to time under section 16 of the *Department of Public Works and Government Services Act*.
- c) With respect to Online Information Products, the licensee under the Contract is Her Majesty the Queen in right of Canada, acting through and represented by the Minister of Public Works and Government Services. The Client is merely the user.

2. Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual issued by Public Works and Government Services Canada.

(<http://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>)

2.1 General Conditions

2030 (2014-09-25), General Conditions - Higher Complexity - Goods, apply to and form part of the Contract.

3. Term of Contract

3.1 Period of the Contract

The period of contract is from Contract Award Date up to and **December 31, 2015**, whereby the subscription periods for the various Information Products will vary but most will be for the term of a calendar year. Each Information Product Subscription Period will be documented in the Invoice and the Reporting requirement in Annex A - Statement of Work.

3.2 Option to Extend the Contract

The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to **two (2) additional one (1) year period(s)** under the same conditions. The Contractor agrees that, during the extended period of the Contract, it will be paid in accordance with the applicable provisions as set out in the Basis of Payment.

Canada may exercise this option at any time by sending a written notice to the Contractor **up to 120 calendar days** before the expiry date of the Contract. The option may only be exercised by the Contracting Authority, and will be evidenced for administrative purposes only, through a contract amendment.

4. Authorities

4.1 Contracting Authority

5. Ordering Process

5.1 Authorization for Delivery – Orders

Orders against the Contract will be made as-and-when requested by the Project Authority during the period of the Contract **via electronic correspondence**.

Step One: Upon Contract Award, each Project Authority will provide the Contractor with their majority order (the initial order covering all required Information Product Subscriptions known for the initial Contract Period) via electronic correspondence. See **Annex B - Table 1 - Order Tracking Report** for additional form to be completed by the Project Authority when submitting their order to the Contract. This form will be used by the Contractor for Invoicing purposes and reporting purposes to PWGSC Contracting Authority.

Step Two: The Contractor has 5 business days from receipt of each order request from each Project Authority to return via electronic correspondence a firm price Quote to each Project Authority for their order request(s).

Step Three: Each Project Authority will review their Quote and upon the approval from the Project Authority, which will be provided to the Contractor via electronic correspondence, the Contractor then has 5 business days to place the final and approved order(s) from each Project Authority to the Publisher(s).

***Each Project Authority will submit their final order with a copy of Annex B – Table 1 to the Contractor and each Project Authority will provide a copy of their Annex B – Table 1 to the PWGSC Contracting Authority.**

Step Four: The Contractor will send the Invoice to each Project Authority, including their unique Financial Code and Requisition No. as provided for in the accompanying **Table in Annex B - Table 1**. Upon receipt of the Invoice, the Project Authority will initiate payment if the Invoice is deemed in accordance with the pre-approved Quote and order agreed upon in the electronic correspondence. If the Invoice received is not deemed in accordance with the pre-approved Quote and order, then the Project Authority will advise the Contractor, in writing, within 5 business days of receipt of said Invoice, and the Contractor has 3 business days to resolve any issues. Payment of the Invoice(s) will only be made by the Project Authority once the Invoice is deemed acceptable by the Project Authority.

Should resolution not be found within 10 business days of issue being raised, both the Contractor and the Project Authority must contact the Contracting Authority for further discussion.

5.2 Additional Orders during the Contract Period

Since orders against the Contract will be made as-and-when requested by the Project Authority during the period of the Contract, each additional order after the majority order will follow the same process as detailed in 5.1 above.

5.3 Renewals after the initial Contract Period

Only upon exercising the option to extend the period of the Contract in accordance with Article 3.2 herein, will the Project Authority be able to submit their next year majority order with the Contractor.

Such renewal order(s) should be placed with the Contractor **up to 120 days** prior to subscription start date.

Contractor acknowledges and agrees that Canada does not accept auto-renewals to any Information Product Subscription(s).

5.4 Cancellation of a Subscription Order

Should the Contractor, for any reason, become aware of a reason to cancel any subscription order, the Contractor must immediately, but no later than within five (5) business days of the Contractor's knowledge of such reason, advise the Project Authority of such reason to cancel.

The Contractor must not cancel a subscription order unless the Project Authority advises to do so by electronic correspondence.

Within five (5) business days of the Contractor's receipt of the cancellation request, the Contractor must cancel the subscription and must confirm, via e-mail, to the Project Authority that the subscription cancellation has been made.

Upon cancellation of a subscription order, the Contractor must update the List of Journal Subscriptions by removal of each cancelled title from that List. Cancellations must be effective at the expiry date applicable for the specific subscription cancelled, and where applicable, immediately with the current volume and/or edition applicable for the specific subscription cancelled.

The Contractor must provide a pro-rata refund to any Cancelled (by Publisher or Project Authority) Print Subscription, where applicable. The refund must be received by the Project Authority within twenty (20) business days of the notification of the cancellation by the Contractor.

5.5 Claims

The Contractor must process claims for missing print journals as and when requested by the Project Authority, in accordance with the applicable electronic correspondence, approved and issued in accordance with the Contract. Within five (5) business days of the Contractor's receipt of the claim(s) for missing publication(s), the Contractor must process the claim(s) for missing publication(s) and must advise the Project Authority, via e-mail, of the publisher's response with respect to the claim(s).

5.6 Price Adjustments

Under no circumstance will Canada entertain any price adjustment from the Contract once a Quote is provided and accepted by the Project Authority and the order is placed.

6. Payment

6.1 Limitation of Expenditure

The Contractor will be reimbursed for the costs reasonably and properly incurred in the performance of the Work specified via electronic correspondence, as determined in accordance with the Basis of Payment in Annex B, to the limitation of expenditure specified in the Contract below in Article 6.2.

Canada's liability to the Contractor must not exceed the limitation of expenditure specified in the Contract. Customs duties are included and Goods and Services Tax or Harmonized Sales Tax is extra, if applicable.

No increase in the liability of Canada or in the price of the Work specified in the electronic correspondence and the Contract resulting from any design changes, modifications or interpretations of the Work will be authorized or paid to the Contractor unless these design changes, modifications or interpretations have been authorized, in writing, by the Contracting Authority before their incorporation into the Work.

6.2 Basis of Payment - Limitation of Expenditure - Cumulative Total of all Authorized Work Via Electronic Correspondence

Canada's total liability to the Contractor under the Contract for all authorized work, inclusive of any revisions, must not exceed the sum of \$_____. Customs duties are included and the Goods and Services Tax or Harmonized Sales Tax is extra, if applicable.

No increase in the total liability of Canada will be authorized or paid to the Contractor unless an increase has been approved, in writing, by the Contracting Authority.

The Contractor must notify the Contracting Authority in writing as to the adequacy of this sum:

- a) when it is 75 percent committed, or
- b) four (4) months before the contract expiry date, or
- c) as soon as the Contractor considers that the sum is inadequate for the completion of the Work required in all electronic correspondences, inclusive of any revisions, whichever comes first.

If the notification is for inadequate contract funds, the Contractor must provide to the Contracting Authority, a written estimate for the additional funds required. Provision of such information by the Contractor does not increase Canada's liability.

6.3 Refund for Non-Delivered Goods

In the event of a non-delivered Information Product, the Contractor must refund to Canada the pro-rated amount of the unliquidated portion of fees paid. The Contractor is to provide the refund to Canada no later than 15 days prior to the expiration of the current Contract period. Example: If the Project Authority paid \$1,600 for their subscription to a printed clinical journal with 4 issues per year and only received 2 issues, then the Contractor must refund to Canada \$800 for the non-delivered goods.

6.4 Competitive Award:

The Contractor acknowledges that the Contract has been awarded as a result of a competitive process. No additional charges will be allowed to compensate for errors, oversights, misconceptions or underestimates made by the Contractor when providing their Quote(s) to the Project Authority(ies) during the ordering process.

6.5 Multiple Payments with additional instruction

SACC Manual Clause H1001C (2008-05-12) and

Canada will make one lump sum payment upon receipt of acceptable invoice in conjunction with the initial majority order placed. Any further payments, constituting "multiple" payments will be made only in the event Canada has requested an additional order during the Contract Period, and approved the pricing in advance from the Contractor.

6.6 Discretionary Audit Commercial Goods and/or Services

SACC Manual Clause C0100C (2010-01-11)

7. Invoicing Instructions

- 7.1 **Invoice Submission:** The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions, and in accordance with any additional provision detailed in [Annex A - Statement of Work](#) and [Annex B - Basis of Payment](#). Invoices cannot be submitted until all work identified in the invoice is completed.
- 7.2 **Order Tracking Report** for invoicing purposes: Contract shall use the Order Tracking Report provided for in Annex B- Basis of Payment for invoicing purposes. The Project Authority will include this summarized report with their order so that the Contractor has the Requisition No. and Financial Code(s) which both must be included on the Invoice.
- 7.3 **Currency**
- i) In the event the Project Authority order Information Product(s) from a foreign Publisher, the Project Authority may opt to pay in the currency of their choice; either CAD or the currency of the Publisher.
 - ii) If the Project Authority elects to make their payment in CAD for a foreign Publisher, then the Contractor must provide the following information to the Project Authority along with the Invoice:
 - a) Copy of Publisher's Publisher List Price (tax extra, if applicable) in the currency (CAD\$, USD, Euro, GBP, etc) charged to the Contractor;
 - b) Proof of foreign funds purchased by the Contractor from the bank or lender of the Contractor's choice evidencing the cost of the exchange on the date the Contractor purchased the foreign funds. Merely stating an exchange rate on the Invoice will not be accepted.
 - iii) Each invoice must be supported by:
 - a) a copy of the electronic correspondence requesting the authorized work which must include the order (list of titles);

A risk may be an occurrence that has potential for significant negative consequences, such as situations involving factors that tend to increase the probability or severity of adverse results. To demonstrate its ability to recognize and manage risk, the bidder should:

		<p>Explain how the Bidder proposes to mitigate the potential negative consequences of the failure of publishers to deliver subscriptions to clients.</p> <p>Outstanding or Exceptional Response = 5 pts Well Addressed Response = 3 pts Satisfactory Response = 1 pt Unsatisfactory Response = 0 pts</p>
--	--	--

SECTION III: MANDATORY FINANCIAL EVALUATION

PWGSC will conduct the financial evaluation based on the methodology detailed below.

The Bidder must quote a firm "all-inclusive" Fee expressed as a percentage (%). This all-inclusive fee is to be based on the requirement as a whole, which includes;

- any option period exercised to extend the period of the Contract;
- any option Canada exercises to add another Client Department to the requirement; and
- fulfilling all obligations as outlined in the RFP and Annex A – Statement of Work.

Bidder to input their all-inclusive fee, as a percent, here ____%.

NOTE: Lowest all-inclusive fee will be assigned top rating of 60 points. The calculation for each Bidder's all-inclusive fee will be calculated as per the formula below.

CALCULATION for the All-inclusive fee score:

$$60 - 10(\text{bidder's fee} - \text{winning fee}) = x$$
