

# **Q & A #3 – RFP # FIN-907102-2014-09-**

## **22**

**Q3:** For the M1 and R1 the RFP refers to Pricing initiative. Our understanding is that projects with experience in complex federal department costing exercises will be acceptable?

**A3:** The Memorandum of Understanding between the Government of Canada and the Royal Canadian Mint (the Mint) sets out the arrangements under which the Government purchases Canadian coinage from the Mint. As such, the Government is seeking advice from a third-party consultant on the development of a revised Memorandum of Understanding with the Mint to ensure that the arrangements for the purchase of coins are effective and minimize the cost to taxpayers. While experience negotiating a Memorandum of Understanding is not necessary, any and all experience in costing, price agreements and incentive structuring, as well and contract negotiations will be considered.
